About the Report

Basis of Reporting

This Integrated Annual Report for FY 2025-26 presents a clear, balanced and forward-looking view of our business and performance. The Report is designed to provide transparency and long-term value creation insights for all our stakeholders.

Reporting Scope and Boundary

This Report covers the period from April 1, 2025, to March 31, 2026. It includes both financial and non-financial information for all business operations and subsidiaries/joint ventures of Lumax Auto Technologies Limited. Unless otherwise stated, all data is consolidated. It offers a comprehensive view through key sections such as the Board's Report, Management Discussion and Analysis (MD&A), Corporate Governance Report, Business Responsibility and Sustainability Report (BRSR), Standalone and Consolidated Financial Statements, Auditors' Report and the Notice of Annual General Meeting (AGM).

Target Audience

The Report is intended for a wide range of stakeholders, including shareholders, investors, customers, employees, partners, regulators and the broader community.

Our Approach to Materiality

We have identified and prioritised material topics that are most relevant to our business and stakeholders. These are based on industry trends, stakeholder expectations and their potential impact on our long-term performance.

Reporting Framework

The Report follows the principles of Integrated Reporting as outlined by the International Integrated Reporting Council (IIRC). It is prepared in line with the Securities and Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements) Regulations, 2015 and complies with applicable regulatory and reporting standards, including the Companies Act, 2013, Indian Accounting Standards (Ind-AS).

The Defining Upshift

There comes a defining moment in every journey when progress transcends motion and becomes momentum.

A moment when years of preparation, investment and disciplined execution converge to unlock a higher level of performance. In the language of mobility, it is the Upshift, the transition into a more powerful gear, undertaken not by chance, but through readiness.

For Lumax Auto Technologies Limited, FY 2025-26 marks that defining momentum.

Over the years, the Company has steadily expanded its capabilities, strengthened partnerships, integrated new businesses and deepened its presence across the automotive value chain, building a portfolio designed not for today's industry, but for the future of mobility. It signifies the Company's commitment to anticipating change, embracing future technologies, fostering agility and accelerating transformation across every aspect of the business.

A Defining Upshift captures the Company at a pivotal point in its journey, moving into a higher gear with confidence, clarity and conviction. It reflects a company where scale and ambition supported by preparedness is harnessing to lead the road ahead.

Eight Decades Strong, Shaping the Future of Mobility.

For over eight decades, the Lumax Group has been an integral part of India's automotive journey. Established in 1945 as Globe Auto, Lumax has pioneered automotive lighting manufacturing. The Company has grown into a technology driven mobility solutions provider. Today, the Group stands as a trusted partner to virtually every major OEM in India, with a reputation built on innovation, scale and enduring relationships.

Legacy of Trust and Innovation

Lumax's journey reflects resilience, foresight, and a relentless drive to shape the future of mobility. Guided by the ethos of its founder, Late Sh. S. C. Jain, and carried forward by successive generations, the Group has consistently anticipated industry shifts, from lighting to electronics, mechatronics and software-defined mobility. Its customer-first approach, built on respect, integrity, passion and excellence, continues to define every milestone, from the first lighting plant in Faridabad to today's facilities that are progressing towards RE100.

Scale and Presence

The Lumax Group operates one of the most extensive automotive ecosystems in India, with 40 advanced manufacturing facilities across eight states and overseas presence in Japan and China. Seven Engineering, Tech & Design Centres in India, Taiwan and the Czech Republic drive innovation, while a workforce of over 15,000 powers execution.

Technology Prowess

From its foundation in lighting, Lumax Group has evolved into a multidisciplinary technological ecosystem. The Group has expertise across a wide range of automotive technologies, including intelligent lighting, electronics, mechatronics, telematics, advanced plastics, vehicle structures, control systems, alternative fuel and emission technologies and aftermarket solutions. This broad capability enables Lumax to position as a Tier 0.5 partner, delivering integrated solutions for passenger vehicles, two-wheelers, commercial vehicles and electric vehicles.

OEM Relationships

Lumax has long-standing partnerships with leading automotive OEMs in India, including Maruti Suzuki, Hero MotoCorp, Honda, Mahindra & Mahindra, Tata Motors, Toyota, TVS, Royal Enfield and Ashok Leyland among others. Built on trust, close collaboration and responsive engineering support, these relationships reinforce Lumax Group's position as a preferred partner for OEMs.

Purpose

We deliver Pride and Progress with Positivity.

Vision

Building an admired high performance global organisation in whom all stakeholders have absolute trust.

Engineered for the Upshift.

Lumax Auto Technologies Limited is a Tier-1 automotive systems manufacturer with a product scope that a few peers in India can match. From advanced plastics and vehicle interior systems to gear shifters, sensors and switches, oxygen sensors, telematics, CNG fuel components, the Company has built its breadth deliberately, through partnerships and joint ventures, each chosen for the specific know how it brings to the portfolio.

Two Decades of Transformation: Our Journey from 2005 to 2025

Our growth over the last twenty years has been more than a change in scale. We have evolved from a component manufacturer into a diversified integrated solutions provider that continues to focus on moving up the value chain.

From Growth to Scale

In 2005, we were a nearly ₹ 100 Crore company focused primarily on lighting. Today, we have achieved a 49x revenue leap to ₹ 4,870 Crore, reflecting our relentless pursuit of market leadership.

From Product to Portfolio

We have expanded from a limited product focus into a diverse portfolio, including Advanced Plastics, Mechatronics, Structures and Control Systems, Alternate Fuels and Aftermarket.

From Local to Pan-India

Our manufacturing presence has grown from a solitary plant to 28 state-of-the-art facilities strategically located in major automotive hubs. This allows us to maintain a supply chain that is responsive, cost-efficient and technology-integrated.

From Execution to Innovation

Our engineering strength has matured to a powerhouse of over 500 R&D specialists. We have shifted our focus from 'built-to-print' to a 'culture of innovation'.

From Niche to Universal

From serving primarily the 2-Wheeler category, we now cater to a healthy mix of Passenger Cars, 2-Wheelers and Commercial Vehicles, ensuring we are a vital partner to every segment of the industry.

Our Structural Gear Changes: The Defining Moves

1

Full Ownership of IAC

In May 2025, we completed the acquisition of the remaining 25% stake in IAC International Automotive India Private Limited (IAC India). Subsequently IAC India was merged with Lumax Auto Technologies Limited. The merger enables us to integrate our product portfolio with interior solutions, creating a comprehensive value proposition for customers.

2

Shaping Tomorrow's Core

In October 2025, we inaugurated the SHIFT (Smart Hub for Innovation and Future Trends) Tech Centre in Bengaluru, marking a significant step in building our in-house software and electronics capabilities. This facility will enable us to develop the digital intelligence and electronic architectures that increasingly define modern vehicles.

3

Optimization of Structure

In February 2026, the merger of Greenfuel Energy Solutions Private Limited with the SPV company, Lumax Resources Private Limited was effected. In March 2026, Lumax Ancillary Limited (LAL) was also merged with Lumax Auto Technologies Limited. These initiatives support sharper execution, improved scalability, stronger alignment across businesses, while enabling the Company to drive long-term value creation for all stakeholders.

4

Portfolio Realignment

Subsequent to the year, the Company has divested its entire 50% equity stake in Lumax Jopp Allied Technologies Private Limited (LJAT), to Jopp Holding GmbH, Germany, the Joint Venture Partner and acquired remaining equity stake of 15.97% in Lumax FAE Technologies Private Limited (LFAE) from Francisco Alberio S.A.U., the then existing shareholder. This portfolio realignment reflects our continued focus on the Northstar vision and Mid-term plan (FY 2025-26 to FY 2030-31), enabling sharper focus on businesses that are more closely aligned with our future growth and financial priorities.

LATL's product portfolio is the clearest expression of the BRIDGE strategy in action (Bold Roadmap Integrating Diverse Growth Engines). Structured across five verticals - Advanced Plastics, Mechatronics, Structures and Control Systems, Alternate Fuels and Aftermarket - it ensures the Company has a relevant, technologically current offering across every major function of the modern vehicle.

Our portfolio has been built with intent, shaped by industry megatrends that define where automotive value is migrating:

Advanced Plastics

Consistently delivering strong growth, this division is driven by OEM demands for sophisticated design, durability and lightweighting.

Premium Interior Systems

Through IAC - Intelligent Ambient Comfort division, which constitutes 2/3rd of Advanced Plastics, we are a dominant supplier of cockpit systems and interior panels to leading OEMs. IAC India provides Integrated Cockpit Solutions, including Instrument Panels, Centre Consoles, Door Panels, Headliners and Interior Trim Systems, for premium passenger vehicle platforms.

Plastic Modules, Lighting and Emission systems

Balance 1/3 contains Air Intake Systems, Urea and Plastic Fuel Tanks, Louvers, Head Lamps, Rear Lamps, Front and Rear Fender.

Mechatronics

This high-engineering segment focuses on intelligent and connected mobility systems via our global joint ventures.

Switches & Sensors (Lumax Alps Alpine)

Expanded beyond power window switches to complex steering and sensor solutions for major OEMs.

Advanced Antennas (Lumax Yokowo)

Providing crucial connectivity infrastructure such as shark fin antennas, rapidly gaining traction across key domestic and global OEMs.

Telematics (Lumax Ituran)

Supplying Telematics Control Units (TCUs) and EV-specific eCAN solutions.

Emission Control Management (Lumax FAE)

The oxygen sensor is a key component of the vehicle's emission control system, supplying to 2-wheeler OEMs.

Structures and Control Systems

This vertical solidifies our role as a trusted technology partner in the evolving mechanical mobility ecosystem.

We command a market leadership position in gear shifters through Lumax Mannoh.

Our portfolio also includes metallic chassis and swing arm for 2-Wheelers.

Alternate Fuels

With Greenfuel Energy acquisition in FY 2024-25, this segment aligns with the national shift toward green mobility.

CNG & Hydrogen Solutions

Specializing in high-pressure fuel storage and delivery systems.

Industry Firsts

Showcasing engineering agility, we successfully localized ferrule-less tubes and fittings for the CNG passenger vehicles, replacing industry-wide imports.

Our Portfolio

Includes Pre-bend Tubes, CNG Manifold, H2 Receptacle, CNG Safety Kit, Ferrule-less Tubes and Fittings (India-First).

Aftermarket

Our relationship with end-users extends far beyond the factory line. We offer a rapidly expanding product range driven by aggressive demand generation through primary and secondary channels, ensuring steady lifecycle revenue.

The Upshift in Motion.

In automotive terms, an upshift is a deliberate gear change required to handle greater speed, navigate new terrains and unlock the engine's peak performance. For our organization, it signifies a fundamental re-engineering of our corporate DNA.

Dear Shareholders,

Welcome to a defining moment in the history of Lumax Auto Technologies Limited (LATL).

As we present the Integrated Annual Report for FY 2025-26, we have chosen the theme '**The Defining Upshift**.' But what does an 'upshift' truly mean for LATL?

In automotive terms, an upshift is a deliberate gear change required to handle greater speed, navigate new terrains and unlock the engine's peak performance. For our organization, it signifies a fundamental re-engineering of our corporate DNA. The reason behind this shift is clear: the global automotive landscape is undergoing a once-in-a-century metamorphosis. To survive, one might simply adapt; but to lead, one must transform. 'A Defining Upshift' is our leap from a traditional, hardware-centric Tier-1 components manufacturer to a technology-led, Tier-0.5 systems integrator capable of delivering complex hardware-software solutions. It is the culmination of our two-decade journey from a lighting business in 2005 to a ₹ 4,870 Crore diversified powerhouse today.

The Macroeconomic Canvas: Global Resilience and India's Rise

To truly appreciate the magnitude of our performance this year, it must be viewed against the backdrop of the broader macroeconomic environment.

In FY 2025-26, the global economy demonstrated cautious resilience.

While inflationary pressures have largely cooled and central banks have pivoted toward growth-oriented policies, geopolitical fragmentation continues to fundamentally rewire global supply chains. Global OEMs are increasingly prioritizing 'China +1' strategies, seeking resilient, diversified and high-quality manufacturing hubs. This realignment presents an unprecedented structural opportunity for capable global suppliers.

Amidst global realignments, India stands out as a formidable beacon of macroeconomic stability. Propelled by robust domestic consumption, sustained government capital expenditure on infrastructure and manufacturing schemes, India remains one of the fastest-growing major economies. Furthermore, a burgeoning middle class with rising disposable incomes is structurally altering consumption patterns, shifting demand from basic utility to premium, technology-rich experiences.

Automotive Industry Trends & Macro Enablers

This robust economic momentum is the primary engine driving the Indian automotive sector. We are capitalizing on three highly distinct macro enablers that are reshaping the mobility ecosystem:

1. The Premiumization Wave

There is a decisive consumer shift toward premium vehicles and SUVs across all segments. This is driving an exponential increase in the demand for sophisticated vehicle interiors, ambient lighting and advanced mechatronics.

2. Software-Defined Vehicles (SDVs)

The era of the mechanical car is giving way to the intelligent vehicle. The core value of mobility is increasingly dictated by connected capabilities, sensors, telematics and embedded electronics.

3. The Clean Mobility Pivot

Driven by stringent regulatory mandates and consumer awareness, there is a rapid acceleration towards sustainable transit, encompassing both Electric Vehicles (EVs) and Alternate Fuels (CNG/Hydrogen).

Performance Overview: A Year of Historic Highs

The results in FY 2025-26 have been nothing short of historic.

Guided by disciplined execution, we successfully revised our revenue growth y-o-y guidance twice, moving from an initial 20% to 25% and finally to nearly 35%. We achieved record full-year revenue of ₹ 4,870 Crore. More importantly, this top-line scale was matched by progressive profitability. Our EBITDA margins demonstrated a consistent upward trajectory throughout the year, achieving a historic full-year margin of 14.5%, keeping us firmly on track to achieve our mid-term targets. This robust financial stability was further validated by CRISIL, which upgraded our rating to CRISIL AA with Stable outlook.

Division Highlights and Market Leadership

Our strategically diversified portfolio successfully insulated us from industry

headwinds and positioned us among the leaders across our verticals:

- Advanced Plastics**
 IAC - Intelligent Ambient Comfort division witnessed robust full-year growth, driven by our deep entrenchment with Mahindra & Mahindra's premium SUV and EV platforms.
- Mechatronics**
 As our fastest-growing vertical, revenues surged exponentially. To support this scale, we are commissioning a Mega Mechatronics Plant in Manesar, consolidating four joint ventures; Lumax Yokowo, Lumax Alps Alpine, Lumax Ituran and Lumax FAE under one roof, complete with clean rooms and captive Printed Circuit Board and Surface Mount Technology (PCB SMT) lines.
- Alternate Fuels**
 We are pioneering the shift to clean energy. Notably, through Greenfuel, we became the first domestic supplier to localize ferrule-less tubes and fittings for CNG vehicles, a critical technology previously imported industry-wide.
- Aftermarket Excellence**
 Our aftermarket division accelerated to a 15% full-year growth rate, by aggressive product expansion and a strategic pivot toward demand generation at primary and secondary levels.

A Future-Ready Order Book

Our investments are delivering scaled returns, allowing us to outpace industry growth by increasing our content per vehicle. Our robust order book of ₹ 1,450 Crore provides strong visibility for the next three fiscal years.

Crucially, 40% of this order book is dedicated to future and clean mobility solutions. Because we remain powertrain-agnostic, we can capture growth across both ICE and EV platforms. We are also capitalizing on the premiumization megatrend, recently securing new ambient lighting business for upcoming OEM programs.

Aftermarket Focus

The Aftermarket segment remains a vital growth engine for the Company, consistently outperforming broader industry trends through a strategic transition toward a demand-led growth

Guided by disciplined execution, we successfully revised our revenue growth guidance twice, moving from an initial 20% to 25% and finally to nearly 35%.

model. This strategy prioritizes generating secondary market pull by shifting focus from traditional channel partners to direct engagement with retailers and mechanics. This transformation is supported by an aggressive product expansion strategy, the introduction of innovative offerings and continuous strengthening of the distribution network and internal teams. We maintain an optimistic long-term outlook, expecting to build upon current traction through enhanced customer acceptance and new initiatives. As a high-margin business, the Aftermarket segment is positioned to remain significantly margin-accretive to the Company's overall performance.

Strategic Evolution: Architecting the Upshift

We established two critical intellectual hubs this year:

- 1. SHIFT (Smart Hub for Innovation and Future Trends):** Now fully operational tech centre in Bengaluru with a team of dedicated software engineers, SHIFT positions us at the emerging Tier 0.5 layer between the vehicle OEM and the traditional Tier 1 ecosystem, where domain-level integration, systems thinking and software-hardware co-development converge.
- 2. China Resource Centre:** Our newly established China presence serves as a strategic resource for technology scouting, tooling optimization and benchmarking advanced interior cabin trends. This enables us to bring global innovations to the Indian market rapidly and at competitive price points.

Strategic Priorities for the Road Ahead

To maintain our industry-leading momentum and ensure sustainable value creation, our management team remains relentlessly focused on four strategic priorities:

1. Accelerating the Tier-0.5 Transition:

Leveraging the SHIFT tech centre to embed proprietary software into the mechatronics and telematics portfolio, further integrating with interior solutions, thereby increasing our content per vehicle and offering integrated, plug-and-play systems directly to OEMs.

2. Driving Premiumization & Localization

Utilizing our China Resource Centre to scout global trends in interior cabin spaces and ambient lighting along with rapidly localizing these technologies to provide cost-competitive, premium solutions to our Indian customers.

3. Expanding the Clean Mobility Footprint

Scaling Greenfuel Energy Solutions to dominate the alternate fuels (CNG/Hydrogen) and EV component markets, ensuring our portfolio remains at the absolute forefront of the national transition toward sustainable transit.

4. Operational Synergy & Capital Efficiency:

The consolidation of IAC - Intelligent Ambient Comfort division will strengthen our strategic vision and drive synergies by providing integrated solutions across lighting, plastics and interiors. This integration will also allow for better cost optimization and rationalization of resources, providing financial flexibility. Commissioning our Mega Mechatronics Plant at Manesar to seamlessly consolidate our JVs. These will drive significant economies of scale and operational synergies.

Governance, Sustainability and Our 'North Star' Vision

As we scale rapidly, we remain anchored by the values that have sustained this Group since 1981: Respect, Integrity, Passion and Excellence. Our Board ensures that our growth is disciplined, transparent and ethically governed. We are actively decoupling our financial success from our environmental footprint, while the Lumax Charitable Foundation continues to invest deeply in the communities that host our 28 manufacturing facilities.

Looking ahead, our long-term compass remains our 20.20.20.20 vision: aiming for a 20% revenue CAGR (FY 2024-25 to FY 2030-31) and inching closer to 20% EBITDA margin over the next 5-7 years. By FY 2030-31, we aspire to more than double our current revenue base to upwards of ₹ 10,000 Crore, fueled by a blend of organic excellence and strategic inorganic opportunities.

We take this opportunity to express our deepest gratitude to you - our shareholders, OEM customers, joint venture partners and our incredibly dedicated workforce. FY 2025-26 has proven that we are not just growing with the industry; we are actively helping to elevate it.

Together, we are engineered for the upshift.

Building Trust and Sustainable Value.

Our long-term success is deeply intertwined with the prosperity and trust of our stakeholders. We believe that structured, transparent and continuous dialogue is essential to identify material issues, mitigate risks and uncover new opportunities for sustainable growth.

Our stakeholder engagement framework is designed to actively listen to the groups that significantly impact our business or are significantly impacted by our operations. By integrating their feedback into our operational and strategic planning, we foster collaborative value creation and maintain robust governance.

Grievance Redressal Mechanism

As part of our commitment to transparency, we maintain accessible grievance redressal mechanisms for our key stakeholders, including dedicated whistle-blower policies, supplier and employee helpdesks, ensuring that all concerns are addressed ethically and promptly.

Stakeholder Engagement & Disclosure Matrix

Below is our comprehensive engagement matrix, detailing our interaction channels, the core topics discussed and the value we strive to deliver to each group.

1

Customers (Automotive OEMs)

- ▶ **Channels of Communication:** Tech-days, joint R&D workshops, daily scheduling/dispatch portals, e-mails, customer audits and leadership meetings.
- ▶ **Frequency:** Daily and continuous.
- ▶ **Key Topics of Engagement:** Product quality, timely delivery, cost optimization, technological innovation and integration of sustainable/lightweight materials.
- ▶ **Our Response/Value Created:** We ensure stringent quality assurance and reliable supply chain execution. We actively co-create advanced solutions (such as premium interiors and EV components) to support their next-generation vehicle platforms and time-to-market goals.

2

Global Partners & Joint Ventures

- ▶ **Channels of Communication:** Executive Committee meetings, Board meetings, technical exchange programs, e-mails and periodic strategic planning sessions.
- ▶ **Frequency:** Regular and continuous.
- ▶ **Key Topics of Engagement:** Technology and Intellectual Property (IP), localized manufacturing strategies and mutual return on investment.
- ▶ **Our Response/Value Created:** We provide global partners with a robust, compliant and scalable manufacturing footprint in India, facilitating seamless localization of advanced technologies and expanding market share together.

3

Employees & Workers

- ▶ **Channels of Communication:** Townhalls, communication meets, internal newsletters, HR portals, email communications, safety committee meetings and regular performance/development dialogues.
- ▶ **Frequency:** Regular and continuous.
- ▶ **Key Topics of Engagement:** Safety and operational excellence, organizational performance, career progression, fair compensation, skill development and workplace diversity. Various skill upgradation trainings, gender sensitization workshops and leadership development trainings.
- ▶ **Our Response/Value Created:** We maintain a safe working environment across 28 pan-India facilities. We invest heavily in training and upskilling programs to build a future-ready workforce, while fostering an inclusive culture that rewards innovation and performance.

4

Suppliers & Supply Chain Partners

- ▶ **Channels of Communication:** Supplier portals, capacity planning meetings, quality audits, vendor meets, and training sessions.
- ▶ **Frequency:** Daily.
- ▶ **Key Topics of Engagement:** Fair procurement practices, timely payments, capacity building, quality control standards and ESG compliance within the supply chain.
- ▶ **Our Response/Value Created:** We build resilient partnerships by offering technical training and capacity-building support. We ensure transparent procurement processes and encourage suppliers to adopt sustainable and ethical business practices.

5

Investors & Shareholders

- ▶ **Channels of Communication:** Quarterly earnings calls, Annual General Meetings (AGM), investor conferences and meetings, stock exchange announcements, website update and investor collaterals such as annual reports, investor presentations.
- ▶ **Frequency:** Continuous and as per statutory timelines.
- ▶ **Key Topics of Engagement:** Financial and operational performance, corporate governance, capital allocation, risk management and ESG integration.
- ▶ **Our Response/Value Created:** We deliver transparent, timely disclosures regarding our financial health and strategic milestones. We focus on disciplined capital allocation and sustainable business practices to generate long-term shareholder value.

6

Board of Directors & Promoters

- ▶ **Channels of Communication:** Formal board/committee meetings, strategic retreats, e-mails and management dashboards.
- ▶ **Frequency:** Quarterly and need-based (Board) / Regularly (Promoters).
- ▶ **Key Topics of Engagement:** Statutory compliance, audit findings, strategic acquisitions, future planning and executive leadership development.
- ▶ **Our Response/Value Created:** We ensure rigorous internal controls, ethical governance and strategic alignment, empowering the Board to guide major structural decisions and safeguard the Company's long-term vision.

7

Community & Society (CSR / ESG)

- ▶ **Channels of Communication:** Community meetings, NGO partnerships, social media, corporate website and local outreach programs.
- ▶ **Frequency:** Continuous.
- ▶ **Key Topics of Engagement:** Access to preventive and curative healthcare and quality education, social upliftment.
- ▶ **Our Response/Value Created:** Through our CSR initiatives, we actively invest in the communities surrounding our manufacturing hubs. We focus on improving access to quality learning through support for schools, infrastructure development, scholarships and lifeskill programs for students from underserved communities and provide access healthcare.

8

Regulatory Authorities & Government

- ▶ **Channels of Communication:** Statutory filings, government portals, compliance reports and formal correspondence.
- ▶ **Frequency:** As per statutory requirements.
- ▶ **Key Topics of Engagement:** Compliance with environmental, labor and corporate laws, taxation and alignment with national industrial policies.

9

Institutions & Industry Bodies
(Banks, NBFCs, ACMA, SIAM, CII)

- ▶ **Channels of Communication:** Industry summits, policy advocacy meetings, credit reviews and formal disclosures.
- ▶ **Frequency:** Continuous.
- ▶ **Key Topics of Engagement:** Industry growth trends, Company's performance and strategy, supply chain localization, policy advocacy and financial stability.
- ▶ **Our Response/Value Created:** We actively participate in shaping industry standards through bodies like ACMA, SIAM and CII. We maintain transparent relationships with financial institutions to secure the stable backing necessary to scale our operations responsibly.

Priorities Accentuated.

LATL's materiality assessment is the mechanism through which external stakeholder expectations are translated into internal strategic priorities. In FY 2025-26, this process was conducted against a new structure with IAC - Intelligent Ambient Comfort division fully consolidated. The assessment tested whether the Company's 16 material topics remained relevant to this expanded operating scope and confirmed that they do, while sharpening the urgency of several, particularly data security, energy management and sustainable procurement, in light of the new capability profile.

Our Materiality Assessment Process

LATL follows a structured, four-step methodology to identify and prioritise the issues most critical to business resilience and stakeholder trust.

Identification

A comprehensive scan of the macroeconomic environment, automotive industry megatrends, peer disclosures and global ESG frameworks to compile a baseline list of potential material topics.

Stakeholder Engagement

Qualitative and quantitative feedback is gathered from key constituents, including OEMs, joint venture partners, employees, suppliers and investors.

Prioritization

Identified topics are evaluated across two dimensions: Importance to Stakeholders and Impact on Business Operations. This evaluation produces the Materiality Matrix.

Validation

The prioritized list is reviewed and validated by the Executive Leadership Team and the Board of Directors to ensure alignment with corporate strategy and the risk management framework.

Disciplined capital allocation; full integration of IAC - Intelligent Ambient Comfort division; robust execution of the BRIDGE mid-term plan across all six operational verticals; strategic portfolio realignment.

Capacity expansion at IAC - Intelligent Ambient Comfort division and Alps Alpine; strategic land acquisition in Sanand and Kharkhoda for future deployment of Industry 4.0 and advanced automation across shop floors.

Inauguration of SHIFT in Bengaluru (October 2025) for SDV focus; indigenization of electronics content across JVs; initiation of two EV-centric OEM Proof of Concepts (POCs); leveraging the China Resource Centre for premium product developments.

Aggressive solar energy expansion across Pan-India facilities; comprehensive water recycling initiatives; maintaining a strict zero-landfill target; advancing clean fuel (CNG/Hydrogen) solutions through Greenfuel.

Onboarding specialized software teams for SHIFT; maintaining rigorous safety audit systems; strengthening diversity and inclusion initiatives; sustaining 100% training coverage for technical upskilling.

Execution of impactful health and education programs via Lumax Charitable Foundation; driving monthly capacity-building engagement across 7 supplier clusters; enforcing strict ESG compliance across the supply chain.

Financial Highlights

Scale Reflected in the Numbers.

FY 2025-26 produced financial results that mark a genuine steep change in the Company's scale and profitability. In FY 2025-26, our financial strategy was characterized by disciplined capital allocation, robust cash flow generation and strategic investments that structurally enhanced our competitive moat. From a baseline revenue of nearly ₹ 100 Crore in 2005, we have successfully scaled to an impressive ₹ 4,870 Crore today, a testament to our prudent financial management and focus on high-margin, technology-driven product lines.

Manufactured Capital

Twenty Eight Facilities. The Manufacturing Prowess.

Twenty eight manufacturing facilities, located across India's major automotive hubs, form the physical foundation of LATL's upshift. The evolution from a single plant in 2005 to an interconnected network of over 28 facilities is not simply a story of growth; it is a story of deliberate capability expansion, each addition chosen to serve a specific customer cluster, a specific product vertical or a specific technology requirement.

These facilities are configured for complexity, designed to deliver advanced mechatronics, premium interior systems and alternate fuel solutions at the quality and scale that a Tier-0.5 systems integrator must consistently demonstrate.

Capital Inputs: Our Agile Footprint

Our manufacturing footprint is deliberately structured around the principle of 'Customer Proximity.' By embedding our facilities within or adjacent to India's major automotive hubs, we ensure a resilient, cost-efficient and highly responsive supply chain.

Strategic CAPEX

Annual capital expenditure

₹ 233 Crore

dedicated strictly to capacity enhancement, modernization and automation

Strategic Land Bank

An investment of

₹ 44 Crore

in strategic land parcels in the Sanand and Kharkhoda regions to secure future expansion and localization efforts

Strategic Value Creation: Engineering the Future

To stay ahead of the rapid technological shifts in the mobility sector, we manage our Manufactured Capital through strategic expansion, consolidation and the establishment of specialized innovation hubs.

1

Future-Proofing through Targeted Expansions

We are aggressively expanding capacities in our highest-growth segments to unlock medium-term revenue:

IAC - Intelligent Ambient Comfort

Our Chakan facility is fully operational and gaining significant traction. We recently invested ₹ 50 Crore in capacity expansion to support critical OEM interior programs.

Lumax Alps Alpine

To support rapid growth in the mechatronics space, we invested ₹ 20 Crore in capacity expansion for this joint venture.

3

Agile Assembly & Localization

Our alternate fuels segment, Greenfuel Energy Solutions, operates as a highly efficient, asset-light assembly business. However, we selectively deploy capital to drive industry firsts. Recently, we invested ₹ 8-10 Crore in capital equipment to localize ferrule-less tubes and fittings—making LATL the very first domestic supplier of this technology in India.

2

The Mega Mechatronics Plant (Manesar)

A cornerstone of our current capital deployment is the commissioning of a new 'mega plant' at Manesar, slated for launch by FY 2026-27. This state-of-the-art facility will consolidate four key joint ventures under one roof: Lumax Yokowo, Lumax Alps Alpine, Lumax Ituran and Lumax FAE. It will feature captive PCB SMT lines, clean rooms and sensor management control rooms, providing us with complete backward integration for our electronic and sensor product lines.

4

Specialized Innovation & Sourcing Hubs

Beyond traditional manufacturing, we have invested in specialized centers that drastically enhance our technical, software and sourcing capabilities:

SHIFT Tech Centre (Bengaluru)

The 'Smart Hub for Innovation and Future Trends' is pivotal to our Tier-0.5 transition, focusing entirely on software development, embedded electronics and connected systems.

China Resource Centre

Operational in early 2026, this hub serves as our resource center for sourcing, tooling optimization and real-time technology scouting. It gives us immediate access to advanced manufacturing trends, particularly for premium interior cabin spaces.

Outcomes: Excellence in Execution

Our continuous investment in world-class manufacturing translates directly into operational excellence and unparalleled value for our customers.

Asset Utilization

Optimized capacity utilization, reflecting disciplined execution of a robust order book and the strength of our lean manufacturing practices.

The Zero-Defect Culture

Maintained a rigorous focus on quality, resulting in industry-leading, single-digit Parts Per Million (PPM) defect rates across critical product lines.

Delivery Reliability

Sustained strong On-Time In-Full (OTIF) delivery performance, reinforcing our reputation as a dependable and trusted systems partner.

Intellectual Capital

The Intelligence behind Momentum.

Our Intellectual Capital is the core driver of our transformation from a traditional Tier-1 components supplier to a highly integrated Tier-0.5 systems integrator. As the automotive industry undergoes a seismic transition toward Software-Defined Vehicles (SDVs) and connected ecosystems, the value of a vehicle is increasingly determined by its software and electronics.

Recognizing this, we have fundamentally pivoted our organizational DNA. Our intellectual capital built upon a robust foundation of advanced software integration, electronic development and strategic global intelligence forms the intelligent core of our operations, enabling us to engineer comprehensive mobility solutions under the **BRIDGE** strategic framework.

Capital Inputs: Our Innovation Strength

Our intellectual inputs are deliberately weighted toward building resilient inhouse competencies while securing a pipeline of global technologies:

R&D & Engineering Brainpower

A formidable team of over

500

R&D and engineering professionals, operating across our network with a focus on innovation and Intellectual Property (IP) generation.

Specialized Software Talent

A dedicated team of software engineers operates from our Bengaluru tech centre, harnessing the rich pool of technical talent concentrated across Southern India.

Global Tech Pipeline

6 international joint ventures providing immediate, localized access to world-class technological advancements and patents.

R&D Expenditure

A sustained investment of

₹ 573.78 Lakh

in research, software development and advanced testing infrastructure.

1

SHIFT

Smart Hub for Innovation and Future Trends

In late 2025, we inaugurated our intellectual hub: the SHIFT tech centre in Bengaluru. Designed to accelerate product innovation in embedded electronics, software integration and connected systems, SHIFT bridges the gap between our hardware components and digital capabilities. SHIFT operates as an accelerated proof-of-concept engine with localization-as-differentiation approach. Global technology always existed, however SHIFT is working to make that available at scale, at optimized cost structures with India-specific use cases and production-ready solutions built here.

SHIFT's integration of SDV principles into the mechatronics and telematics portfolio is organized around the principle that hardware-software boundary in every domain must become a design decision, not an accident of legacy. This means rearchitecting how our products are conceived from the ground up and not wrapping software around existing designs.

Our technology roadmap involves around various products being integrated into a systems offering. Looking ahead, our clean mobility pipeline is structured to ensure that as each regulatory milestone comes into force, LATL can adapt existing products and deploy platforms already validated at the PoC stage. The pipeline is timed to the policy calendar.

At SHIFT we look forward to collaborate with academia with an intent to upskill the ecosystem.

3

Proprietary & Localized Technologies

Our intellectual capital is powerfully manifested in our ability to indigenize complex technologies that were previously imported:

Ferrule-less CNG Technology

Through Greenfuel, we have successfully localized ferrule-less tubes and fittings for CNG vehicles. As the first company in India to offer this localized solution, we provide a significant cost advantage to our OEM partners.

Advanced Ambient Lighting

Leveraging our collaborations with Chinese partners, we have secured ambient lighting business for upcoming OEM launches.

Advanced Mechatronics

We have aggressively expanded our intellectual base beyond simple switches to include complex products like steering angle sensors, throttle position sensors and EV-specific eCAN solutions.

Strategic Value Creation

We manage and deploy our Intellectual Capital to stay ahead of the technology curve, focusing on four strategic pillars of innovation:

2

Strategic Technology Scouting The China Resource Centre

To stay ahead of global trends, we operationalized our office in China in early 2026. This resource center is dedicated to technology scouting and benchmarking, with a specific focus on the advanced interior cabin space trends emerging in the Chinese market. Beyond trend-spotting, this facility allows us to continuously optimize our sourcing and tooling for new products, ensuring we bring the latest technological advancements and the best value for the Indian market.

4

Knowledge Exchange Through Technical Partnerships

Our joint ventures with global technology leaders act as essential repositories of intellectual property and technical know-how:

Lumax Alps Alpine

Provides deep expertise in steering wheel switches and advanced sensing technologies.

Lumax Yokowo

Brings cutting-edge knowledge in vehicle antenna systems, successfully delivering shark fin antennas for major OEMs.

Lumax Ituran

Enhances our capabilities in the telematics and TCU (Telematics Control Unit) space, moving us into advanced eCAN solutions.

Lumax FAE

Association bringing technology for a critical component for emission control and fuel-efficiency management in two-wheelers.

Outcomes: Industry Recognition of Excellence

Our investments in software, localized engineering and global technology scouting ensure that we remain at the forefront of the evolving automotive landscape. This intellectual and operational excellence was consistently recognized by our peers and customers in FY 2025-26:

Lumax Mannoh

Honoured as the Manufacturing SME of the Year for Industrial Excellence.

Lumax Cornaglia

Received the prestigious Sustainability Excellence Award from Tata Motors and a Gold Medal at the International Convention on Quality Control Circle (ICQCC) in Taiwan.

Advanced Plastics Division

Recognized for overall performance excellence at the Maruti Suzuki Vendor Conference.

Our intellectual capital continues to translate into commercial success, strengthening market position and creating a durable competitive moat through the growing contribution of newly launched, technology-intensive products to our revenue mix.

Sustainability as a Strategic Pivot.

At LATL, the same discipline that drives operational performance governs how the Company manages its environmental, social and governance responsibilities. In FY 2025-26, that discipline produced measurable outcomes: 57% renewable energy secured through Power Purchase Agreement Approval with the baseline of FY 2023-24, a real-time ESG digital dashboard deployed across the Group and TISAX certification achieved at LCAT.

ESG Strategy

LATL's ESG strategy is not a standalone program. It is the sustainability dimension of the BRIDGE framework, operating in parallel with the commercial, operational and technology engines that define the mid-term plan. A company that is upshifting its capabilities, must also upshift its environmental, social and governance performance, else the growth it achieves will not be durable.

The strategy is structured around 4 pillars and 16 focus areas. Environmental Resilience covers energy, waste and water. Workforce Synergy covers occupational health and safety, employee wellbeing and diversity. Business Outreach covers customer satisfaction, research and development and corporate social responsibility. Sustainable Business Practices covers code of conduct, regulatory compliance, risk management, data security and sustainable procurement.

Against each focus area, three-year targets have been set and progress is tracked and reported. Sustainable procurement has been tightened to reflect the expanded supplier base brought in through IAC - Intelligent Ambient Comfort Division and Lumax Greenfuel. Management targets have been updated to reflect the 57% renewable energy milestone achieved during the year.

ESG Governance

LATL has established a structured ESG Management System to translate strategic intent into operational action.

ESG Team

- ▶ Sets the overall sustainability vision and long-term objectives.
- ▶ Develops actionable strategies, monitors implementation, and oversees disclosures.
- ▶ Dedicated ESG Working Groups support execution across focus areas, ensuring that targets are met and initiatives are aligned with stakeholder expectations.

The Board reviews ESG progress, emerging risks, and regulatory compliance at each quarterly meeting. ESG performance is tracked in real time through a digital dashboard, replacing periodic manual reporting with live operational data across the Group.

Contribution to the UN SDGs

LATL's ESG approach is aligned with India's national priorities and the United Nations Sustainable Development Goals (UN SDGs). The four strategic pillars collectively contribute to:

ESG Strategic Pillars and Performance

Environmental Resilience

This pillar governs the environmental footprint of LATL's manufacturing operations through resource efficiency, carbon reduction and sustainable asset utilisation. In FY 2025-26, the Company achieved its most significant renewable energy milestone, with 57% of energy sourced through approved Power Purchase Agreements. LATL Bengaluru plant became the Company's first RE 100 facility in FY 2025-26.

Material Topic	3-Year Target	FY 2024-25 Progress	FY 2025-26 Progress
Energy Management & Conservation	Achieve RE 100 by FY 2027-28	23.49% of total energy sourced from renewables; 19.37% reduction in energy intensity vs. FY 2023-24 baseline	57% of total energy sourced from renewable through PPA. LATL Bengaluru plant achieved RE 100 status in FY 2025-26
Carbon Emissions	Monitor, reduce, and report GHG emissions	0.98% reduction in carbon intensity vs. FY 2023-24 baseline	11,729.2 tCO ₂ e total; 22.2% reduction in carbon intensity vs. baseline
Waste Management	30% reduction in hazardous waste	7.69% reduction in waste intensity vs. baseline	41.54% reduction in waste intensity vs. baseline
Water Management	Achieve water neutrality	55.17% reduction in water intensity vs. baseline	65.52% reduction in water intensity vs. baseline
LCA	Conduct Life Cycle Assessments of all products	Evaluating the products to be included in first stage of Life cycle assessment	Conducted LCA for 2 plants of Lighting – LATL Pantnagar and LATL Chakan

Workforce Synergy

LATL's Workforce Synergy pillar prioritizes the safety, wellbeing and growth of every individual in the organization. In FY 2025-26, the Company maintained its zero-fatality record and continued expanding the representation of women in its workforce, with the diversity target tracking ahead of the three-year plan.

Material Topic	3-Year Target	FY 2024-25 Progress	FY 2025-26 Progress
Occupational Health & Safety	Zero fatalities across operations	Zero fatalities reported	Zero fatalities reported
Employee Well-being	Strengthen feedback and grievance redressal	Enhanced mechanisms for timely and effective resolution of complaints	Employee outreach for preventive health care across all locations creating a safe and inclusive workplace
Diversity, Equity & Inclusivity	25% increase in women workforce	Women representation up 59% from FY 2023-24 baseline	64.23% increase in women representation vs FY 2023-24 baseline

Business Outreach

This pillar drives innovation, customer satisfaction and community engagement. In FY 2025-26, R&D focus expanded with the inauguration of the SHIFT tech center, and customer complaint reduction continued its positive trajectory.

Material Topic	3-Year Target	FY 2024–25 Progress	FY 2025–26 Progress
Customer Satisfaction	Zero defects and improved satisfaction scores	26.11% reduction in customer complaints	20% reduction in customer complaints compared to FY 2023-24
Research & Development	Increase focus on patents	18.11% of R&D spend directed to environmentally and socially beneficial innovations	31.29% of R&D spend directed to environmentally and socially beneficial innovations
Corporate Social Responsibility	Enhance community engagement	Focused CSR initiatives targeted towards underserved and marginalized groups	Purpose-driven CSR initiatives towards empowering underserved and marginalized communities, with focus on education & health.

Sustainable Business Practices

LATL is committed to ethical, transparent and responsible business conduct

Material Topic	3-Year Target	FY 2024–25 Progress	FY 2025–26 Progress
Code of Conduct	Zero instances of non-compliance	Zero instances of non-compliance	Zero instances of non-compliance maintained
Regulatory Compliance	Zero instances of non-compliance	Zero instances of non-compliance	Zero instances of non-compliance maintained
Risk & Crisis Management	100% mitigation of identified risks	Active implementation of mitigation measures	Active mitigation of potential risks
Data Security	Prevent any data breaches	No data breaches reported	No data breaches reported; TISAX certification achieved at LCAT Plant
Sustainable Procurement	100% adherence to procurement standards	9.58% of procurement aligned with sustainable practices	19.27% of procurement aligned with sustainable practices

Natural Capital

Operating with a Greener Gear.

We recognize that true market leadership is inextricably linked to environmental stewardship. As we execute our strategic transition to a Tier-0.5 systems integrator, we are deeply conscious that strategic priority must be a sustainable one.

For LATL, Natural Capital is managed through a dual lens: optimizing the environmental footprint of our own manufacturing operations and actively engineering the products that enable the broader automotive industry's transition to clean mobility. By embedding sustainability into our BRIDGE framework, we are successfully decoupling our economic growth from our environmental impact.

Capital Inputs: Investing in Our Ecosystem

Our commitment to natural capital begins with targeted financial and operational investments aimed at preserving resources, enhancing efficiency and minimizing waste across our value chain.

Renewable Energy Infrastructure

Dedicated capital expenditure to scale up rooftop solar plants, already commissioned across **8** critical facilities, laying a robust foundation for a Company-wide transition to self-sustaining energy grids.

Water & Effluent Management

Sustained investments in advanced sewage treatment plants (STP), RO reject water reuse systems, reducing our dependency on municipal freshwater supplies by rainwater harvesting systems in our locations.

Energy Management Systems

Implementation of rigorous energy-efficiency audits, smart cooling towers and IoT-enabled controls to monitor our energy input at a granular, machine-specific level, allowing for immediate corrective actions when inefficiencies are detected.

Green Partnerships

Active collaborations with environmental **NGOs**, local communities and government bodies to drive localized ecological restoration, biodiversity enhancement around our plant perimeters and stringent regulatory compliance.

Strategic Value Creation

We actively deploy our Natural Capital to drive operational efficiency, reduce baseline emissions and champion a circular economy across our 28 facilities. To better understand, track and mitigate our environmental impact, we measure our greenhouse gas (GHG) emissions strictly in accordance with the globally recognized WRI Greenhouse Gas Protocol.

1

Accelerating the Clean Energy Transition

We are systematically reducing our reliance on conventional fossil-fuel energy grids through robust energy conservation and efficiency initiatives. These include optimizing equipment and process operations by retrofitting legacy machinery with energy-efficient drives, upgrading to highly efficient HVAC systems, improving ambient air and water management and enhancing shop-floor automation to eliminate idle power draw.

Our commitment to renewable energy is substantial and verifiable. Rooftop solar plants across twelve of our highest-consuming facilities generated an impressive 6.27 million kWh of clean energy and 2 plants in Group Captive (Long Term Open Access), generating a staggering 10.26 million kWh of clean energy in FY 2025-26, effectively avoiding a combined 11,729.2 tCO₂e of emissions. We are working aggressively to surpass these benchmarks in FY 2026-27 by identifying additional roof spaces and evaluating long-term off-site renewable power arrangements.

3

Water Stewardship & Zero Liquid Discharge (ZLD)

Given the water-intensive nature of certain surface treatment and manufacturing processes, we view water as a precious shared resource, particularly in regions prone to water scarcity. We have comprehensively upgraded our Sewage Treatment Plants (STP) for maximum water reuse and installed water-efficient fixtures across all administrative and shop-floor washrooms. Our operations now leverage smart cooling towers that optimize evaporation cycles, the systematic reuse of RO reject water for secondary applications and real-time monitoring to prevent subterranean leaks, ensuring we absolutely optimize our total water withdrawal.

2

Circular Economy & Waste Optimization

In our Advanced Plastics and Mechatronics divisions, material efficiency is not just an environmental goal; it is a core operational KPI that directly drives profitability. We maintain a steadfast commitment to our target of zero waste to landfill, ensuring that all manufacturing by-products are either recycled, repurposed or safely co-processed by authorized partners.

Our key waste reduction initiatives are executed at a highly tactical, everyday level:

Utilizing recycled and lower GSM invoice paper, alongside optimized invoice formats and digital registers, which cumulatively saves hundreds of trees annually.

Enforcing strict waste segregation, extensive material recycling and vermi-composting for food waste across our campuses, turning organic cafeteria waste into nutrient-rich manure for our green belts.

Reducing and reusing polybags and implementing standardized, durable packing bins for inbound and outbound logistics to eliminate single-use transit plastics.

4

Product-Level Impact: Greenfuel & Future Mobility

Our management of natural capital extends far beyond our factory walls and into the core DNA of the products we build. Through Lumax Greenfuel Energy Solutions, we are directly facilitating the national shift toward cleaner fuel platforms, acting as a critical enabler for OEMs looking to meet stringent BS-VI and upcoming emission norms.

By supplying high-pressure storage and delivery systems for CNG and Hydrogen and aggressively localizing components (such as ferrule-less tubes, which drastically reduce the risk of fugitive gas emissions while lowering overall vehicle weight), we are actively reducing the lifecycle emissions of the vehicles we equip.

With an unprecedented 40% of our order book now dedicated to future and clean mobility solutions, our product portfolio is a direct contributor to global climate action, fundamentally transforming our revenue mix toward sustainable, future-ready technologies.

Outcomes: Measurable Environmental Impact

Our disciplined approach to natural capital yields measurable, verifiable outcomes that resonate with our investors, regulatory bodies and local communities. Below is a comparative tracking of our environmental footprint, demonstrating our unwavering commitment to transparent, BRSR-aligned disclosures and continuous year-on-year improvement:

Energy and Emissions Tracking (WRI GHG Protocol)

Category	Units	FY 2024-25	FY 2025-26
Scope 1 Emissions	tCO ₂ e	2,089.29	2,186.45
Scope 2 Emissions	tCO ₂ e	31,406.87	35,914.16

(Note: Bio-Medical, Construction/Demolition, Battery and Radioactive Waste stood at 0 MT for FY 2025-26).

Human Capital

The People Building the BRIDGE.

Our most profound structural elevation is not just in our products or facilities, but in our people. As we navigate the industry's rapid transition toward Software-Defined Vehicles (SDVs) and integrated intelligent systems, our workforce is the vital engine accelerating our momentum.

Transitioning to a technology-led Tier-0.5 systems integrator requires a fundamental shift in mindset and capabilities. We are building a workforce that is not only equipped for the mobility landscape of today but is actively engineering the solutions of tomorrow.

Capital Inputs: The Strength of Our Team

Our human capital investments are designed to build a resilient, diverse and highly skilled ecosystem across our Pan-India operations and specialized tech hubs.

Workforce Scale

A robust and dynamic workforce comprising 2,857 permanent employees and 8,673 contractual workers across our

28
facilities.

Engineering & Innovation Core

Over

500 dedicated R&D and engineering professionals forming the intellectual backbone of our operations.

Specialized Tech Talent

Targeted onboarding of highly skilled software engineers and embedded electronics specialists, driven by the operationalization of our

SHIFT
tech center.

Investment in Development

Sustained financial and operational investments to ensure

100%

training coverage across our manufacturing and corporate teams.

Strategic Value Creation: The '5 Cs' HR Framework

To sustain our upward trajectory and support our scale ambitions under the BRIDGE roadmap, our Human Capital strategy for FY 2025-26 is anchored on five interconnected pillars the '5 Cs'.

1

Capability and Competency

As our product portfolio expands into complex mechatronics and EV components, we are aggressively building future-ready competencies.

Leadership & Assessment

We have strengthened our talent pipeline through structured assessments for senior hires, a robust succession planning framework and a range of leadership development programs. Gurukul 2.0 has been launched for technical and shop-floor capability and capacity enhancement.

Future Readiness

We have rolled out AI capability-building workshops and expanded in-house learning through the Shiksha Series.

Performance Alignment

We enhanced organizational alignment by digitizing our Performance Management System, ensuring that individual goals, KRAs and KPIs are closely linked to business priorities and long-term strategic objectives.

3

Cost Optimization (Operational Efficiency)

We ensure our human capital operates with maximum efficiency to build a culture of excellence and future readiness.

Agile Structuring

Leveraging the National Apprenticeship Promotion Scheme (NAPS) and implementing a centralized Contract Labour Management System to supervise contract engagements effectively.

Productivity

Direct focus on productivity improvements across the shop floor, while ensuring our Business Conduct Policy aligns perfectly with the New Labour Code.

2

Culture

We are cultivating an environment that actively rewards ideation and ownership.

Core Values

Relentless reinforcement of our foundational values: Respect, Integrity, Passion and Excellence.

Inclusion & Ownership

We are driving an ownership mindset across all levels, supported by a revamped Induction 2.0 experience, strengthened Diversity and Inclusion initiatives and enhanced leadership accessibility.

4

Compliance and Governance

Operational excellence is impossible without absolute integrity.

Rigorous Standards

We maintain zero tolerance towards compliance and safety risks, ensuring full adherence to the New Labour Code.

Integrity Frameworks

Reinforcement of the Code of Conduct across the entire organization, supported by reliable Background Verification processes.

5

Connect and Communication

We believe an engaged workforce is a productive workforce.

Continuous Engagement

We execute calendarized employee engagement initiatives throughout the year, complemented by regular one-to-one managerial connects and formal 'Stay Interviews.'

Recognition

Deployment of a revamped Rewards and Recognition program (R&R 2.0) and the establishment of a dedicated HR Help Desk to address employee queries rapidly.

Health, Safety and Employee Well-being

The Company has deeply embedded an Occupational Health and Safety Management System as a core component of its operations. As of FY 2025-26, 97.44% Safety Protocols of our plants are ISO 45001 certified (increased from 85.19% in FY 2024-25).

Safety Protocols

Hazard Identification and Risk Assessment (HIRA) exercises are conducted continuously across all facilities, governed daily by a stringent 188-point Safety Audit Checklist. For non-routine or high-risk tasks, a strict Permit-to-Work system is enforced.

Comprehensive Wellbeing

We provide extensive on-site care through Occupational Health Centres and in-house doctors and nursing staff for medical consultations and emergency care. Our comprehensive benefits package includes Provident Fund coverage, extensive health insurance for employees and their families, gratuity and life insurance with compensatory support for families of deceased employees.

Training and Development for the Future

Technical skill development tailored to individual verticals took center stage in FY 2025-26. Alongside rigorous training in health, safety, quality and behavioral competencies, we expanded programs to include ESG awareness, GHG accounting, ISO 50001 protocols, AI tools and software fundamentals to equip our workforce to lead LATL's progress with positivity, confidence and capability.

Outcomes: The Metrics of Our Success

Our investments in empowering our people have yielded a highly motivated, skilled and stable workforce:

Safety Excellence

Maintained an industry-leading safety performance, achieving zero fatalities and a low Lost Time Injury Frequency Rate (LTIFR), reflecting our unwavering commitment to shop floor safety.

Training Depth

Delivered comprehensive learning and development programs across the organization, with 100% of employees trained on health and safety measures and 71.68% receiving skill upgradation training.

Talent Retention

Maintained a strong focus on talent retention through employee engagement, career development and a supportive work environment.

Employee Satisfaction

Continued to foster a positive and inclusive workplace culture, strengthening employee engagement and overall organizational commitment.

Social and Relationship Capital

Advancing through Collaboration.

LATL's growth in FY 2025-26 is the product of an ecosystem, not a single organization. OEM partners who commit increasingly complex programs to LATL, joint venture partners who bring the technology that makes those programs possible, suppliers who carry a significant share of the manufacturing value chain and communities who live alongside the facilities where that work happens, each is a constituent of the network on which the Company's scale depends. As LATL transitions towards a Tier-0.5 integrator model, the strength of these relationships is a structural requirement.

Capital Inputs: The Network We Nurture

Our investments in building strong societal and business relationships are continuous, structured and targeted toward mutual value creation.

Supply Chain Network

An extensive operational model relying on strategic suppliers organized into

7

dedicated supplier clusters across India.

Global Ecosystem

Active, operational alignment with our

6

international joint venture partners.

Community Investment

A dedicated Corporate Social Responsibility

(CSR)

expenditure channeled through the Lumax Charitable Foundation.

Industry Advocacy

Active memberships and leadership roles in pivotal industry bodies, including CII, ACMA and SIAM.

Strategic Value Creation: Fostering Transformative Partnerships

Our strong Supply Chain is an integral part of LATL' success, providing the competitive edge. We manage our Social and Relationship Capital through three primary strategic lenses: evaluating and elevating our supply chain, co-creating with our customers and driving structured community upliftment.

Elevating the Supplier Ecosystem

Because our operational model relies extensively on suppliers who perform a significant portion of our core manufacturing processes, our procurement strategy goes far beyond vendor management into active supplier development.

Stringent Evaluation & Onboarding

Suppliers are rigorously evaluated on their ability to deliver complete solutions. Our onboarding criteria cover Financial Strength, Quality Standards, Costing Norms, Technological Readiness and Commitment to Sustainability.

Continuous Competency Enhancement

Our 7 supplier clusters act as hubs for monthly training, embedding skill development and knowledge sharing into supply chain partnerships. At the cluster level, we collaborate with OEMs and engage Tier 2 & Tier 3 suppliers through quarterly workshops focused on quality, capability building and best practice exchange.

Sustainable Logistics & Procurement

In FY 2025-26, we are actively pursuing a CNG transport fleet conversion within our supply chain logistics, targeting a 40% to 50% conversion rate to reduce Scope 3 emissions.

Customer Focus & Global Partner Integration

Customer satisfaction is the ultimate measure of our relationship capital. Our market leadership is validated by the enduring trust of our OEM customers and JV partners.

OEM Co-Creation & Design-to-Cost

We engage with suppliers and OEMs from the fundamental design stages. Our early supplier involvement, design-to-cost methodologies and deep domain knowledge across five product verticals ensure that our deliverables are cost-efficient, technically current and future-oriented.

Deepening Key Partnerships

In FY 2025-26, we continued to significantly deepen our strategic partnerships with Mahindra and Mahindra, Bajaj Auto and Maruti Suzuki, all of whom exhibited positive demand trends heading into FY 2026-27.

JV Synergy

We maintain transparent, collaborative relationships with our global partners, ensuring smooth intellectual property localization and mutually beneficial expansions within the Indian market.

Corporate Social Responsibility (CSR)

Investing in people, protecting the planet - because sustainable business begins with sustainable communities.

At Lumax Auto Technologies Limited, transformation goes beyond business change, it embodies a deeper, more meaningful evolution in how the Company creates value for society. It marks a journey from responsibility and outreach to enduring commitment and measurable impact. CSR at LATL is embedded in its core philosophy, that sustainable business growth must be accompanied by the progress of communities it touches. Guided by this belief, the Company continues to scale its social involvement with greater focus, needs and impact, ensuring that every initiative delivers lasting value.

Through the Lumax Charitable Foundation (LCF), LATL translates this vision into structured, high-impact programs aligned with the United Nations Sustainable Development Goals - SDG 3: Good Health and Well-Being and SDG 4: Quality Education. This enables the Company to address the on-ground requirements, aligned with business/industry needs while contributing to inclusive and equitable development of communities and people.

Every program is designed around genuine community needs and delivered in partnership with NGOs, with regular monitoring and overseeing to ensure progress and outcomes.

Health: Expanding Access, Enhancing Lives

Healthy communities are the bedrock of productive societies. LATL's health program go beyond treating illness - they address the barriers that prevent communities from accessing healthcare in the first place.

A defining shift in LATL's healthcare approach lies in moving beyond adhoc interventions to building sustained access to healthcare for underserved communities.

Vision loss is largely preventable and timely action can significantly enhance quality of life. Yet, in low-income communities, it continues to remain a silent epidemic. The program represents a strategic approach, extending eye care services to restore vision for individuals who would otherwise remain unattended. The eye care program includes

eye screenings, distribution of medicines, reading glasses and free cataract surgeries to the underserved communities.

Addressing emerging health challenges, Sweetlings a program run along with Jehangir Hospital Pune, adopting a holistic care model for children with Type 1 Diabetes. Integrated medical treatment with psychological and social support towards holistic wellbeing of children.

Meanwhile, the Mobile Health Van initiative embodies accessibility in action, bringing essential primary healthcare services directly to communities at their doorstep. Launched this year across Haryana and Maharashtra, the Mobile Health Van brings qualified medical professionals and essential services directly to underserved communities. Together, these programs signify a clear progression from treating illness to strengthening healthcare ecosystem.

Programs with Sakushal Trust provide critical, uninterrupted care for children battling cancer, ensuring that financial hardship does not disrupt life-saving treatment.

Education: From Access to Empowerment

The classrooms of today shape the workforce and citizens of tomorrow.

LATL's education initiatives are evolving from enabling access to actively shaping future-ready individuals.

The Girl Child Education program continues to address inherent gender disparities, reinforcing the Company's belief that educating girls creates multi-generational impact. When a girl stays in school, the impact extends far beyond her own future to her home, her community and the nation.

Complementing this, Sunehra Kal equips students with critical life skills, fostering resilience, informed decision-making and social awareness. It focuses on the 10 core life skills identified by the World Health Organisation (WHO), equipping students across Haryana, Maharashtra and Gujarat with tools to navigate both education and life. This program helps in reducing dropout rates, curbing early marriages and preparing them to become informed, empowered citizens. In parallel, life skills and STEAM education (Science, Technology, Engineering, Arts and Mathematics) are being integrated into primary schools in Haryana and Uttarakhand, strengthening foundational learning and nurturing curiosity from an early age.

Recognizing the growing importance of Digital Literacy, the initiative bridges the technology divide, ensuring that students from underserved communities are equipped for an increasingly digital world. The program places trained computer teachers in government schools where labs remain underutilized due to the lack of qualified instructors. By providing trained professionals to bridge this gap, we enable eager students to access digital literacy.

Through Career Margdarshan, we address a crucial gap in rural education ecosystems, providing clarity, direction and confidence to young individuals navigating career choices. Pre-assessment tests, career guidance, one-on-one counselling and psychometric assessments help students align their capacity with their interests and raise awareness of vocational and skill-based options. The program also prepares students for competitive entrance examinations - CUET.

Similarly, the 'Usha Ki Kiran' Scholarship Program removes financial barriers, enabling deserving students including 'persons with disabilities' to pursue education, taking a step towards inclusive higher education.

The investment in personal and menstrual hygiene awareness has strengthened and improved attendance and fostered dignity among students. By addressing stigma and misinformation around adolescence and menstrual health, the program has created safer, more empowered school communities.

In line with government directives to focus on aspirational districts, the Company has been active in Nuh - Mewat, Haryana. A sanitary pad manufacturing unit has been set up in the village to fulfil the need to supply free of cost sanitary pads to the students of the menstrual hygiene program. This is led by rural women advancing both public health and women empowerment. Women are trained in production, distribution and sales, fostering financial independence and empowerment.

School infrastructure including toilets, classrooms etc., provides a conducive environment that encourages learning, improves attendance and community pride.

Skillling: Enabling Economic Independence

Recognising that sustainable development requires economic empowerment, LATL has expanded its focus on skill-building.

Launched in partnership with the Automotive Skill Development, the program Saksham Safalta is a significant step towards industry-aligned skilling. By equipping youth with practical training, certification and placement support, the program creates direct pathways to employment and financial independence. In its inaugural year, the program is equipping young people with the skills and credentials to build real careers.

This marks a clear progression UpSHIFT, from only education to skilling and employability ensuring that beneficiaries are not just skilled, but industry-ready.

The Governance Framework Enabling Sustainable Growth.

Scaling operations, integrating global technologies and entering new domains such as software and embedded electronics all require a governance framework that can keep pace with the complexity of the decisions being made.

At LATL, governance is not a compliance layer that sits alongside the business. It is the framework within which the BRIDGE strategy is executed: providing the discipline that ensures structural ambition is matched by operational integrity, risk awareness and transparent accountability to all stakeholders.

1

Board of Directors: A Confluence of Expertise

Our Board of Directors is the ultimate custodian of our strategic vision. To guide our pivot toward intelligent mobility and complex systems integration, we have intentionally curated a Board that blends deep automotive legacy with advanced financial, technological and strategic acumen.

Independence & Objectivity

The Board comprises 50% Independent Directors, ensuring unbiased oversight and independent evaluation of management performance.

Diversity of Thought

We maintain boardroom diversity, with 12.5% female representation and a broad spectrum of industry expertise spanning global joint venture management, digital transformation and sustainable finance.

Strategic Oversight

In FY 2025-26, the Board played a highly active role in approving and monitoring critical capital allocations, the strategic land acquisitions and the establishment of the SHIFT tech centre in Bengaluru.

2

Ethical Business Conduct and Compliance

Operational excellence is impossible without absolute integrity. Our governance framework is operationalized daily through strict, zero-tolerance policies that govern the behavior of every employee, supplier and partner.

Code of Conduct

A comprehensive Code of Conduct mandates fair competition, anti-bribery and anti-corruption practices across all LATL entities and joint ventures.

Whistle-Blower Mechanism

We maintain a secure, anonymous vigil mechanism, empowering employees and value-chain partners to report unethical conduct without fear of retaliation.

Regulatory Agility

The Board ensures that LATL stays ahead of the regulatory curve, maintaining full compliance with the New Labour Code, advanced BRSR (Business Responsibility and Sustainability Reporting) mandates and evolving automotive safety standards.

3

Enterprise Risk Management (ERM): Navigating New Horizons

As our product portfolio evolves from mechanical hardware to software-defined and connected systems, our risk horizon fundamentally expands. Our Board-led Risk Management Committee has upgraded our ERM framework to proactively identify and mitigate the unique risks associated with our technological leap.

Cybersecurity & Data Privacy

Lumax has strengthened its IT structure with multi-layered security systems including Antivirus, EDR, Zero Trust architecture and Data Leakage Protection, supported by ISO 27001 and TISAX certifications. Continuous phishing awareness training ensures employee vigilance. Our hybrid IT strategy leverages secure cloud and SaaS platforms such as SAP Rise alongside in-house systems for plant-specific data. With SAP Rise guaranteeing 99.7% uptime and fragmented multi-location data storage, our disaster recovery and business continuity framework ensures resilience, cost optimization and uninterrupted protection of core manufacturing and ERP operations.

Intellectual Property (IP) Protection

As we localize advanced technologies and co-create proprietary solutions with our 6 global JV partners, the Board oversees strict IP protection protocols to safeguard our competitive moat.

Supply Chain Resilience

The Board continuously monitors geopolitical and logistical risks, guiding our strategy to localize critical components (like CNG ferrule-less tubes) and maintain a highly diversified, domestic supplier ecosystem.

Climate Risk Integration

Environmental risks are now systematically integrated into our ERM matrix, ensuring our operations remain resilient against climate-related disruptions and aligned with evolving emissions regulations.

4

ESG Governance: Sustainability as a Board Mandate

Our commitment to decoupling operational growth from environmental impact is driven directly from the top. The CSR & ESG Committee of the Board holds the ultimate responsibility for our sustainability trajectory.

Target Setting & Accountability

The Board reviews and approves our ambitious targets for Scope 1 and Scope 2 emission reductions, water neutrality (ZLD) and our zero-waste-to-landfill commitments.

Monitoring the Clean Mobility Shift

The Board actively tracks the revenue contribution from our green mobility portfolio (including Greenfuel and EV components), ensuring that our capital allocation directly supports the transition to sustainable automotive ecosystems.

II. **STATE OF COMPANY'S AFFAIRS**

The Indian automotive industry witnessed a year of robust growth during the financial year under review. While the passenger vehicle (PV) segment continued its growth trajectory, supported by healthy consumer demand and increased production, the two-wheeler (2W) segment also recorded robust growth. Leveraging its diversified product portfolio, successful introduction of new products, and the continued confidence of Original Equipment Manufacturers (OEMs), the Company delivered consolidated growth that exceeded the overall industry growth rate.

The year marked another significant milestone in the Company's growth journey. Expansion of the product portfolio, coupled with increased business from existing customers, contributed to improved revenue performance and further strengthened the Company's market position.

Recognizing the growing emphasis by OEMs on localization and supply chain resilience, the Company continued to invest in the modernization and upgradation of its manufacturing facilities. These strategic investments will enhance the Company's capability to localize technologically advanced products, strengthen operational efficiencies, and provide customers with high-quality, reliable and cost-effective solutions while mitigating supply chain risks.

The Company remains focused on increasing its presence in the passenger vehicle segment, which continues to offer significant long-term growth opportunities. Through its various joint ventures and subsidiaries, the Company is expanding its portfolio with future-ready technologies and advanced product lines to address evolving customer requirements. These strategic initiatives are expected to further strengthen the Company's competitive positioning, deepen customer relationships, and support sustainable long-term growth.

The Company's continued focus on operational excellence, technology enhancement, localization, and customer-centric innovation positions it well to capitalize on emerging opportunities in the evolving automotive landscape and create long-term value for all stakeholders.

The Company stands as a leading integrated automotive component manufacturer in India, with a diversified portfolio spanning advanced plastics, mechatronics,

BOARD'S REPORT (Contd.)

structures & control systems, aftermarket solutions and alternate fuel systems.

With over four decades of operational excellence, the Company has transitioned from a traditional component supplier to a system-level solution provider, driven by increasing content per vehicle (CPV), premiumization trends and deeper integration with OEM platforms.

Business Segments

Advanced Plastics & Interior Systems

The Company's largest business segment, Advanced Plastics & Interior Systems, continued to drive revenue growth, supported by strong demand from passenger vehicle platforms and increasing premiumization. The segment comprises interior modules, blow-moulded and injection-moulded components, and high-value plastic assemblies. The integration of IAC India has strengthened scale, customer engagement and profitability, while higher CPV continues to support growth.

Structures & Control Systems

This segment includes gear shifters, metallic assemblies and control systems. Growth was driven by increasing adoption of automatic transmission systems, portfolio expansion into higher-value products and export opportunities through joint venture partnerships. Strong OEM relationships continue to support steady performance.

Aftermarket

The aftermarket business remained a stable and high-margin segment, supported by a strong distribution network and established brands. Growth was driven by channel expansion, portfolio enhancement and improved market reach across replacement parts and automotive components.

Mechatronics

The Mechatronics business continued to gain momentum, driven by increasing demand for connected and intelligent vehicle technologies. New product launches, commencement of production across subsidiaries/joint ventures and a healthy order book are expected to support meaningful revenue and margin growth over the medium term.

Alternate Fuel Systems

The Alternate Fuel Systems business, led by LGESPL, continued to expand, supported by rising adoption of CNG and LNG vehicles, favorable regulatory trends and localization initiatives. The Company is focused on broadening its product portfolio and increasing CPV.

Others

The "Others" segment comprises legacy and smaller businesses, including lighting and diversified automotive components. While modest in scale, these businesses continue to provide stable revenues and support portfolio diversification.

Technology Centre

The Company strengthened its innovation capabilities through its Bengaluru-based Technology Centre, **SHIFT (Smart Hub for Innovation and Future Trends)**. The center focuses on electronics, digital systems and next-generation mobility solutions, supporting the Company's transition towards a system-level solutions provider.

Global Expansion

During the year, the Company established its representative office in China. The office focuses on technology benchmarking, sourcing and tooling, while facilitating technology partnerships and supporting new business opportunities. It will operate in close collaboration with the SHIFT Technology Centre in Bengaluru to accelerate innovation and product development.

Manufacturing Initiatives

The Company continued to strengthen its manufacturing footprint through strategic land acquisitions in Gujarat during FY 2025-26, following its investment in the Kharkhoda region of Haryana in FY 2024-25. These investments will enhance manufacturing capacity, supply chain readiness and proximity to key customers, supporting future growth.

During this year, the Company's strategic focus has been strongly aligned towards strengthening cybersecurity, accelerating AI adoption, and driving end-to-end digitalization across the organization. As part of this journey, Company upgraded its Google Workspace environment from Business to Enterprise, enabling advanced security features along with integrated AI capabilities through Gemini. This enhancement is empowering the teams with improved productivity, smarter collaboration and a more intelligent digital workplace experience.

In parallel, Company has launched the DOJO 2.0 initiative as a pilot project on select machines, focusing on enhancing operational excellence, standardization and continuous improvement practices. Based on the outcomes and learnings from this pilot, Company plans to roll out DOJO 2.0 in a phased manner across all plants to drive consistency, efficiency and productivity improvements at an enterprise level.

BOARD'S REPORT (Contd.)

To strengthen the supply chain for imported material, Company has implemented SAP MRP process for imported material to further strengthen the supplies.

The implementation is expected to significantly enhance cross-functional collaboration, ensure better control over product data and engineering changes, reduce design and production errors and accelerate time-to-market. Overall, this initiative marks a key step in Company's digital transformation journey, positioning it to deliver faster innovation, improved operational efficiency and superior product quality.

Strengthening Cyber Security and Digital Integration

In FY 2025–26, the Company prioritized cyber security and digitalization to support its growing reliance on cloud infrastructure and deeper digital operations.

The Company continues to uphold the highest standards of Corporate Governance, treating its various stakeholders as an ethical requisite rather than a regulatory necessity and continues to base all its actions on the principles of fairness, trust and transparency, standing by its core values of Respect, Integrity, Passion and Excellence.

All in all, the Company made good progress in all areas in FY 2025-26, and the management is confident that going forward the Company will continue to deliver value to all its customers and stakeholders. The long-term outlook for the Company remains positive and it is poised to outperform the industry.

A. CAPACITY & FACILITY EXPANSION

The Company has upgraded its manufacturing facilities as per the customer requirements to cater the new product lines and meet their increased volumes.

B. QUALITY INITIATIVES

The Company strives to be a supplier of choice across all its customers and is always committed to develop and design new products, in line with its strategy towards delivering competitive advantage to the customers. In the said perspective, Total Productive Maintenance (TPM) has been successfully implemented across all plants of the Company to create a culture and environment which continuously improves quality, cost and delivery parameters.

In addition, various plants of the Company have received the following awards:

- Manufacturing Excellence Award at the 59th ACMA Excellence Awards & 10th Technology Summit 2025

- “Best QCDDM Performance Award” at HMSI Annual Supplier Convention 2025
- Japan Institute of Plant Maintenance (JIPM) TPM Award for Consistent Commitment in March 2025
- Overall Performance award for the year 2024-25 at Maruti Suzuki Vendor Conference 2025
- IAC - Intelligent Ambient Comfort Certificate of appreciation in recognition of its superior performance in Vendor System Audit Rating at Maruti Suzuki Vendor Conference 2025
- IAC - Intelligent Ambient Comfort Business partner of the year, Special appreciation award for Thar & BE6 at M&M Vendor conference.

Quality Control Circle (QCC) is an integral part for ensuring quality across all processes. By implementing these various initiatives, improvement of Quality is willingly carried out by employees in true spirit, resulting in minimizing rejection and cost.

ECONOMIC OVERVIEW

Global Economy

The global economy entered FY 2025-26 amidst a complex macroeconomic environment characterized by evolving trade dynamics, geopolitical uncertainties and elevated interest rates. While growth remained resilient across several major economies, heightened energy prices and supply chain disruptions continued to influence global economic activity. However, the outbreak of conflict in the Middle East during the second half of the year materially altered the outlook. The International Monetary Fund (IMF), in its April 2026 World Economic Outlook, projected global growth at 3.1% in CY 2026 and 3.2% in CY 2027, a moderation from the 3.4% growth recorded during CY 2025. This reflects the pressures of elevated energy prices, tighter financial conditions and weakened business sentiment; however AI-led productivity gains and resilient private consumption provide partial offsets.¹

Global headline inflation, which had been on a steady decreasing path, is projected to edge up to 4.4% in CY 2026 before resuming its decline in CY 2027, driven largely by the pass-through of higher crude prices, freight costs and commodity-linked input pressures. Advanced economies have seen modest downward growth revisions, while commodity-importing emerging markets, particularly in Asia and Sub-Saharan Africa, face more pronounced adjustments. Growth in the United States is expected to moderate as residual tariff effects work through supply chains, while the Eurozone remains range-bound with growth projected in the 1.0-1.2% corridor.²

Trade dynamics remain a defining feature of the global landscape. The interim US-India trade agreement concluded earlier in CY 2026, which reduced effective tariffs to 18% from earlier proposed levels of 50%, has provided partial relief to export-oriented sectors. Progress on the India-EU Free Trade Agreement is expected to further improve market access over the medium term.³ For the automotive and auto component value chain, these developments carry meaningful implications: supply chains are being reconfigured around diversification strategies, critical raw material flows (including rare-earth magnets

and specialty electronics) remain concentrated and freight corridors around the Strait of Hormuz have become a key watch-item for cost visibility. The IMF highlights that the outlook remains highly contingent on the duration and intensity of the Middle East conflict, with downside scenarios implying materially lower global growth.

For automotive and auto component manufacturers, the read-through is two-fold. On the cost side, firmer crude oil, logistics and commodity prices exert pressure on input margins, particularly for import-linked components. On the demand side, resilient consumption in key Asian markets and the gradual easing of tariffs support export opportunities, while the accelerating shift to electrification and software-defined vehicles continues to reshape the component mix.

Indian Economy

India remained one of the fastest-growing major economies globally during FY 2025-26, with the Reserve Bank of India (RBI) maintaining real GDP growth at 7.6% for FY 2025-26, supported by robust domestic demand, strong manufacturing momentum and a resilient services sector. GDP growth reported at 8.4% in Q2 FY 2025-26 and moderated to 7.8% in Q3 FY 2025-26, reflecting sustained economic momentum despite a high base and post-festive normalization. Growth remained predominantly domestically driven, with private consumption and government capital expenditure continuing to anchor economic activity during the year. For FY 2026-27, the central bank has estimated growth at 6.9%, indicating a calibrated moderation amid evolving global uncertainties, including geopolitical risks and energy price volatility.⁴

The domestic macroeconomic environment has been supportive for discretionary consumption. Multiple policy and macroeconomic factors contributed to a favorable demand environment during FY 2025-26. Recent GST rationalization measures improved affordability across select categories, supporting consumption demand. Monetary policy remained balanced, with the RBI maintaining a neutral stance while ensuring adequate system liquidity, supporting credit availability across retail and industrial segments. Additionally, personal income tax adjustments announced in the Union Budget supported disposable incomes.⁵

Headline CPI inflation has remained within the RBI's target band of 2-6% for much of FY 2025-26, with inflation averaging close to 2.0-2.1% during the year and reaching a multi-year low in October 2025. This has allowed the monetary authority to maintain a balanced policy stance while food and fuel prices remain contained. The Government's continued thrust on infrastructure, PM GatiShakti, the Production-Linked Incentive (PLI) scheme and the finalization of the Automotive Mission Plan 2047 provide structural underpinnings for long-cycle investment.⁶

Source: RBI Monetary Policy Statement, April 2026; MoSPI New Series with base year 2022-23.

Outlook

The Indian economy is expected to sustain its growth momentum through FY 2026-27, supported by strong domestic fundamentals. Private consumption is expected to strengthen further, supported by stable inflation, improving income visibility and a resilient labor market. Investment activity is likely to accelerate on the back of higher capacity utilization in manufacturing, a healthier corporate balance sheet and continuing public capital expenditure. Export growth, while subject to global trade realignments, remains supported by improving competitiveness and widening market access.

The principal downside risks relate to geopolitical fragmentation, prolonged elevation in crude oil prices and

currency volatility. For discretionary categories including automobiles, however, supportive policy measures, stable financing conditions and tax adjustments continue to provide a favorable demand environment which is expected to support demand conditions through FY 2026-27.

AUTOMOTIVE INDUSTRY OVERVIEW

Global Automotive Industry

Global light-vehicle sales rose 3.4% in CY 2025 to 91.7 Million units, the first year to exceed the CY 2019 pre-COVID peak of 89.9 Million and S&P Global Mobility expects 2026 sales to remain near-flat at 91.8 Million units, with global production ticking down 0.4% to 92.6 Million.⁷

Production outlook has been revised across key regions, reflecting demand softness, geopolitical disruptions and affordability pressures. In the United States, CY 2026 and CY 2027 production are now estimated at 14.3 Million (1.5%) and 15.3 Million (2.3%), with further cuts due to conflict spillovers and weakening demand; while OEMs are initially absorbing tariff impacts⁸, gradual price increases are expected amid already elevated vehicle prices. In Europe, CY 2026 production has also been trimmed due to energy costs and affordability constraints, with Germany still below pre-COVID levels and France lagging, as OEMs navigate electrification mandates, rising Chinese EV competition and a consumer shift toward hybrids. In China, domestic demand remains subdued due to lower subsidies and weak sentiment, leading to downward revisions, although exports continue to provide structural support. Meanwhile, Japan and Korea have seen modest cuts, with Japanese OEMs benefiting from a weaker yen and evolving supply chain strategies, including increased localized and sourcing shifts.

A key structural shift is that Chinese-origin brands now account for 26.5% of global vehicle production (24.8 Million units, +18% YoY in CY 2025) and are projected to take 27.4% in CY 2026⁷. More tellingly, Chinese OEMs' production outside China grew from 1.1 Million units in CY 2025 to a forecast 1.6 Million in CY 2026, a 45% increase that signals the second wave of the Chinese auto export thrust: localised manufacturing in Europe, Southeast Asia, Mexico and Egypt.

Another key trend is the moderation of pure-Battery Electric Vehicle (BEV) adoption in favor of a multi-powertrain world. S&P Global Mobility now projects electrified vehicles (BEV

+ Plug-in Hybrid Electric Vehicle (PHEV) + Range-Extended Electric Vehicle (REEV) at 30% of global sales in CY 2026, with EV-Volumes pegging the BEV+PHEV share at 27.5% but the mix is shifting toward hybrids and PHEVs as bridge technologies⁹

China remains the global EV growth engine; North America continues to lag the adoption curve; Europe is in flux as government incentive structures are recalibrated. Battery demand is forecast to exceed 1 TWh in CY 2025 and reach 6 TWh by 2040.⁹ BEV sales in France grew 12.4% in CY 2025 to a 20% market share despite the overall PV market decline illustrating that the regulatory mix-shift is independent of cyclical demand.¹⁰

OEMs are caught between three forces in CY 2026: (i) tariff cost absorption pressuring margins; (ii) rising EV-related amortisation (battery, software, charging infrastructure); and (iii) competitive pressure from Chinese OEMs that are not competing in the sub-€20,000 segment, where they could, but are instead targeting higher-margin segments with aggressive value propositions. As a result: OEMs globally are recalibrating product portfolio and investment priorities to balance profitability, affordability and electrification objectives.

Software-defined vehicles (SDVs) represent a key medium-term margin lever. Recurring software/services revenue, OTA-update monetization and ADAS feature unlocks are reshaping the OEM business model.

Global Auto Component Industry

The global auto components industry, estimated at ~USD 1.8-2.0 Trillion in revenue, is in the middle of its most significant restructuring since the 1980s. Three forces converge: (i) the EV content uplift (BEVs require ~3-4x the value of power electronics, motors, battery management and thermal management vs ICE); (ii) software-and-electronics share rising to 30%+ of vehicle BoM by 2030; and (iii) the collapse of legacy ICE-only supplier economics as volumes for engines, fuel systems and exhaust components face structural decline. Tier-1 suppliers globally are bifurcating into 'EV-ready' and 'value migrants' exiting ICE-dependent product lines.

Indian Automotive Industry

The Indian auto industry posted its strongest fiscal year in seven years (since FY 19), with production of 34.71 Million units, up 12.0% YoY and robust performance across segments.^{11,12}

Segment	FY 2025-26 Volume	FY 2024-25 Volume	YoY Growth

Passenger Vehicles: SUVs continue to take share from sedans and hatchbacks; the 'premium-affordable' segment (₹ 10-25 Lakhs) is the fastest-growing segment; and BEV penetration in PVs reached the mid-single-digit range in FY 2025-26, with Tata Motors and Mahindra capturing the lion's share. The launch of the SPMEPCI scheme in June 2025 (Scheme to Promote Manufacturing of Electric Passenger Cars) is bringing global OEMs onto the Indian production map.¹³

Two-Wheelers: The 11.8% headline understates the scooter renaissance 17.2% growth led by EV scooters and a return of urban commuter demand. EV penetration in 2W has crossed 8-10% on a monthly basis, the highest in any major segment. Motorcycle growth at 9.6% reflects steady premiumization.

Commercial Vehicles: The 13.1% growth marks a clear cyclical recovery, supported by infrastructure-led freight demand, fleet replacement after the pre-BS-VI vehicle cohort and improving operator economics on lower diesel prices through most of 2025. Heavy CV (M&HCV) outperformed light CV, a classic mid-cycle indicator.

Vehicle exports surged 24% in FY 2025-26 to 6.65 Million units, the strongest export year on record, with passenger-vehicle exports up 17.5%, two-wheelers up 23.4%, three-

wheelers up 50.1% and CVs up 17.4%. India is now the world's largest 2W exporter and a top-5 PV exporter by volume. The drivers: rupee depreciation tailwind, Maruti-Hyundai-Kia volume push from India as an export hub and growing acceptance of Indian-engineered products in Latin America, Africa and ASEAN. The two soft spots: (i) Mexico raised import duties and (ii) Middle East demand is at risk from the conflict. Together, these account for ~20-22% of India's PV exports, per SIAM.¹⁴ This is a calibrated risk, not a structural one.

India's auto growth outlook remains robust and is underpinned by rising incomes (crossing USD 3,000 per capita), increasing urbanization (36% to 43% by 2035), deeper financing penetration and premiumisation. Higher-priced vehicles are driving revenue growth, while demand remains broad-based across rural and urban markets, indicating underlying macro strength.

Indian Auto Component Industry

The Indian auto components industry is now a USD 80+ billion-revenue industry at annualized pace, reflecting strong OEM growth, an expanding vehicle parc (number of vehicles on the road) and the formalization of repair and maintenance channels. The PLI architecture is specifically designed to deepen India from 'assembly-driven' to 'vertically integrated'. The 12.5% YoY growth in component imports (driven primarily by China) is flipping the trade balance from a USD 150 Million surplus to a USD 180 Million deficit reveals the uncomfortable truth about India's auto-components positioning: even as India exports more, it is also importing more sophisticated sub-systems (rare-earth magnets, power electronics, EV-specific components) from China. ACMA leadership has explicitly flagged securing critical materials, including rare-earth magnets, as the top supply-chain priority for FY 2026-27.¹⁵ Dependence on imports of certain advanced components and critical materials, including rare earth magnets and power electronics, remains a key strategic consideration for the industry. This also presents opportunities for localisation and domestic value addition.

OPPORTUNITIES

Expanding Domestic Vehicle Demand

The expanding middle class and rapid urbanization are fuelling a surge in automobile demand. This, in turn, is propelling growth in the auto component sector. The growth of India's middle class is leading to higher vehicle ownership, driven by rising incomes, better education, and employment

opportunities. These factors boost disposable income and encourage spending on personal transportation.

Premiumization

ASP-led growth now contributes more to industry revenue than unit-volume growth in most quarters. The component implication: precision engineering, ADAS, infotainment, premium interiors and lighting are the highest-growth sub-verticals, far ahead of generic body-and-chassis components.

Software, Electronics and the SDV Transition

The vehicle BoM is shifting from majority mechanical to more electronics- and software-led in the next few years. India's strength in software, embedded systems and engineering services is structurally aligned with this shift. The global engineering-R&D services opportunity for Indian auto-services firms is expected to be in the USD 50-60 Billion range by CY 2028.

Emergence as a Global Sourcing Hub

India is being considered a potential global automotive supply chain alternative under global diversification strategy. This strategy encourages companies to diversify manufacturing beyond China. Additionally, India's automotive industry is gaining importance in global supply chains due to strategic localization, economic growth, endurance, and targeted investments in infrastructure and technology.

Technological Advancements

India is enhancing its advanced manufacturing infrastructure through increased foreign direct investment and a focus on localizing advanced components to reduce import dependency. The country is also embracing advanced technologies like robotics, automation, and Industry 4.0 to improve productivity and meet international quality standards, positioning itself as a competitive player.

Aftermarket - The Under-Appreciated Structural Compounder

With the strong increase in vehicle parc, the aftermarket is the single most predictable growth pool in the industry for the next decade, with relatively higher margin profile. The formalization tailwind such as growing organized channels compounds the secular volume growth.

THREATS

Supply Chain Disruptions

The sector contends with geopolitical and economic disruptions, prompting the need to localize critical

components to reduce import dependency, especially from China. Logistics challenges are exacerbated by geopolitical tensions, complicating and raising input and transportation costs. As a result, the sector remains vulnerable to global supply chain disruptions and currency fluctuations due to significant reliance on imported advanced components.

Transition to EVs

The shift to EVs presents both challenges and opportunities for the auto component industry. While EV adoption is accelerating, it poses significant threats to traditional auto component manufacturers due to the fundamental change in vehicle architecture. The demand for ICE-related components, such as engines, transmissions, and fuel systems is expected to decline, impacting businesses that rely heavily on these parts. Additionally, developing skills for EV production remains a challenge, as the existing workforce may not be adequately trained for battery technology, power electronics, and electric drivetrains. Moreover, the growth of the EV segment is highly dependent on charging infrastructure, battery supply chains, and government incentives.

Margin Pressure from OEMs

OEMs, facing their own margin squeeze, are pushing component pricing down by 2-4% annually in real terms. Sustainable defence for component manufacturers is technology differentiation, cost-leadership through scale and efficiency enhancements.

Government Regulations and Compliance

The auto component industry faces uncertainty and increased production costs due to constantly changing government policies and regulations, as manufacturers adapt to new emissions and safety standards. Evolving labor regulations, including the implementation of new labor codes and state-specific requirements may necessitate changes to workforce policies, payroll structures, contractor management and compliance processes, resulting in higher administrative costs and operational complexity.

Demand Slowdown In Developed Markets

US, Europe and Japan together account for 50% of global auto demand by value and 60% of auto-component import value. Any combination of (i) Fed reaction-function tightening, (ii) European recession, or (iii) Japanese yen-driven import compression hits Indian auto exports through volume and price simultaneously.

Geopolitical Risks

Geopolitical risks, including changes in tariff structures, regional conflicts, trade restrictions, and supply chain

disruptions across key markets, may impact the global business environment. Such developments could result in volatility in commodity prices, logistics costs, currency movements, sourcing dynamics, and overall business continuity, potentially affecting operations and financial performance.

Company Overview

Lumax Auto Technologies Limited ('LATL' or 'the Company') stands as a leading integrated automotive component manufacturer in India, with a diversified portfolio spanning advanced plastics, mechatronics, structures and control systems, aftermarket solutions and alternate fuel systems.

With over four decades of operational excellence, LATL has transitioned from a traditional component supplier to a system-level solution provider, driven by increasing content per vehicle (CPV), premiumization trends and deeper integration with OEM platforms.

The Company operates through a robust ecosystem of global partnerships and joint ventures, including collaborations with companies such as Mannoh, Cornaglia, IAC, Alps Alpine, Ituran, Jopp, FAE and Yokowo, enabling access to advanced technologies and enhancing product capabilities across segments.

LATL has a strong manufacturing footprint of 28 facilities spread across Haryana, Gujarat, Madhya Pradesh, Maharashtra, Uttarakhand, Rajasthan and Karnataka across India and serves over 20 prominent customers in the automotive sector including leading OEMs such as M&M, Bajaj Auto, Maruti Suzuki, Tata Motors and HMT.

BUSINESS SEGMENTS

Advanced Plastics and Interior Systems

The Advanced Plastics segment is the largest contributor to the Company's revenue, driven by strong growth in passenger vehicle platforms and increasing demand for premium interior solutions.

The segment comprises:

- Interior modules such as cockpits, door panels, trims and consoles
- Blow-moulded and injection-moulded components
- High-value plastic assemblies

The acquisition followed by integration of IAC India has further strengthened the Company's presence in this segment, enabling scale benefits, enhanced customer engagement and improved margins. Growth is supported by increasing CPV and premiumization trends across OEM platforms.

ANNEXURE – A (Contd.)

Structures and Control Systems

The Structures and Control Systems segment comprises mechanical and structural components, including gear shifters, metallic assemblies and control systems.

Key growth drivers include:

- Increasing penetration of automatic transmission systems
- Expansion of product portfolio into higher-value components
- Export opportunities through joint venture partnerships

The segment continues to deliver steady growth, supported by strong OEM relationships and increasing adoption of premium features in vehicles.

Aftermarket

The Aftermarket segment remains a stable and high-margin business for the Company, supported by a well-established distribution network and strong brand presence.

The segment includes:

- Lighting and other automotive components
- Replacement parts

During the year, this segment continued to outperform other segments, driven by focused channel expansion, product portfolio enhancement and strategic initiatives to improve reach and service levels.

Others

This segment includes legacy and smaller business lines, including lighting and other diversified components.

While relatively smaller in contribution, these businesses continue to provide stable revenues and support the Company's diversified product portfolio.

Segment	Core Products	Key Partnerships/Entities
Advanced Plastics and Interiors	Cockpit, trims, panels	IAC India (now part of standalone)
Structures and Control Systems	Gear shifters, metal parts	Mannoh and Jopp
Mechatronics and Electronics	Sensors, telematics, antennas	Yokowo, Alps Alpine, Ituran, FAE
Alternate Fuel Systems	CNG/LNG kits	Greenfuel
Aftermarket	Spare parts, lighting	Standalone
Lighting/Legacy	LED, 2W lighting	Standalone

Strategic Developments During FY 2025-26

- **IAC India Integration:** During FY 2025-26, the Company completed the acquisition of the remaining 25% stake in IAC India and merged with LATL with effect from October 01, 2025. This strengthens LATL's presence in premium interior systems and plastics, while enhancing scale, margins and relationships with leading PV OEMs.
- **Greenfuel Energy Scaling:** Following the acquisition in FY 2024-25, the Greenfuel business scaled up during FY 2025-26, solidifying LATL's entry into alternate fuel systems (CNG/LNG). The business is expected to contribute meaningfully to revenues with higher margin profile and strong growth visibility. While FY 2024-25 reflected only a part-year contribution from Greenfuel, FY 2025-26 marks the first full year of its consolidation, supporting overall revenue growth.

Mechatronics

The Mechatronics segment represents the Company's focus on future-ready technologies, including sensors, telematics, antennas and electronic modules.

This segment is witnessing strong growth momentum, driven by:

- Increasing adoption of connected and intelligent vehicle technologies
- New product launches and commencement of production (SOPs)
- Strong order book across product lines

As the segment scales up, it is expected to contribute meaningfully to both revenue growth and margin expansion over the medium term.

Alternate Fuel Systems

The Alternate Fuel segment, led by Greenfuel Energy, is a recent strategic foray into clean mobility solutions.

The segment includes:

- CNG and LNG systems
- Fuel delivery and control components

The business is witnessing strong traction, supported by regulatory tailwinds, increasing adoption of alternate fuel vehicles and ongoing localization initiatives. The Company continues to expand its product offerings and enhance CPV in this segment.

ANNEXURE – A (Contd.)

- **Shift Toward Passenger Vehicles:** LATL continues to benefit from increasing exposure to the PV segment, which now contributes ~53% of revenues, supported by strong OEM programs and premiumization trends.
- **Order Book Strength:** The Company maintains a strong order book of ₹ 1,450 Crore, with 40% linked to EV and future mobility platforms, providing medium-term revenue visibility.
- **Manufacturing Initiatives:** During FY 2025-26, the Company continued to strengthen its manufacturing footprint in line with its strategic roadmap with land parcels acquired in Gujarat. Earlier in FY 2024-25, the Company had announced investment in land in the Kharkhoda region in Haryana. These investments are intended to strengthen future manufacturing and supply chain readiness, while enhancing proximity to key customers and emerging business opportunities.
- **Technology Center:** The Company has established a dedicated Technology Center in Bengaluru, named Smart Hub for Innovation and Future Trends (SHIFT), to strengthen its capabilities in electronics, digital systems and next-generation mobility solutions. The Bengaluru hub serves as a key platform for research, development and innovation, enabling the Company to enhance its capabilities in electronics and mechatronics and support its transition toward a system-level solution provider.
- **Global Expansion:** The Company successfully established its first representative office in China, which became operational in January 2026, serving as a strategic resource center. This office is dedicated to benchmarking advanced manufacturing and electronic trends—particularly in premium interior cabin spaces—while optimizing sourcing and tooling for new product development. This initiative is yielding tangible results, including the signing of Technology Arrangements (TAs) with localized partners and securing marquee business wins.

Business Outlook

The Company continues to enhance its CPV across key segments, with steady progress in interior systems and significant headroom in alternate fuel solutions. The Greenfuel business is witnessing strong traction, supported by localisation initiatives and new product additions, which are expected to drive incremental growth. The mechatronics vertical is scaling up rapidly, backed by new program launches and expanding application areas. The aftermarket segment continues to outperform industry growth and is

expected to maintain strong momentum going forward. Overall, the Company remains focused on improving its product mix and scale, with a targeted margin expansion driven by higher contribution from premium and technology-led businesses.

At LATL, the journey continues to be anchored by a clear and ambitious strategic framework. The mid-term vision defines four critical goals that steer the Company's growth and transformation:

- 20%+ revenue CAGR, driven by new product segments and strategic acquisitions
- 20%+ Return on Capital Employed (ROCE), reflecting disciplined capital allocation
- Vision for 20% EBITDA margin, through sustained operational excellence
- 20%+ revenue contribution from clean and future mobility solutions, including EVs, CNG platforms, electrification, and software-defined systems

LATL remains well-positioned to benefit from:

- Premiumization in automotive interiors
- Increasing electronics and CPV
- Growth in alternate fuel and EV ecosystems
- Expansion in aftermarket segment

Key Growth Drivers

Strategic Transformation and Premiumization: The cornerstone of LATL's growth is the 'BRIDGE: Bold Roadmap Integrating Diverse Growth Engines' mid-term plan (FY 2025-26-FY 2030-31), a roadmap designed to transform the Company from a traditional Tier-1 supplier into a Tier-0.5 system integrator. This shift is fuelled by a profound trend toward premiumization across the automotive sector, as OEMs prioritize sophisticated interior cabin solutions, high-end features and software-enabled functionalities.

Mechatronics Segment: Characterized by high engineering intensity, this segment is scaling internal capabilities in vehicle electronics, including a strategic foray into Body Control Modules (BCMs). The Company is also commissioning a mega plant in Manesar to house multiple technology joint ventures, which is expected to further accelerate the trajectory of this division.

Clean Mobility: Expanding into clean mobility remains a core priority, with the Company targeting 20% of its total revenue from this segment by FY 2030-31. This driver is anchored by Greenfuel Energy Solutions, which provides specialized delivery systems for CNG, Hydrogen, and LNG platforms. A key milestone in this segment was the domestic localization of ferrule-less tubes and fittings, positioning the Company

ANNEXURE – A (Contd.)

as a first-to-market provider for major automotive platforms in India.

Value-led Growth: The Company is prioritizing value-led growth by significantly increasing its CPV and wallet share with marquee OEMs. By providing integrated assemblies and 'one interface' solutions, the Company is successfully deepening its penetration into the high-growth passenger vehicle and SUV segments. This strategy allows the Company to capture a larger portion of the vehicle's total value while insulating its performance from broader industry volume fluctuations.

Aftermarket Focus: A strategic overhaul of the Aftermarket segment has transitioned the Company to a demand-led growth model focused on secondary market pull. By aggressively expanding its product portfolio and strengthening its engagement with retailers and mechanics, the division achieved a robust growth in FY 2025-26. Management remains committed to an accelerated growth trajectory for this vertical, which consistently delivers margins above the consolidated average.

New Product Launches and Program Wins

Throughout FY 2025-26, the Company secured several key strategic wins and executed multiple new program launches aligned with its BRIDGE mid-term plan and its evolution toward becoming a Tier-0.5 system integrator.

Key Strategic and Order Wins:

- **Alternate Fuel Systems Localization:** The Company achieved an industry-first localization of specialized

delivery system components for alternate fuel platforms, which were previously imported by all domestic manufacturers.

- **Mechatronics Expansion:** A significant lighting program was secured through technology scouting with an international partner. Additionally, a technology joint venture established a strong entry into a major vehicle manufacturer for communication and antenna systems.
- The Company successfully commenced supplies for several high-profile vehicle platforms across its various product verticals:
 - o **Passenger Vehicles:** Commenced supplies for multiple platforms featuring localized delivery systems, shifters, switches, sensors, and sophisticated interior and emission-related components. These wins underscore the Company's ability to participate across various platforms and move up the value chain.
 - o **Two-Wheelers (2W):** Began supplying frames and specialized plastic components for various domestic and export platforms.

These launches, particularly in the high-value electronics and alternate fuel segments, have been instrumental in driving the Company's CPV growth and its historic high revenue performance in FY 2025-26.

FINANCIAL HIGHLIGHTS

Standalone

On standalone basis, the revenue from operations during the Financial Year 2025-26 stood at ₹ 3,60,548.91 Lakhs as compared to ₹ 2,87,146.66 Lakhs in the last year, registering a growth of 25.56%. For the Financial Year 2025-26, the profit before tax stood at ₹ 27,309.74 Lakhs as compared to ₹ 22,766.58 Lakhs in the last year, registering a growth of 19.96%. ANNEXURE – A (Contd.)

Risk Management

The Company has established a structured risk management framework to identify, assess and mitigate key business risks, ensuring long-term sustainability and resilience across its operations.

Risk Category	Impact	Mitigation Strategies
Economic Risk	Slowdown in the automotive sector due to macroeconomic factors such as inflation, interest rates, global geopolitical instability or weak consumer demand could impact volumes.	Diversified customer base across OEMs and segments (PV, 2W, CV), increasing focus on the aftermarket business and expansion into export markets to reduce volatility.
Environmental Risk	The automotive industry contributes to air pollution, greenhouse gas emissions and impacts water resources and ecosystems.	Promoting sustainable mobility solutions: Using Greenfuel's expertise in alternate fuel systems like CNG, LNG solutions. Enhancing fuel efficiency. Adopting sustainable manufacturing practices. Ensuring compliance with environmental standards. Implementing initiatives like Quality Control Circles (QCC), Total Productive Maintenance (TPM) and Lean Across the Company (LAC) to optimize production efficiency and reduce waste.
Competitive Disruption	Rapid technological shifts and intensified competition from EV-focused and low-cost global suppliers may reduce demand for traditional automotive components, resulting in revenue decline, margin pressure, and potential obsolescence of existing manufacturing capabilities.	The Company mitigates competitive disruption risk through portfolio diversification, investment in advanced technologies, strategic partnerships, operational excellence initiatives, customer diversification, and continuous capability enhancement.
Labor and Talent Risk	A shortage of skilled labor or workforce disputes can disrupt production and business operations.	Implementing robust talent acquisition and retention programs. Investing in training and development programs and fostering a positive work environment.
Supply Chain Risk	Disruptions due to natural calamities, geopolitical instability, or raw material shortages can delay production and increase costs.	Diversified sourcing strategy, localization of critical components, long-term supplier partnerships and continuous monitoring of supply chain risks.
Technological Risk	Accelerated pace of technological innovation may render existing products obsolete or reduce competitiveness.	Strong focus on R&D and innovation, establishment of technology centers (e.g., Bengaluru SHIFT) and collaborations with global technology partners.
Regulatory and Compliance Risk	Changes in emission norms, safety regulations and compliance requirements could increase costs or necessitate product redesign.	Continuous monitoring of regulatory developments, proactive product development aligned with future norms and adherence to global quality and compliance standards.
ESG and Sustainability Risk	Failure to meet evolving environmental, social, and governance expectations from regulators, OEMs, investors, and customers may result in increased compliance costs, loss of business opportunities, reputational damage, and reduced long-term competitiveness.	The Company mitigates ESG and sustainability risks through energy-efficient operations, responsible sourcing, strong governance practices, workforce safety initiatives, transparent ESG reporting, and long-term investments in sustainable manufacturing technologies.

ANNEXURE – A (Contd.)

Risk Category	Impact	Mitigation Strategies
Cybersecurity Risk	Operating in an increasingly digital automotive ecosystem and is exposed to cybersecurity risks including ransomware, phishing, data breaches, system disruptions and third party vulnerabilities. Such incidents may impact operations, supply chain continuity, confidential information, regulatory compliance and stakeholder trust.	Implemented a risk-based cybersecurity and information security framework supported by appropriate technology controls, governance mechanisms and monitoring processes. Key measures include access controls, network and endpoint security, periodic vulnerability assessments and security audits, data backup and recovery protocols, employee awareness programs and incident response procedures. Also undertaking ongoing review and enhancement of its cybersecurity practices to address emerging threats, strengthen resilience and support business continuity.

Human Resources

The Company recognizes that its people are a key enabler of its transformation into a technology-driven mobility solutions provider. LATL continues to focus on building a future-ready, agile and innovation-led workforce.

Key initiatives during the year include:

- Strengthening capabilities in engineering, product development and system integration, aligned with increasing CPV
- Building expertise in digital technologies, automation and Industry 4.0 practices across manufacturing and operations
- Enhancing competencies in new and alternate fuel technologies, supporting the Company's transition toward future and clean mobility solutions
- Focus on leadership development, training programs and cross-functional skill enhancement to drive organizational effectiveness
- Continued emphasis on employee engagement, safety and inclusive workplace practices, fostering a collaborative and high-performance culture

With a dedicated workforce of 2013 permanent employees, the Company remains committed to attracting, developing and retaining talent to support its long-term growth strategy.

Internal Controls and Systems

The Company has in place a robust internal control framework designed to ensure operational efficiency, financial integrity and regulatory compliance.

Key elements of the control framework include:

- Well-defined policies, procedures and standard operating processes across all functions
- Regular internal audits and risk assessments to identify gaps and strengthen controls
- Strong financial reporting systems ensuring accuracy, transparency and timely disclosures
- Adoption of ERP systems and digital monitoring tools to enhance operational visibility and decision-making
- Continuous improvement through automation, data analytics and process optimization initiatives

The internal control systems are periodically reviewed and strengthened to align with the evolving scale and complexity of operations, ensuring effective governance across the organization.

ANNEXURE – B

CORPORATE GOVERNANCE REPORT

IN TERMS OF REGULATION 34(3) READ WITH PARA C OF SCHEDULE V TO SECURITIES AND EXCHANGE BOARD OF INDIA (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

The Corporate Governance philosophy at Lumax Auto Technologies Limited ("LATL"/ "Lumax"/ "Company") is anchored on the principles of **transparency, accountability, and a steadfast commitment to long-term sustainable growth**. LATL believes that robust governance is not merely a compliance requirement but a strategic tool to optimize the balance between stakeholder aspirations and corporate objectives.

LATL is dedicated to **"doing things the right way"**. This means the business decisions at LATL are consistently filtered through a lens of ethics and rigorous legal compliance. LATL regards its shareholders, employees, customers, and the community not just as beneficiaries, but as partners in its progress. By integrating global best practices with transparent disclosures, LATL ensures that its pursuit of solid financial results goes hand-in-hand with value creation for its stakeholders.

LATL governance framework provides a resilient foundation, ensuring timely and accurate communication regarding its performance and leadership. Beyond adhering to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), LATL proactively evolves its internal standards to stay ahead of regulatory shifts and dynamic market environments, ensuring institutional stability in an ever-changing world.

Empowerment through Board Leadership: Central to LATL's philosophy is a dynamic and versatile Board of Directors. LATL believes that a diverse Board, bringing together a wealth of experience across different industries and geographies-is essential for effective oversight. LATL's governance structure empowers the Board to provide visionary leadership while ensuring that management remains accountable to the highest standards of performance and integrity.

Integrated Risk Management & Resilience: In an era of global volatility, LATL views risk management as an integral component of Corporate Governance. LATL has institutionalized a framework that identifies, assesses, and mitigates risks-ranging from operational and financial to cyber and climate-related challenges. This proactive risk-culture ensures that LATL's growth remains sustainable and its assets remain protected against unforeseen disruptions.

Commitment to ESG and Ethical Value Creation: LATL recognizes that the long-term viability of its business is inextricably linked to the well-being of the planet and the communities it serves. Consequently, LATL's governance model increasingly integrates Environmental, Social, and Governance (ESG) metrics into its core strategy. By fostering a culture of inclusivity, environmental stewardship, and ethical supply chain management, LATL aims to be a catalyst for positive change while delivering consistent, superior value to its shareholders.

LATL has complied with the requirements of Corporate Governance as stipulated under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") as applicable.

2. BOARD OF DIRECTORS

The Board of Directors serves as the core of the Company's governance, acting as the ultimate custodian of shareholder interests and corporate integrity. SECRETARIAL AUDIT REPORT

FORM NO. MR-3

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2026

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Lumax Auto Technologies Limited
CIN: L31909DL1981PLC349793
2nd Floor, Harbans Bhawan-II,
Commercial Complex,
Nangal Raya, New Delhi-110 046

We were appointed by the Board of Directors of Lumax Auto Technologies Limited (hereinafter called the Company) to conduct Secretarial Audit of the Company for the financial year ended March 31, 2026.

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by the Company. Secretarial Audit was conducted in a manner that provided us with a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Management's Responsibility for Secretarial Compliances

The Company's management is responsible for preparation and maintenance of secretarial records and for devising proper systems to ensure compliance with the provisions of applicable laws and regulations.

Auditors Responsibility

Our responsibility is to express an opinion on these secretarial records, standards and procedures followed by the Company with respect to secretarial compliances.

We believe that audit evidence and information obtained from the Company's management is adequate and appropriate for us to provide a basis for our opinion.

We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provide a reasonable basis for our opinion.

The secretarial audit report is neither an assurance to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

Opinion

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2026 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;

The Scheme of Arrangement for Amalgamation between Greenfuel Energy Solutions Private Limited (Transferor Company, step-down subsidiary of Lumax Auto Technologies Limited ("the Company") and Lumax Resources Private Limited (Transferee Company, wholly owned subsidiary of the Company), and their respective Shareholders and Creditors ('Scheme') has been approved by the Hon'ble National Company Law Tribunal, Chandigarh Bench vide order dated January 14, 2026 rectified as per the order dated January 27, 2026 with the appointed date for the Scheme being November 26, 2024.

The Scheme became effective from February 03, 2026 consequent to filing of certified true copy of the Hon'ble NCLT Order with the Registrar of Companies, Ministry of Corporate Affairs in Form INC-28 by both the Transferor Company and the Transferee Company.

Further, consequent to the scheme of amalgamation of Greenfuel Energy Solutions Private Limited and Lumax Resources Private

Limited becoming effective, the Shareholders of Transferor Company except Transferee Company (along with its Nominees) were allotted equity shares comprising forty percent (40%) of the equity share capital of Transferee Company. Accordingly, the Transferee Company namely Lumax Resources Private Limited ceased to be a wholly owned subsidiary of the Company, however it continues to be a Subsidiary of the Company. Thereafter, the name of Lumax Resources Private Limited was changed to Lumax Greenfuel Energy Solutions Private Limited.

4. Subsequent to the year under review, the Board of Directors of the Company have considered and approved the sale of its entire equity stake (along with its nominee shareholders) aggregating to 50% of the equity share capital of Lumax Jopp Allied Technologies Private Limited, to Jopp Holding GmbH, Germany, the Joint Venture Partner, subject to completion of customary conditions in terms of the Share Purchase Agreement amongst the Company, Jopp Holding GmbH and Lumax Jopp Allied Technologies Private Limited.

Consequent to the completion of the said transaction, Lumax Jopp Allied Technologies Private Limited will cease to be a Joint Venture of the Company.

This Report is to be ready with our letter of even date which is annexed as **Annexure A** and form an integral part of this report.

ANNUAL REPORT ON CSR ACTIVITIES FOR FINANCIAL YEAR ENDED 31 MARCH 2026

[Pursuant to Section 135 of the Companies Act, 2013 read with the Companies (Corporate Social Responsibility Policy) Rules, 2014]

A brief outline of the Company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs

The Company through its Corporate Social Responsibility (CSR) initiatives is committed to fostering sustainable socio-economic development in communities surrounding its plant locations.

CSR activities of Lumax Auto Technologies Limited are implemented either directly or through its dedicated CSR arm - Lumax Charitable Foundation.

Lumax Charitable Foundation has been consistently driving meaningful social initiatives aligned with the Sustainable Development Goals (SDGs), with a strong focus on Good Health and Quality Education. The Foundation's vision is rooted on transforming the lives of children, youth, and the elderly by enabling access to opportunities that ensure a better future.

Its mission is to deliver education, life skills, and healthcare interventions in communities around the Company's plant locations, thereby contributing to healthier and more empowered societies.

Key highlights of its initiatives over the years include:

1. Empowering youth through structured career counselling programs
2. Conducting junior and senior life skills development sessions
3. Facilitating experiential and beyond-school learning opportunities
4. Promoting communities health through targeted healthcare interventions

At its core, the Company believes that education is fundamental to human development. It equips individuals with essential skills such as literacy and numeracy, enabling them to communicate effectively, perform daily tasks, and collaborate within society. Education serves as a powerful catalyst for empowerment, helping individuals unlock their potential and contribute to building stronger, more resilient communities.

In line with its commitment to responsible corporate citizenship, the Company has formulated a CSR Policy in accordance with the provisions of the Companies Act, 2013.

The policy is available on the Company's website and can be accessed at:

Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

(Pursuant to Section 134(3)(m) of the Companies Act, 2013 and forming part of Directors' Report for the year ended March 31, 2026)

(A) CONSERVATION OF ENERGY

At Lumax Auto Technologies Limited, we are committed to sustainable growth and responsible energy management. Our energy conservation strategy focuses on three key areas:

- Source optimization
- Technological advancement
- Reduced consumption through energy-efficient projects

Our Initiatives

We are implementing energy-efficient appliances, eliminating unnecessary energy use, and expanding renewable energy sources across our operations. These efforts deliver significant benefits:

- Lower operational costs
- Reduced greenhouse gas emissions
- Better resource preservation
- Protection against energy price fluctuations and supply disruptions

By reducing our dependence on non-renewable resources, we are building a more resilient and future-ready organization. Our investment in clean energy and sustainable practices supports long-term environmental responsibility and stakeholder value creation.

Lumax Auto Technologies is taking targeted energy conservation measures across our plants. Below are the areas where we have achieved significant reductions in energy consumption:

Some of the key Steps taken and their impact on conservation of energy are as below:

Lumax Auto Technologies is actively reducing energy consumption across our plants through targeted conservation initiatives. The following sections highlight our key projects and measurable impacts:

Total approximately 5.92 MWp of solar roof top panels & use of Solar Park Capacity of 5.15 MWp and 0.9 MW Hybrid from external power producing company for harnessing the solar energy, wind energy and solar farm to run our plant to satisfy the need of current requirement. Use of Green Power also help us to mitigate the effect of greenhouse emission to some extent.

5.2 Use of Green Power to Mitigate our Demand of Energy

The organization is in discussion with various power producers who are physically present in group captive mode for **more use of renewable energy to mitigate the excess demand of Energy**. We are working for our Pune, Haryana, Uttarakhand & Bangalore region to reduce the energy cost along with reduction of the carbon footprint.

a. Implementation of Online Energy Monitoring System – Way Forward

Metering and sustenance of energy data is primary requirement which can be tracked and monitored easily via Online monitoring system as it captures real-time data to identify pain areas for energy usage. It helps us to perform data analysis and predict power consumption trends.

Further we are Planning to interlink plant energy data with corporate dashboard to have real-time monitoring of Energy consumption data.

(B) TECHNOLOGY ABSORPTION

The Company is strongly focusing on developing new technologies locally, New collaborations were formed to localize the upcoming product technologies in India which are driven through latest customer experience related feature enrichment, emission and regulations framework outlined by the India Government.

Growth Drivers:

1. Prioritize the development of new technologies for existing joint ventures, with a strong emphasis on localization.
2. Introducing new, EV-agnostic product categories through strategic collaborations, aiming to drive top-line growth.
3. Sustain single-source supplier status with key OEMs by leveraging JV partners' strengths to introduce cutting-edge technologies.
4. Strengthen in-house R&D capabilities with the objective to become self-reliant while meeting the diversely increasing demands of OEMs.

Key Focus Areas:

Sensors & Switches, Telematics, Light Weighting Technologies, Connectivity, in-cabin features' deployment, shifting from standard product category to electronics focus with strategic intend to enhance localization to be self-reliant partners.

ACTIVITIES RELATING TO EXPORTS

Company engaged with OEM's for providing components for the vehicle exports to global locations, products are being fully validated and approved by OEM's after meeting the required regulations.

At present Lumax is exporting Gear-shifter for Indonesian market through OEMs for the directed vehicle exports, with rising global requirement of Make in India Products – Exports of Lumax Auto Technologies will be on increasing trend in coming years.

Further, Lumax Auto Technologies will be focusing on Component Exports for New Product Lines especially for the electronics and advance plastics.

FOREIGN EXCHANGE EARNINGS AND OUTGO

The Foreign Exchange earned in terms of actual inflows during the year is ₹ 3,359.70 Lakhs and the Foreign Exchange outgo during the year in terms of actual outflows is ₹ 13,999.30 Lakhs.

While the Entity does not have a standalone policy specifically for shareholder grievance redressal, it provides access to the Online Dispute Resolution (ODR) portal for resolving disputes in the Indian securities market, with details available on its website. Link: <https://www.lumaxworld.in/lumaxautotech/online-dispute-resolution.html>

The Entity engages with a diverse range of stakeholders, including customers, suppliers, employees/workers, business partners, the Board of Directors, promoters, government bodies, industry associations, communities, society, and investors. It has established a comprehensive grievance redressal framework supported by multiple policies and procedures across its operations. These include a Vigil Mechanism/Whistle Blower Policy, an Anti-Bribery Policy, and a Policy on the Prevention of Sexual Harassment of Women at the Workplace, all of which provide structured channels for raising concerns and reporting grievances.

Additionally, an escalation matrix is in place to address grievances from productive suppliers, while the Legal and Secretarial Department manages concerns raised by other stakeholder groups, ensuring timely and appropriate resolution.

26 Overview of the entity's material responsible business conduct issues.

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. no.	Material issue identified	Indicate whether risk Or opportunity (R/O)	Rationale for identifying the risk/opportunity
1.	 Waste Management	 	Opportunities - Enhance operational performance while optimizing costs - Create new revenue opportunities while reducing environmental impact Risks - Initial capital investments and process changes may temporarily impact profitability and efficiency - Addressing technological limitations requires careful planning and dedicated resources
2.	 Water Management	 	Opportunity: - Demonstrating environmental responsibility while advancing corporate sustainability objectives Risk: - As freshwater availability continues to decline, its importance in critical operations—such as manufacturing and cooling—becomes increasingly significant. Any disruption caused by shortages or contamination can severely impact operations, underscoring the urgent need for robust and sustainable water management practices.
3.	 Energy Management	 	Opportunities: - Reduce dependence on non-renewable energy sources - Enhance operational resilience while minimizing the risk of downtime - Align with stakeholder expectations and reinforce environmental responsibility - Promote employee awareness and cultivate a culture of sustainability Risks: - Dependence on emerging energy management technologies may introduce maintenance challenges, reliability concerns, and integration issues with existing systems - Initial investments and operational changes may temporarily impact profitability

Opportunity

Risk

In case of risk, approach to adapt or mitigate

Financial implications of the risk or opportunity (Indicate positive or negative implications)

Adaptation/Mitigation Measures:

1. Adopt a strategic approach to planned investments
2. Implement a flexible and adaptive compliance framework
3. Embrace technological advancements and innovative solutions
4. Promote continuous improvement and responsiveness

Positive Implications:

1. Adopting effective waste management systems enables the organization to optimize operations, reduce costs, and enhance resource efficiency. It supports regulatory compliance and strengthens the organization's reputation as a sustainable and responsible business. Additionally, this proactive approach fosters innovation and can create new revenue opportunities through recycling and recovery initiatives.

Negative Implications:

1. Modernizing infrastructure and implementing advanced waste management systems may require significant upfront investment. Additionally, managing diverse waste streams may necessitate specialized expertise and technical knowledge for effective handling.

Adaptation/Mitigation Measures:

1. Conduct detailed assessments to identify potential water-related risks and operational vulnerabilities
2. Improve water efficiency by adopting water-saving technologies and expanding wastewater treatment infrastructure
3. Ensure regular maintenance and continuous monitoring of water systems
4. Explore alternative water sources, such as rainwater harvesting and greywater reuse, to meet operational needs

Positive Implications:

1. Effective water management can deliver significant cost savings by reducing water consumption, lowering treatment expenses, and improving operational efficiency
2. It also mitigates financial risks associated with water scarcity and reduces the likelihood of operational disruptions due to water-related challenges

Adaptation/Mitigation Measures:

1. Dependence on emerging energy management technologies may introduce maintenance challenges, reliability concerns, and integration issues with existing systems
2. Initial investments and operational changes may temporarily impact profitability

Positive Implications:

1. Efficient energy management can deliver significant long-term cost savings by reducing overall energy consumption
2. A strong commitment to sustainability and energy efficiency enhances relationships with investors and customers, strengthening brand loyalty and improving financial performance
3. Reduced reliance on non-renewable energy sources helps mitigate risks related to energy price volatility and supply disruptions, leading to more stable operational costs

Negative Implications:

1. Initial capital investment and setup costs for implementing energy management initiatives can be substantial.

S. no.	Material issue identified	Indicate whether risk Or opportunity (R/O)	Rationale for identifying the risk/opportunity
4.	 GHG Emissions	 	Opportunity: - Promote environmental responsibility while advancing broader corporate sustainability objectives Risk: - Addressing Scope 3 greenhouse gas (GHG) emissions across the value chain is complex and requires extensive coordination with external partners, presenting significant challenges.
5.	 Occupational Health and Safety	 	Opportunity: - Create a safer and more efficient workplace, strengthening overall organizational resilience - Proactively reduce risks and prevent safety-related incidents Risk: - Inadequate occupational health and safety (OHS) practices can lead to workplace accidents, injuries, and health issues, significantly affecting employee well-being and productivity. Such incidents can also disrupt business operations, halt production, and result in substantial delays.
6.	 Employee Wellbeing		Opportunity: - Enhances employee morale, satisfaction, and retention by fostering a secure and supportive work environment where employees feel valued and protected - Boosts employee engagement and motivation, contributing to a positive workplace culture that encourages productivity and long-term commitment
7.	 Customer Satisfaction		Opportunity: - Enhanced customer loyalty and repeat business - Improved customer retention - Increased operational efficiency

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
	Adaptation/Mitigation Measures: - Promote transparent communication and strong collaboration with suppliers - Implement robust data systems to capture accurate and comprehensive information from a diverse supplier base - Conduct training and awareness programs to embed sustainable practices across the supply chain - Establish continuous monitoring and evaluation mechanisms to track compliance and support ongoing improvement	Positive Implications: - Measuring Scope 3 emissions can identify opportunities for cost savings and improve supply chain efficiency - Collaborating with suppliers on sustainability initiatives strengthens relationships, builds trust, and can deliver long-term financial benefits Negative Implications: - Achieving accurate Scope 3 emissions reporting can be costly, requiring investment in robust data collection and management systems - Engaging suppliers in emissions tracking may require additional resources, training, and capacity-building efforts
	Adaptation/Mitigation Measures: - Provide continuous training to employees on safety procedures and protocols - Develop and maintain robust emergency response plans to effectively manage unforeseen incidents - Establish and strictly enforce comprehensive safety policies across the organization - Conduct regular safety audits to identify and mitigate potential hazards	Positive Implications - Lower accident rates reduce downtime and associated costs from workplace injuries - Improved safety measures can lead to reduced insurance premiums, delivering direct cost savings - Higher employee morale and retention contribute to lower turnover-related expenses Negative Implications - Ineffective implementation of OHS practices may lead to unexpected financial losses, including fines for non-compliance - Ongoing costs are incurred for the maintenance and upkeep of safety equipment and facilities - Employee dissatisfaction may adversely affect productivity levels
—		Positive Implications Focusing on employee well-being enhances productivity and fosters a positive organizational culture. It helps attract and retain top talent while reducing absenteeism-related risks. Although it may involve initial and ongoing costs, the long-term benefits include improved operational efficiency, reduced healthcare expenses, and stronger stakeholder trust.
—		Positive Implications: Ensuring customer satisfaction is essential, as it drives repeat purchases, strengthens customer loyalty, and enhances marketing efficiency. Conversely, neglecting customer satisfaction can lead to increased operational costs due to complaints and product returns. Therefore, maintaining high levels of customer satisfaction remains a top priority.

S. no.	Material issue identified	Indicate whether risk Or opportunity (R/O)	Rationale for identifying the risk/opportunity
8.	 DEI	 	Opportunity: 1. Fostering a culture of innovation and creativity that drives fresh insights and supports product development 2. Enhanced customer engagement and stronger market differentiation Risk: 1. Ineffective DEI initiatives may inadvertently undermine teamwork and collaboration.
9.	 R&D		Opportunity: 1. Research and development, along with innovation, play a crucial role in creating high-quality products and driving innovative solutions, enhancing efficiency, and reducing environmental impact.
10.	 CSR		Opportunity: 1. Participating in Corporate Social Responsibility (CSR) activities strengthens community relationships by demonstrating our commitment to responsible and ethical corporate citizenship.
11.	 Code of Conduct		Opportunity: 1. A well-defined Code of Conduct promotes strong corporate governance and ethical behavior, reduces risks, enhances operational efficiency, and strengthens relationships with stakeholders.
12.	 Regulatory Compliance	 	Opportunity: 1. Adhering to regulatory requirements is essential to meet stringent industry standards related to safety, environment, and quality. Ensuring compliance helps the organization avoid costly fines, penalties, and legal liabilities associated with violations. Risk: 1. Failure to comply with regulations can damage the organization's reputation, erode customer trust, and lead to financial penalties. These consequences can adversely impact revenue and threaten long-term sustainability.

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
	Adaptation/Mitigation Measures: 1. Provide mandatory training for all employees on DEI principles, unconscious bias, and fostering a respectful workplace 2. Establish and clearly communicate comprehensive DEI policies, guidelines, and procedures	Positive Implications : 1. Adopting DEI initiatives brings diverse perspectives that enhance problem-solving and drive product innovation 2. A strong commitment to DEI helps attract and retain a broader talent pool, thereby improving overall workforce quality Negative Implications: 1. Implementing and sustaining DEI programs may require significant resources for training, policy development, and ongoing oversight 2. If poorly executed, DEI initiatives may risk damaging the entity's reputation by appearing insincere or ineffective
-		Positive Implications: 1. Investing in Research and Development (R&D) is essential for the organization, enabling product innovation, enhancing customer satisfaction, improving cost efficiency, and adopting emerging technologies. These efforts position the organization as a forward-thinking and reliable partner for its customers.
-		Positive Implications: 1. Participating in social responsibility initiatives strengthens the organization's connection with the community, fostering collaboration and shared growth. These efforts create a positive impact, build goodwill, and enhance community trust and loyalty.
-		Positive Implications: 1. Implementing and adhering to a robust Code of Conduct enhances the entity's reputation as an ethical and reliable organization, strengthening customer loyalty and brand image. Clear ethical guidelines also help mitigate legal risks and foster a positive workplace culture.
	Mitigation Measures: 1. Conduct continuous compliance monitoring and periodic audits 2. Provide regular employee training and awareness programs 3. Maintain proactive engagement with regulatory authorities 4. Perform routine risk assessments to identify and mitigate potential issues	Positive Implications: 1. Proactive regulatory management reduces the risk of fines, penalties, and legal complications, safeguarding the organization's financial stability 2. Demonstrating strong regulatory compliance builds trust among investors, customers, and regulators, strengthening key relationships 3. Compliance ensures lawful operations, providing a solid foundation for sustainable long-term growth Negative Implications: 1. Failure to comply with regulations can result in fines, lawsuits, and financial penalties 2. Non-compliance may damage the organization's reputation and lead to potential revenue loss

S. no.	Material issue identified	Indicate whether risk Or opportunity (R/O)	Rationale for identifying the risk/opportunity
13.	 Risk & Crisis Management		Opportunity: 1. Strengthening resilience to withstand potential disruptions 2. Proactively anticipating and planning for risks to mitigate threats, positioning the organization as reliable and well-prepared
14.	 Data Security	 	Opportunity: 1. Implementing a robust data security system reduces the risk of cyberattacks, minimizes downtime, and helps maintain productivity. Risk: 1. Keeping up with evolving security standards and continuously monitoring and updating protocols can be challenging and resource-intensive.
15.	 Sustainable Procurement	 	Opportunity: 1. Demonstrating a strong commitment to corporate sustainability goals Risk: 1. Requiring all suppliers to adhere to sustainability standards may increase complexity in supply chain management.
16.	 Stakeholder Management		Opportunity: 1. Building trust and fostering positive relationships with stakeholders 2. Engaging stakeholders in decision-making and addressing their concerns to effectively mitigate risks

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
-		Positive Implications: Robust risk and crisis management strategies help reduce financial losses, enhance organizational resilience, lower insurance premiums, and strengthen investor confidence. Proactive measures such as risk assessments, crisis preparedness, staff training, and clear communication ensure readiness to respond effectively, safeguarding reputation and ensuring business continuity.
	Mitigation Measures: - Conduct regular security audits and continuous monitoring to identify and address vulnerabilities promptly - Implement training programs to ensure employees understand security protocols and can recognize potential threats	Positive Implications: - Strong data security builds customer trust, fostering loyalty and repeat business - A strong reputation for data security enhances the organization's brand credibility - Effective security measures improve operational efficiency and system reliability Negative Implications: - Implementing and maintaining robust data security requires continuous investment in technology and can be resource-intensive.
	Mitigation Measures: - Strengthen partnerships with suppliers to align on sustainability goals and practices - Provide training and support to help suppliers meet required standards - Conduct regular supplier audits to ensure compliance with sustainability criteria - Embed sustainability requirements into contracts and Service Level Agreements (SLAs), clearly defining expectations and consequences for non-compliance	Positive Implications: - Sustainable procurement optimizes resource utilization and reduces waste, enhancing operational efficiency - Adopting sustainable procurement practices can strengthen competitive advantage and support long-term profitability Negative Implications: - Implementing sustainable practices may increase supply chain complexity, requiring greater coordination and management - Addressing these challenges effectively requires strong supplier collaboration, efficient cost management, and investment in technology
—		Positive Implications: Effective stakeholder management is essential for sustaining customer satisfaction, attracting investors, and strengthening community relationships. By prioritizing clear communication, transparency, and responsiveness to stakeholder concerns, the organization can enhance financial performance, mitigate risks, and capitalize on growth opportunities in a competitive market.

10 Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage of such system?

Yes, the Entity has implemented a robust Occupational Health and Safety (OHS) Management System as an integral part of its operations, aimed at fostering a safe, healthy, and environmentally responsible workplace. The system is certified under ISO 45001:2018 and currently covers 97.44% of its plants.

Key measures include Permit-to-Work (PTW) systems, monthly safety performance reviews, SAFE audits, accident investigations, regular medical check-ups, risk assessments, and monitoring of waste and carbon footprint. Specialized procedures are in place for equipment testing, contractor safety, fire equipment maintenance, and induction programs for new joiners.

Comprehensive emergency response plans address scenarios such as fire, explosions, accidents, hazardous spills, pollution control failures, food poisoning, and natural calamities. Regular training sessions and mock drills are conducted to enhance preparedness. The Entity remains committed to continuous improvement, regulatory compliance, waste reduction, and innovation to prevent pollution, injuries, and occupational illnesses.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Entity adopts a comprehensive approach to identifying work-related hazards and assessing risks for both routine and non-routine activities, in accordance with established Standard Operating Procedures (SOPs).

1. Hazard Identification and Risk Assessment (HIRA):

HIRA is conducted and periodically reviewed to systematically evaluate the work environment and operational tasks. It identifies potential hazards that may impact employees, visitors, or the surrounding ecosystem. Each risk is assessed based on its likelihood and potential impact, and appropriate control measures are implemented to mitigate identified risks.

2. Health and Safety Inspections:

Regular inspections and audits are carried out to assess the effectiveness of the Entity's environmental, health, and safety (EHS) policies and practices. These reviews help identify areas for improvement, ensure compliance with regulatory requirements, and support the implementation of corrective action plans.

For routine activities, the Entity utilizes a comprehensive 188-point Safety Audit Checklist covering various operational aspects. For non-routine activities, such as work at heights or excavation, a Permit-to-Work (PTW) system, along with additional hazard identification measures, is employed to ensure safe execution.

Furthermore, employees actively contribute to hazard identification by reporting risks during meetings and submitting suggestions. This participatory approach enhances the effectiveness of the Occupational Health and Safety Management System.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N)

Yes, the Entity has established procedures that enable workers to report work-related hazards and exercise their right to withdraw from situations they believe pose a risk to their health or safety, without fear of reprisal.

d. Do the employees/worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, the Entity provides employees and workers with access to non-occupational medical and healthcare services.

PRINCIPLE

Businesses should respect the interests of and be responsive to all its stakeholders

ESSENTIAL INDICATORS

1 Describe the processes for identifying key stakeholder groups of the entity.

The Entity places strong emphasis on building transparent and enduring relationships with its stakeholders, particularly investors, by understanding their expectations and aligning business objectives accordingly. Delivering value to customers is a core element of the Entity's corporate philosophy, with a strong focus on customer satisfaction. Employees are regarded as key enablers of value creation, and the Entity is committed to providing meaningful opportunities for their growth and development. Suppliers are recognized as critical partners in delivering business outcomes, while community engagement remains central to the Entity's approach to inclusive and sustainable development.

Stakeholder groups are identified through structured internal management discussions, following the process outlined below:

- Engaging with the Legal and Secretarial Department, along with senior management, to determine key stakeholder categories
- Identifying stakeholders based on their level of influence on the Entity and the extent to which they are impacted by the Entity's decisions and operations
- Key stakeholder groups include customers, suppliers, employees/workers, business partners, the Board of Directors, promoters, regulatory and government bodies, financial institutions (e.g., banks and NBFCs), industry associations (e.g., ACMA, SIAM), CSR partners, and investors

2 List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of Communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of engagement (Annually/Half yearly/Quarterly/ others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

LEADERSHIP INDICATORS

1 Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Stakeholder consultations within the Entity are managed by designated personnel, business leaders, and key process heads. Feedback and concerns raised by stakeholders are systematically escalated to the Board of Directors through appropriate Board Committees, including the Audit Committee, Nomination and Remuneration Committee, CSR Committee, Risk Management Committee, and the Stakeholders Relationship Committee.

The Entity maintains regular and proactive communication with its key stakeholders through scheduled conference calls and other engagement channels. These interactions provide transparent updates on business plans and performance, fostering mutual growth and alignment. This collaborative approach strengthens long-term relationships and encourages continuous stakeholder engagement.

2 Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes/No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, stakeholder consultations were undertaken to support the identification and management of key environmental and social topics. The process for engaging the Board on economic, environmental, and social matters includes the following steps:

- Developing a comprehensive list of potential stakeholders and relevant ESG issues specific to the Entity and the broader automobile industry, in collaboration with various departments
- Conducting discussions with stakeholders and senior management to gather insights and feedback on these issues
- Integrating the feedback into the Entity's policies, strategies, and operational activities to ensure responsiveness to stakeholder concerns and alignment with sustainability priorities

3 Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalized stakeholder groups.

As part of its Life Skills Project, the Entity is committed to promoting foundational learning through STEM (Science, Technology, English, and Mathematics) education among primary school students. The initiative provides experiential, hands-on learning opportunities aimed at strengthening conceptual understanding and fostering curiosity-driven learning.

In addition, recognizing the growing health challenge of Type 1 diabetes among children in India—affecting an estimated 95,600 children under the age of 14, with approximately 15,900 new cases reported annually—the Entity has extended its support to address this issue. Given the high cost of treatment and limited awareness, particularly in underprivileged communities, the Entity facilitates access to essential treatment, care, and awareness programs for children living with juvenile diabetes, with the objective of improving health outcomes and enhancing their long-term quality of life.

To effectively address the needs of vulnerable and marginalized stakeholder groups, the Entity initiates its CSR interventions by identifying target areas and conducting detailed assessments through surveys, site visits, and evaluations. A comprehensive needs assessment is undertaken to identify beneficiary groups that would derive the greatest impact from CSR initiatives.

Subsequently, the Entity collaborates closely with local communities to co-create and implement CSR programs aligned with identified needs and aspirations. Tailored on-ground mobilization strategies are employed to ensure meaningful stakeholder engagement and active participation. This inclusive and participatory approach ensures that the Entity's CSR initiatives are impactful, sustainable, and contribute to the empowerment of vulnerable communities.

4 Do you have a focal point (Individual/Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Entity has a well-defined Human Rights Policy in place, which enables employees to report complaints or grievances directly to the Human Resources department or senior management. The Corporate HR Head is responsible for overseeing the management of human rights-related matters concerning the Entity's employees and workers, while department heads are accountable for addressing such issues within their respective functions. Additionally, senior management regularly reviews and updates the Human Rights Policy at the organizational level to ensure its continued relevance and effectiveness.

5 Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Entity is committed to upholding and promoting human rights through fair, ethical, and responsible business practices. Respect for human rights is a fundamental value embedded in the Entity's culture and operations.

To support this commitment, the Entity has established robust internal grievance redressal mechanisms, including:

- Prevention of Sexual Harassment (POSH) Policy
- Grievance Redressal Policy
- Vigil Mechanism/Whistle-blower Policy
- A dedicated employee mobile application for grievance registration

Employees and workers can report human rights concerns through multiple channels, including in-person submissions to location in-charges or the HR department, as well as via email. Each grievance is formally acknowledged and assigned a unique ID for tracking purposes.

The grievance resolution process involves initial review, categorization, and assignment to appropriate personnel for thorough investigation. Complainants are kept informed through regular updates, and upon resolution, detailed reports are documented and communicated, ensuring transparency and timely closure.

While no human rights-related grievances have been reported to date, the Entity remains committed to addressing any such concerns promptly and effectively.

8 Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Entity is firmly committed to its core values, which strictly prohibit any form of retaliation. Employees who report suspected violations of laws or Entity policies are protected from any adverse consequences. Retaliation against individuals who raise concerns in good faith or participate in investigations is expressly prohibited.

The Entity upholds the principles of confidentiality, sensitivity, non-retaliation, and impartiality across its Grievance Redressal, Whistle-blower, and POSH Policies. All reports and related information are treated with strict confidentiality and are accessible only to authorized personnel.

Concerns are addressed promptly and with due sensitivity through thorough and impartial investigations. The process ensures that all parties involved have an equal opportunity to present relevant facts and evidence, reinforcing the Entity's commitment to fairness and accountability.

9 Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, the Entity is committed to integrating fundamental human rights into all its business agreements and contracts, both in principle and in practice. A significant number of these agreements explicitly incorporate provisions to safeguard human rights.

Furthermore, the Entity follows a structured process to periodically review and update these agreements, ensuring continued compliance and reinforcing its commitment to embedding human rights across its operations.

10 Assessments for the year:

% of your plants and offices that were assessed (by entity or statutory authorities or third parties)

11 Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.

In line with the Entity's corporate governance practices, any significant risks or concerns identified through assessments are promptly addressed by the relevant Committees, comprising both internal and external stakeholders. During FY 2025-26, the assessments referenced in Question 10 did not identify any material risks or concerns. However, the Entity remains fully committed to taking timely and effective corrective actions should any such issues arise in the future.

LEADERSHIP INDICATORS

1 Details of a business process being modified/introduced as a result of addressing human rights grievances/complaints.

During the year, no significant human rights-related grievances were reported. As part of its standard operating procedures, the Entity continues to uphold and reinforce human rights principles across its operations through the Code of Conduct and other relevant policies. Regular training sessions are conducted to enhance awareness among employees and workers, and policies are periodically reviewed and updated to address emerging risks and incorporate stakeholder feedback.

2 Details of the scope and coverage of any Human rights due-diligence conducted.

The Entity consistently undertakes initiatives throughout the year to integrate human rights principles into its business culture across all levels of the organization.

3 Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016

Yes, the Entity's premises and offices are generally accessible to differently abled visitors. However, accessibility may be limited in certain locations and manufacturing facilities due to safety requirements and the specific structural design of those areas.

Persistent organic pollutants (POP)	-	0	0
Volatile organic compounds (VOC)	-	0	0
Hazardous air pollutants (HAP)	-	0	0
Others – please specify	-	0	0

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No.

*Only DG sets are considered for Stack emission calculations

7 Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	2,186.45	2,089.29*
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	35,914.16	31,406.87
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted (Metric tonnes of CO₂ equivalent/Lakh ₹)	Metric tonnes of CO ₂ equivalent/Lakh	0.07	0.09
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions (Metric tonnes of CO ₂ equivalent)/Revenue from operations adjusted for PPP(Lakh USD))	Metric tonnes of CO ₂ equivalent/Lakh	1.59	1.90*

Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	-	-	-

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No.

*Note: The data for financial year 2024–25 has been restated to enhance accuracy and clarity in reporting, in accordance with the guidelines outlined in Point 5 annexure 17 of SEBI's circular dated November 11, 2024.

8 Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, the entity has undertaken several energy-saving initiatives to improve operational efficiency and reduce greenhouse gas (GHG) emissions. Key initiatives include:

- Optimized Pneumatic Door Systems
 - Reduced the cylinder size of pneumatic doors to optimize compressed air consumption during operations.
 - Lowered energy demand associated with compressed air generation and distribution systems.
 - Improved overall energy efficiency and reduced indirect greenhouse gas emissions.

2. Installed Motion Sensor-Based Lighting in Washrooms
 - Replaced manually operated lighting systems with occupancy-based motion sensors.
 - Eliminated unnecessary electricity consumption caused by lights remaining switched on when areas were unoccupied.
 - Enhanced energy conservation and reduced emissions associated with purchased electricity.
3. Replaced Conventional Fans with Energy-Efficient BLDC Fans
 - Upgraded conventional shop-floor fans to high-efficiency BLDC technology.
 - Reduced electricity consumption while maintaining required ventilation and thermal comfort.
 - Improved energy performance and contributed to lower operational carbon emissions.
4. Removed Unused Cylinders from Fabrication Lines
 - Identified and removed cylinders that were no longer required in production processes.
 - Reduced unnecessary compressed air demand and associated energy consumption.
 - Improved resource utilization and generated cost savings through reduced maintenance requirements.
5. Implemented LDR-Based Smart Lighting Systems
 - Installed LDR (Light Dependent Resistor) based controls for automatic street-light operation.
 - Prevented daylight burning of lights by ensuring operation only during low-light conditions.
 - Reduced electricity wastage and contributed to lowering the facility's carbon footprint.
6. Installed Sensor-Operated Lighting Controls Across Facilities
 - Deployed sensor-based lighting systems in operational and common areas.
 - Ensured lights are activated only when occupancy or activity is detected.
 - Reduced power consumption and improved overall energy efficiency across facilities.
7. Utilized Rooftop Solar Power Systems
 - Installed rooftop solar photovoltaic systems with net-metering arrangements.
 - Generated renewable electricity for captive consumption and reduced dependence on conventional grid power.
 - Contributed to reduction of Scope 2 greenhouse gas emissions and promotion of clean energy use.
8. Introduced Automated Lighting Management Systems
 - Implemented automated lighting controls in occupied and unoccupied areas.
 - Optimized lighting operations by minimizing unnecessary usage and energy losses.
 - Improved energy conservation and supported greenhouse gas emission reduction objectives.

9 Provide details related to waste management by the entity, in the following format:

***Note:** The data for financial year 2024–25 has been restated to enhance accuracy and clarity in reporting, in accordance with the guidelines outlined in Point 5 annexure 17 of SEBI's circular dated November 11, 2024.

10 Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Entity recognizes the critical importance of effective waste management and its impact on the organization, surrounding communities, and the environment. Its waste management strategy focuses on minimizing waste generation, enhancing recycling and recovery, and reducing overall waste disposal.

To ensure responsible waste handling across all facilities, the Entity has implemented practices such as source-segregated waste collection, reuse and recycling initiatives, and the safe disposal of hazardous waste through authorized agencies. Committed to the principles of Reduce, Reuse, and Recycle (3R), the Entity continuously seeks to strengthen its waste management processes in alignment with its broader environmental, social, and governance (ESG) objectives.

- 11 If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:**

Location of operations/offices

Type of operations

Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any

The Entity does not operate in or around ecologically sensitive areas that require environmental approvals or clearances.

- 12 Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link
-----------------------------------	----------------------	------	---	--	-------------------

The Entity did not undertake any projects requiring Environmental Impact Assessment (EIA) during FY 2024–25.

- 13 Is the entity compliant with the applicable environmental law/regulations/guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:**

Yes

Specify the law/ regulation/ guidelines which was not complied with	Provide details of the non-compliance	Any fines/penalties/ action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
---	---------------------------------------	--	---------------------------------

Yes, the Entity complies with all applicable environmental laws, regulations, and guidelines in India, including the Water (Prevention and Control of Pollution) Act, the Air (Prevention and Control of Pollution) Act, and the Environment (Protection) Act, along with the rules framed thereunder.

LEADERSHIP INDICATORS

- 1 Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):**

For each facility/plant located in areas of water stress, provide the following information:

- Name of the area: Bengaluru, Manesar, Gurugram, Kuruli, Jamalpur, Bhiwadi
- Nature of operations: Corporate office and automotive plastic parts manufacturing

c. Water withdrawal, consumption and discharge in the following format:

3 With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

The Entity does not operate in ecologically sensitive areas; therefore, no significant direct or indirect impacts on biodiversity have been identified.

4 If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of Initiative
1	Pneumatic Door Energy Optimization	Reduced cylinder size of pneumatic doors to optimize compressed air consumption and lower energy usage in operations.	Reduced energy consumption, improved operational efficiency, and lowered indirect GHG emissions.
2	Motion Sensor-Based Lighting	Installed motion sensors in washrooms and other areas to automatically switch lights on/off based on occupancy.	Reduced unnecessary electricity consumption, resulting in lower energy costs and reduced carbon footprint.
3	BLDC Fan Conversion	Replaced conventional fans with energy-efficient BLDC fans across shop-floor areas.	Significant reduction in electricity consumption and improved energy efficiency.
4	LDR Smart Lighting System	Implemented LDR-based automated street lighting to prevent daylight operation of lights.	Saved approximately 600 burn-hours annually, reducing power consumption and associated GHG emissions.
5	Rooftop Solar Power Utilization	Installed and utilized rooftop solar power systems with net-metering arrangements to generate renewable electricity.	Reduced dependence on grid electricity and lowered Scope 2 greenhouse gas emissions.
6	RO Reject Water Reuse System	Installed a collection tank and pumping system to divert RO reject water for reuse in air washer units instead of disposal.	Achieved 100% reuse of reject water, saving approximately 3,650 KL of freshwater annually and supporting water conservation goals.
7	STP Treated Water Reuse	Utilized treated sewage water for gardening and other non-potable applications.	Reduced freshwater consumption and improved water resource efficiency.
8	Sensor-Based Water Taps	Installed sensor-operated taps to prevent excessive water use and eliminate wastage from manually operated taps.	Reduced water consumption by up to 40% and improved water efficiency.
9	Reduction in Packaging Waste	Replaced polybags and corrugated boxes with reusable dedicated bins for material movement and storage.	Reduced packaging waste generation and promoted circular use of resources.
10	Reduction of Hazardous Waste Sludge	Modified paint-shop processes to separate flashing waste thinner from paint sludge streams.	Reduced hazardous waste generation by approximately 8.07% (16.78 MT reduction).
11	Excess Tap Removal and Leak Prevention	Removed excess and leaking taps from facility areas and permanently closed unused water points.	Reduced water wastage, eliminated leakage points, and lowered maintenance requirements.

5 Does the entity have a business continuity and disaster management plan? Give details in 100 words/web link.

Yes, the Entity has established a comprehensive Disaster Management and Emergency Response Plan, implemented plant-wise across all locations. The plan is designed to identify potential risks, establish a dedicated Emergency Response Team (ERT), and define procedures to minimize personal injury and property damage across various emergency scenarios.

Key components include:

1. Identification of potential disasters specific to each Business Impact Area (BIA)
2. Formation and training of an Emergency Response Team to effectively manage emergency situations
3. Development and periodic updating of a detailed Emergency/Disaster Response Plan, accessible to employees through the Employee App
4. Conducting biannual mock drills to ensure preparedness and effective response
5. Routine audits to monitor the effectiveness of the Emergency Response Plan, including verification of roles and responsibilities, adherence to safety practices, and assessment of resource availability and equipment condition

The Emergency Response Plan covers a wide range of scenarios, including:

- Fire and explosions
- Accidents
- Spillage and leakage of hazardous substances
- Failure of pollution control equipment and compressed air lines
- Food poisoning
- Natural calamities such as earthquakes and floods
- Sewage outflow emergencies
- Medical emergencies, including fatalities
- Civil unrest
- Snake bites
- Gas leaks

Through these measures, the Entity demonstrates a strong commitment to disaster preparedness, employee safety, and business continuity.

6 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Entity did not identify any significant environmental impacts arising from its suppliers. It remains committed to environmental stewardship across the value chain, requiring suppliers to adhere to high environmental standards and encouraging them to extend these principles within their own supply chains.

7 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

21.19%

Note: Value chain partners having ISO 14001 have been included in Assessment

8 How many Green Credits have been generated or procured:

FY 2025-26 (Current Financial Year)

By the listed entity

By the top ten (in terms of value of purchases and sales, respectively) value chain partners

During the reporting period, the Entity has neither generated nor procured any Green Credits. While it remains committed to advancing its environmental sustainability initiatives, it has not yet engaged in formal Green Credit mechanisms.

7

PRINCIPLE

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

ESSENTIAL INDICATORS

- 1 a. Number of affiliations with trade and industry chambers/associations.
2
- b. List the top 10 trade and industry chambers/associations (determined based on the total members of such body) the entity is a member of/affiliated to

Name of the trade and industry

- 2 Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

Name of authority	Brief of the case	Corrective action taken
During the reporting period, the Entity did not receive any notices from regulatory authorities related to anti-competitive practices, antitrust issues, or conflicts of interest. Accordingly, no corrective actions were required.		

LEADERSHIP INDICATORS

- 1 Details of public policy positions advocated by the entity:

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/Half yearly/Quarterly/Others – please specify)	Web Link, if available
--------	-------------------------	-----------------------------------	--	---	------------------------

The Entity, either directly or through industry bodies and associations, submits various suggestions and recommendations pertaining to the industry in general and its specific activities.

8
PRINCIPLE
Businesses should promote inclusive growth and equitable development
ESSENTIAL INDICATORS
1 Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link
Not Applicable	Not Applicable	Not Applicable	-	-	-

2 Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
--------	--	-------	----------	---	--------------------------	---------------------------------------

The Entity did not undertake any projects requiring Rehabilitation and Resettlement (R&R) activities during the current financial year.

3 Describe the mechanisms to receive and redress grievances of the community.

The Entity actively undertakes CSR initiatives to support communities around its plant locations and follows an Open Door Policy, enabling direct engagement with plant management. It also proactively engages with communities, including vulnerable groups, to understand and address their concerns.

Employees can raise grievances during communication meetings or via email, while workers may submit written complaints to works committee members. Grievances are addressed through established mechanisms, including the Whistle-blower and POSH Policies, under the oversight of designated internal committees.

4 Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Directly sourced from MSMEs/small producers	35.16%	46.65%
Directly from within India	93.71%	94.05%

5 Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost

Location	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)*
Rural	29.53%	46.46%
Semi-urban	33.91%	0.99%
Urban	36.56%	52.55%
Metropolitan	0.00%	0.00%

(Place to be categorized as per RBI Classification System - rural/semi-urban/urban/metropolitan)

LEADERSHIP INDICATORS

- 1 Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):**

Details of negative social impact identified	Corrective action taken
No Social Impact Assessment was conducted in the current financial year.	

- 2 Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:**

S. No.	State	Aspirational District	Amount spent (In ₹)
1	Haryana	Nuh, Mewat	24,75,034
2	Uttarakhand	Udham Singh Nagar	15,57,500

- 3 (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/vulnerable groups? (Yes/No)**

No, in accordance with the Entity's policy, discrimination is not practiced in supplier selection, ensuring equal opportunity for all potential suppliers. The Entity encourages engagement with local suppliers or those in proximity to its facilities; however, it has not specifically incorporated marginalized or vulnerable groups into its supplier qualification criteria.

- (b) From which marginalized/vulnerable groups do you procure?**

-

- (c) What percentage of total procurement (by value) does it constitute?**

-

- 4 Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:**

S. No.	Intellectual Property based on traditional knowledge	Owned/Acquired (Yes/No)	Benefit shared (Yes/No)	Basis of calculating benefit share
--------	--	-------------------------	-------------------------	------------------------------------

The Entity does not own or have acquired any such intellectual properties.

- 5 Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.**

Name of authority	Brief of the Case	Corrective action taken
-------------------	-------------------	-------------------------

During FY 2025-26, there were no disputes related to intellectual property or traditional knowledge, hence corrective actions were not undertaken.

- 6 Details of beneficiaries of CSR Projects:**

S. No.	CSR Project	No. of persons benefited from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
1	"Sunehra Kal" - Life Skill	6,018	95%
2	Career Counselling	5,444	95%
3	"Usha Ki kiran" Scholarship	426	100%
4	Cancer Awareness and Screening Camps	326	100%

S. No.	CSR Project	No. of persons benefited from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
5	Eye Screening and Free cataract Surgeries	4,978	100%
6	Juvenile Diabetes	27	100%
7	Sanitary Napkin Manufacturing unit	2,333	100%
8	Life Skill and STEAM Education	360	100%
9	Education & Mainstreaming of Underprivileged students into formal education	70	100%
10	Mobile Health Van	11,482	100%
11	Saksham Safalta - Skill Development	53	100%

PRINCIPLE

Businesses should engage with and provide value to their consumers in a responsible manner

ESSENTIAL INDICATORS

1 Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Entity values customer feedback and is committed to addressing complaints promptly and effectively. It provides multiple channels for submitting complaints or feedback, managing consumer issues across 28 facilities through customer portals, email, or both.

Each facility follows a structured process: complaints and feedback are received via portals or email; a temporary countermeasure is communicated to the customer within 24 hours; resolution involves root cause analysis and the application of quality tools; and a permanent countermeasure is implemented within one week and shared with the customer.

2 Turnover of products and/services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	Not applicable, as the Entity operates in a B2B model and its products do not directly reach end customers.
Safe and responsible usage	
Recycling and/or safe disposal	

3 Number of consumer complaints in respect of the following:

	FY 2025-26 (Current Financial Year)		Remarks	FY 2024-25 (Previous Financial Year)		Remarks
	Received during the year	Pending resolution at end of year		Received during the year	Pending resolution at end of year

Unfair Trade Practices	0	0		0	0	-
Other(from OEM)	152	0	All issues were resolved	116	0	All issues were resolved

4 Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls	Nil	-
Forced recalls	Nil	-

5 Does the entity have a framework/policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes, the Entity has a defined policy and framework to manage cybersecurity and data privacy risks, which is available internally within the organization.

6 Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/action taken by regulatory authorities on safety of products/services.

The Entity remained compliant with all applicable requirements pertaining to advertising, customer service, cybersecurity, data privacy, product quality, and product/service safety throughout the reporting period. No material complaints, cybersecurity incidents, data privacy breaches, product recalls, regulatory actions, or penalties were reported in these areas. Accordingly, no corrective actions were required or undertaken during the year. The Entity continues to maintain robust internal controls, compliance mechanisms, and monitoring processes to ensure adherence to relevant regulatory and operational standards.

7 Provide the following information relating to data breaches:

a. Number of instances of data breaches

Nil

b. Percentage of data breaches involving personally identifiable information of customers

Nil

c. Impact, if any, of the data breaches

There has been no such instances of data breaches

LEADERSHIP INDICATORS

1 Channels/platforms where information on products and services of the entity can be accessed (provide web link, if available).

<https://www.lumaxworld.in/lumaxautotech/index.html>

2 Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

As the Entity supplies its products directly to automotive OEMs, which are responsible for assembling, marketing, and selling the final products to end consumers, the responsibility for educating end-users on the safe and responsible use of the products primarily rests with the OEMs. Accordingly, this aspect is considered not applicable to the Entity. Nevertheless, wherever applicable, IAC ensures that products supplied to OEMs are appropriately engraved, labeled, printed, or barcoded with relevant product information and identification markings to support traceability, regulatory compliance, and adherence to industry standards.

3 Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

Not applicable, as the Entity does not provide essential services.

4 Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable)

If yes, provide details in brief.

Yes, as the Entity supplies products to OEMs, it provides and displays product information in accordance with customer requirements, wherever applicable.

Did your entity carry out any survey with regard to consumer satisfaction relating to the major products/services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Recognizing the importance of customer satisfaction, the Entity actively seeks feedback through multiple channels. This feedback, whether direct or indirect, helps identify grievances, enabling the design and implementation of appropriate corrective actions. Additionally, the management team regularly reviews and monitors customer satisfaction trends to drive continuous improvement.

FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of Lumax Auto Technologies Limited

Report on the Audit of the Standalone Financial Statements

OPINION

1. We have audited the accompanying Standalone Financial Statements of Lumax Auto Technologies Limited ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2026, and the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics

issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTER

4. We draw attention to:
 - a. Note 55(I) to the Standalone Financial Statements regarding the Scheme of Amalgamation (the "Scheme 1") of Lumax Ancillary Limited, wholly owned subsidiary, (the "Transferor Company 1") with the Company, which has been approved by the National Company Law Tribunal ("NCLT"), New Delhi branch vide its order dated March 11, 2026; and
 - b. Note 55(II) to the Standalone Financial Statements regarding the Scheme of Amalgamation (the "Scheme 2") of IAC International Automotive India Private Limited, wholly owned subsidiary, (the "Transferor Company 2") with the Company, which has been approved by the NCLT, New Delhi branch vide its order dated May 8, 2026.

The Company has accounted for these amalgamations in accordance with Appendix C "Business combinations of entities under common control" of Ind AS 103 "Business Combinations" as specified in the respective schemes approved by NCLT and, accordingly, the comparative financial information for the prior year ended March 31, 2025, have been restated from the beginning of the prior year.

Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT (Contd.)

KEY AUDIT MATTERS

5. Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Revenue recognition and liabilities related to price variation (Refer note 29, 44(g) and 50 to the Standalone Financial Statements) Revenue is measured by the Company at the transaction price, i.e., amount of consideration received/ receivable in exchange for transferring promised goods or services to the customers. In determining the transaction price for the sale of products, the Company considers the effects of variable consideration including price adjustment to be passed on to the customers based on parameters like negotiation based on savings on material and other factors. The Company's business requires passing on these credits to the customers once negotiations are concluded with the customers. The estimated liabilities are determined based on negotiations/ other business considerations at the year end, and the consequential impact on revenue is disclosed in note 50 to the Standalone Financial Statements. We considered this to be a key audit matter as significant management judgement is involved in estimation of the price adjustments.	Our audit procedures included the following: • Obtained an understanding and evaluated the design and tested the operating effectiveness of the Company's controls relating to price adjustments in revenue process. • Assessed the Company's accounting policy for revenue recognition including the policy for recording price adjustments in accordance with the requirement of Ind AS 115 'Revenue from Contracts with Customers'. • Evaluated management's methodology and assumptions used for computing the price adjustment based on the negotiations with the customers which is used in the estimation of price adjustments as per the agreements with the customers. • Assessed the reliability of underlying historical data, developments during the year and assumptions used for determination of price adjustments. • Tested the completeness, arithmetical accuracy and validity of the data used in computation of price adjustments as per customer contracts. • Performed substantive testing by selecting a sample of price adjustments recorded during the year as well as year-end price adjustments, and verified the parameters used in the computation with the underlying supporting documents. • Verified the adequacy of disclosures made in the Standalone Financial Statements.
Assessment of carrying value of investments in Subsidiaries (Refer note 8 and 49 to the Standalone Financial Statements) The accumulated losses at the year end in three subsidiaries of the Company has resulted in the net worth of those subsidiaries being lower than the respective carrying amount of the investment in the Company's books. This is an indication of potential impairment of carrying value of the investments. The carrying value of investment in such subsidiaries aggregates to 3,979.60 (including investment in Optionally Convertible Redeemable Debentures).	Our audit procedures included the following: • Obtained an understanding and evaluated the design and tested the operating effectiveness of the Company's controls over valuation of investments. • Assessed the determination of cash generating unit (CGU) in line with the requirements of Ind AS 36 'Impairment of Assets' considering the nature of business operations of the subsidiaries. • Involved auditor's expert and evaluated the key assumptions underlying the cash flow projections including growth rate and discount rate used in the discounted cash flow model.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
The Company assesses the carrying value of the investments by taking into account future business plans which are based on various assumptions including revenue growth rate and discount rate. Based on the Company's assessment, no impairment loss provision was required in respect to the carrying value of its investments in subsidiaries as at March 31, 2026. We considered this as a key audit matter due to significant management judgement involved in assessing the appropriateness of the valuation model, estimation of future cash flows as well as assumptions like discount rate, terminal growth rate, etc. used in the valuation model.	- Performed sensitivity analysis on the projections by varying key assumptions, within reasonably foreseeable range. - Compared the carrying value of the net assets of the subsidiaries with the estimated cash flows determined by the management for each entity. - Evaluated the appropriateness of the Company's accounting policies in respect of impairment assessment of investments. - Assessed the historical accuracy of the management's forecasted business plans by comparing the forecasts used in the prior year with the actual performance in the current year. - Verified the adequacy of the disclosures made in the Standalone Financial Statements.

OTHER INFORMATION

6. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Standalone Financial Statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

7. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with

the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the Standalone Financial Statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

10. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether

INDEPENDENT AUDITOR'S REPORT (Contd.)

due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

11. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to

the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

15. The financial information contained in the audited financial statements of IAC International Automotive India Private Limited (the Transferor Company 2 in the Scheme referred to in Note 55(II) to the Standalone Financial Statements) for the financial year ended March 31, 2025 included in the restated comparative financial statements of the Company for the prior year ended March 31, 2025, were audited by other auditors under the Act, whose audit report has been furnished to us by the Company's Management. We have audited the adjustments made by the Management to the prior year figures to arrive at the restated comparative financial information for the prior year ended March 31, 2025. Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT (Contd.)

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

16. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
 - (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 17(b) above and paragraph 17(h)(vi) below.
 - (g) With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of

our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements – Refer Note Note 41(b) to the Standalone Financial Statements.
- ii. The Company was not required to recognise a provision as at March 31, 2026 under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any long term derivative contracts as at March 31, 2026.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year.
- iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 53(v) to the Standalone Financial Statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 53(vi) to the Standalone Financial Statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend

- or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The final dividend paid by the Company during the year in respect of the prior year ended March 31, 2025 is in accordance with Section 123 of the Act to the extent it applies to payment of dividend. Further, as stated in Note 20.2 to the Standalone Financial Statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.
- vi. Based on our examination, which included test checks, the Company has used multiple accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software, except for the following:
- (i) in respect of the core accounting software, the audit log at the application level is not maintained in case of modification by certain users with specific access and the audit trail feature was not enabled at the database level to log any direct data changes;
 - (ii) with respect to one accounting software of a third party service provider used for the entire audit period for maintaining certain records, audit log of modification does not contain the pre-modified values at database level; and
 - (iii) with respect to another accounting software of a third party service provider used for the entire audit period for maintaining certain records, in the absence any information pertaining to audit trail in the independent service auditor's report, we are unable to comment on the audit trail (edit log) feature in that accounting software.
- During the course of performing our procedures, other than the aforesaid instances of audit trail not maintained where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company in respect of the software described in (i) and (ii) above, excluding point (iii), as per the statutory requirements for record retention.
18. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 17(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the Standalone Financial Statements as of and for the year ended March 31, 2026

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. We have audited the internal financial controls with reference to financial statements of Lumax Auto Technologies Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal

financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

- i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment (including Right-of-Use Assets).
- (B) The Company is maintaining proper records showing full particulars of Intangible Assets.
- (b) The Property, Plant and Equipment of the Company are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 3(c) to the Standalone Financial Statements, are held in the name of the Company, except for the following:

- (d) The Company has not revalued its Property, Plant and Equipment (including Right-of-Use assets) and Intangible Assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right-of-Use assets) or Intangible Assets does not arise.
- (e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the Standalone Financial Statements, does not arise.
- ii. (a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

Note 1 – Returns were filed as per the provisional Standalone Financial Statements. Also, refer Note 21 to the Standalone Financial Statements.

- iii. (a) The Company made investments in twenty-eight companies, mutual funds and alternative investment funds and granted unsecured loans to two companies and interest free loan to employees. The Company did not have any joint ventures or associate companies during the year. The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans subsidiaries and to parties other than joint ventures and associates are as per the table given below:

	Loans (₹ in lakhs)
Aggregate amount granted/ provided during the year	
- Subsidiaries	630.00
- Others	195.44
Balance outstanding as at balance sheet date in respect of the above cases	
- Subsidiaries	630.00
- Others	152.98

Also, refer Note 10 and 11 to the Standalone Financial Statements.

The Company has not made any other investments, granted any secured/unsecured loans or advances in nature of loans to companies, firms, limited liability partnerships ('LLP') or any other parties or stood guarantee or provided any security to companies, firms or LLP's or any other parties.

- (b) In respect of the aforesaid investments and loans, the terms and conditions under which such loans were granted and investments were made are not prejudicial to the Company's interest.
- (c) In respect of the loans provided to companies, the schedule of repayment of principal and payment of interest has been stipulated, and the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest. Further, the Company has granted interest-free loans to its employees and, accordingly, the question of our commenting on regularity of payment of interest does not arise. However, in respect of such loans where the schedule of repayment of principal has been stipulated, the employees are repaying the principal amounts as stipulated.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2026 (Contd.)

- (d) In respect of the loans, there is no amount which is overdue for more than ninety days.
- (e) There were no loans which have fallen due during the year and were renewed/extended. Further, no fresh loans were granted to same parties to settle the existing overdue loans.
- (f) The loans granted during the year, including to promoters/related parties, had stipulated the scheduled repayment of principal and payment of interest and the same were not repayable on demand.
- iv. In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made and guarantees and security provided by it.
- v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products and services. We have broadly reviewed the books of account maintained by the Company pursuant to the said requirement, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) In our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of employees' state insurance, income tax, provident fund and goods and service tax, though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including duty of customs, cess and other statutory dues, as applicable, with the appropriate authorities. However, there are no arrears of statutory dues outstanding as at March 31, 2026, for a period of more than six months from the date they became payable.
- (b) There are no statutory dues of employees' state insurance, duty of customs, cess, provident fund which have not been deposited on account of any dispute. The particulars of other statutory dues referred to in sub-clause (a) as at March 31, 2026 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount (₹ in lakhs)	Paid under protest (₹ in lakhs)	Period to which the amount relates	Forum where the dispute is pending

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

ix (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion, the term loans have been applied for the purposes for which they were obtained. Refer note 53(xi) to the Standalone Financial Statements.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the Standalone Financial Statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) On an overall examination of the Standalone Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. The Company did not have any joint ventures or associate companies during the year.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries. The Company did not have any joint ventures or associate companies during the year.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2026 (Contd.)

- the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Further, no such report has been filed by any other auditor appointed by the Company under the Act. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.
- (c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of related party transactions have been disclosed in the Standalone Financial Statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act.
- xiv. (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) The reports of the Internal Auditor for the period under audit have been considered by us.
- xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the directors. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.
- xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.
- (b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.
- (c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.
- (d) In our opinion, the Group as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 does not have any CICs, which are part of the Group. Accordingly, the reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.
- xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors during the year and, accordingly, the reporting under clause 3(xviii) of the Order is not applicable.
- xix. On the basis of the financial ratios (Refer note 52 to the Standalone Financial Statements), ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due. The Annual report is expected to be made available to us after the date of our report (refer paragraph 6 of the Independent Auditor's Report on other information).
- xx. (a) The Company has transferred the amount of Corporate Social Responsibility remaining unspent under sub-section (5) of Section 135 of the Act in respect of "other than ongoing projects" to a Fund specified in Schedule VII to the Act within a period

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2026 (Contd.)

of six months of the expiry of the financial year in compliance with second proviso to sub-section (5) of Section 135 of the Act. (Also, refer Note 25 to the Standalone Financial Statements).

- (b) The Company does not have any amount remaining unspent under sub-section (5) of Section 135 of the Act as at balance sheet date in respect of "ongoing projects" of Corporate Social Responsibility. Accordingly, reporting under clause 3(xx)(b) of the Order is not applicable to the Company.

- xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

1. CORPORATE INFORMATION

Lumax Auto Technologies Limited ("the Company") is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its share are listed on two recognized stock exchanges in India. The registered office of the Company is located at 2nd Floor, Harbans Bhawan-II, Commercial Complex, Nangal Raya, New Delhi-110046. The Company's principal business activity constitutes manufacturing of automotive components.

During the year, pursuant to scheme of amalgamation of Lumax Ancillary Limited ("Transferor Company 1") and IAC International Automotive India Private Limited ("Transferor Company 2") for merger into Lumax Auto Technologies Limited ("the Company" or "the Transferee Company"), the financial statements of the Company includes operations of Transferor Company 1 and Transferor Company 2 from April 01, 2024 onwards.

2A. MATERIAL ACCOUNTING POLICIES

2A.1. Basis of preparation

i) Compliance with Ind AS

The Standalone Financial Statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The Standalone Financial Statements have been prepared on a historical cost basis except for the following:

- Certain financial assets and liabilities are measured at fair value
- Defined benefit obligations- plan assets measured at fair value.
- Assets held for sale – measured at fair value less cost to sell

2A.2. New and amended standards adopted by the Company

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the Company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification.

This new policy did not result in a change in the classification of the Company's borrowings. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107

The Company does not have any supplier finance arrangement.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

(d) Lack of Exchangeability – Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

2A.3. Summary of material accounting policies

(a) Business Combinations

The acquisition method of accounting is used to account for all business combinations, regardless

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests, if any issued by the Company
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Company recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- consideration transferred
- amount of any non-controlling interest in the acquired entity
- acquisition-date fair value of any previous equity interest in the acquired entity

Over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognized directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognized in profit or loss or other comprehensive income, as appropriate.

(b) Property, plant and equipment (including Capital work-in-progress)

Freehold Land is carried at historical cost. All other property, plant and equipment is recognized at historical cost less depreciation.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repair and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/ other expense, as appropriate.

Depreciation on property, plant and equipment

Depreciation is calculated using the straight-line method to allocate the cost of the assets, net of their residual values, over their estimated useful lives as follows:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

Particulars	Useful lives estimated by the management (in years)
Factory Building	30
Other Building	30 to 60
Computers	3
Office equipment	5
Furniture and fixtures	10
Vehicles	5
Electrical installation	10
Plant and equipment	8-21
Plant and equipment (robots)	12
Moulds	9

The useful lives have been determined based on management evaluation which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

Leasehold improvements are depreciated over the shorter of their useful life or the lease term, unless the entity expects to use the assets beyond the lease term.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and adjusted prospectively, if appropriate. In particular, the Company considers the impact of health, safety and environment legislation in its assessment of expected useful lives and estimated residual values.

(c) Intangible assets

Recognition and measurement

At Initial recognition, identifiable intangible assets are recognized when the Company controls the assets, it is probable that the future economic benefits attributable to asset will flow to the Company and cost of the asset can be reliably measured.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment loss, if any. Internally generated intangible assets, excluding capitalized development costs, are not

capitalized and expenditure is reflected in the Standalone Statement of Profit or Loss in the year in which the expenditure is incurred.

The useful life of intangible assets are assessed as finite.

Amortization and useful lives

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and amortization method of the intangible asset with a useful finite life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss unless such expenditure forms part of carrying value of another assets.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Amortization method and useful lives

The Company amortizes intangible assets with a finite life using the straight-line method over the following periods:

Intangible Assets	Estimated Useful Life (Years)
Computer Software	Over the estimated economic useful lives of 4 years
Technical Know-how	Over the period of Technical Assistance Agreement, i.e. 8 years

Customer relationships

Customer relationships acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, customer relationships are carried at cost less

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

accumulated amortization and accumulated impairment losses, if any. They are amortized on a straight-line basis over their estimated useful life of 15 years assessed by the management at the time of acquisition.

Non-compete fee

Non-Compete fee is recognized based on agreement with seller or competitor. It is amortized on a straight line basis over their estimated useful life of 5-10 years based on agreed terms as per contract.

Right to use technology

Right to use technology acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, right to use technology is carried at cost less accumulated amortization and accumulated impairment losses, if any. It is amortized on a straight-line basis over its estimated useful life of 5 years assessed by the management at the time of acquisition.

(d) Investment properties

Investment properties are measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties, principally land and buildings, are held for long-term rental yields and are not occupied by the Company.

Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Investment properties generally have useful lives of 30 years. The useful lives have been determined based on technical evaluation performed by the management's expert.

(e) Leases

The Company leases solar power plant, equipment, land and building. Rental Contracts are typically made for fixed periods of two years

to twelve years for building, ninety-nine years for leasehold land, fifteen years for solar power plant and seven years for equipment, but might have extension options as disclosed in Note 6 to the Standalone Financial Statements.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets might not be used as security for borrowing purposes.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for the leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset if similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- Where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- Uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing.
- Makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortizing loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Company use that rate as a starting point to determine the incremental borrowing rate.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less, without a purchase option.

As a lessee

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option,
- lease payments to be made under an extension option if the reasonably certain to exercise the option, and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made reasonably certain extension options are also included in the measurement of the liability.

Lease payments are allocated between principal and finance cost. The finance cost is charged to Standalone Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received

- any initial direct costs
- restoration costs.

As a lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

When the Company acts as an intermediate lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for a major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

(f) Inventories

Raw materials and stores, work in progress, stock in trade and finished goods

Assigning costs to inventories:

The costs of individual items of inventory are determined on a weighted average basis. Volume rebates or discounts are taken into account when

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

estimating the cost of inventory if it is probable that they have been earned and will take effect.

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and stock-in-trade comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the transfer from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(g) Investments, loans and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss
- those to be measured at amortized cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, being

the date on which the Company commits to purchase or sell the financial asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in Other Income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in statement of profit and loss.

- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognized in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognized in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other gain/ (losses) in the statement of profit and loss. Impairment

losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iv) Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 44 details how the Company determines whether there has been a significant increase in credit risk.

(h) Revenue from operations

Revenue from operations is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

(i) Sale of products, moulds and tools

Revenue from sale of products, moulds and tools is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the product. The normal credit term is 30 to 120 days upon delivery.

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 44 details how the Company determines whether there has been a significant increase in credit risk.

The Company operates several sales incentive programs wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme program such as discounts. Revenue from contracts with customers is presented deducting cost of all these schemes.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(ii) Sale of services

Revenue from sale of service is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(iii) Financing components

The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for a significant financing component or the time value of money.

(i) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Company's unconditional right to consideration (that is, payment is due only on the passage of time).

Trade receivables are recognized initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a

contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

(j) Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to standalone statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

(k) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the standalone financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

A deferred tax asset shall be recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that:

- i. is not a business combination;
- ii. at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss); and
- iii. at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

An entity shall recognize a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, except to the extent that both of the following conditions are satisfied:

- i. the parent, investor is able to control the timing of the reversal of the temporary difference; and
- ii. it is probable that the temporary difference will not reverse in the foreseeable future.

An entity shall recognize a deferred tax asset for all deductible temporary differences arising from investments in subsidiaries to the extent that, and only to the extent that, it is probable that:

- i. the temporary difference will reverse in the foreseeable future; and
- ii. taxable profit will be available against which the temporary difference can be utilized.

A deferred tax asset shall be recognized for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilized.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(I) Investment in subsidiaries and joint venture

The investment in subsidiaries and joint venture are carried at cost as per Ind AS 27 'Separate Financial Statements'. The Company regardless of the nature of its involvement with an entity (the investee), determine whether it is a parent by assessing whether it controls the investee. The Company controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, the Company controls over the investee if and only if it has all the following:

- (a) Power over the investee
- (b) Exposure, or rights, to variable returns from its involvement with the investee; and
- (c) the ability to use its power over the investee to affect the amount of the returns.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

Investments are accounted in accordance with Ind AS 105 "Non-current Assets Held for Sale and Discontinued Operations" when they are classified as held for sale. On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the standalone statement of profit and loss.

2B. OTHER ACCOUNTING POLICIES

(a) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The Company also has liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity, pension, post-employment medical plans

- defined contribution plans such as provident fund.

Gratuity obligations

The liability recognized in the balance sheet is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by an actuary using the projected unit credit method.

The present value is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Standalone Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Standalone Statement of Changes in Equity and in the Standalone Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Provisions and contingent liability

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past event, it is probable that an outflow of resource will

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

be required to settle the obligation and amount can be reliably measured.

Provisions for legal claims and service warranties are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations might be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Decommissioning liability

The Company records a provision for decommissioning costs of its leased manufactured facilities. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. The impact of climate-related matters, such as changes in environmental regulations and other relevant legislation, is considered by the Company in estimating the decommissioning liability.

Contingent liability

Contingent liability is:

- i) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or

- ii) a present obligation that arises from past events but is not recognized because:

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- the amount of the obligation cannot be measured with sufficient reliability.

Provisions and contingent liabilities are reviewed at each Standalone Balance Sheet date.

(c) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the Standalone Balance Sheet.

(d) Earnings per share (EPS)

Basic EPS is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (see note 39).

The Company does not have any dilutive potential equity shares.

(e) Dividend

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(f) Other income

(i) Interest Income

Interest income from financial assets at FVTPL is disclosed as interest income within other income. Interest income on financial assets at amortized cost and financial assets at FVOCI is recognized in profit or loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective interest rate

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(ii) Dividend Income

Dividend is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Government Grant

Government grants are recognized at their fair value where there is reasonable assurance that the Company will comply with the conditions attaching to them and the grants will be received. Government grants are recognized in the Standalone Statement of Profit and Loss on a systematic basis over the periods in which the Company recognizes as expense the related cost for which the grants are intended to compensate.

(iv) Rental Income

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms.

(v) Royalty Income

Income from royalty is recognized on an accrual basis in accordance with the substance of the relevant arrangements.

(g) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are derecognized from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that

has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognized in Standalone Statement of Profit and Loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(h) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(i) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(j) Foreign currency translation

Functional and presentational currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (₹), which is Lumax Auto Technologies Limited's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equity investments classified as at FVOCI are recognized in other comprehensive income.

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(l) Segment Reporting

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which discrete financial information is available. The operating segments are based on the Company's internal reporting structure and the manner in which operating

results are reviewed by the Chief Operating Decision Maker (CODM).

The Board of Directors of the Company has been identified as the CODM by the Company. Refer Note 43 for Segment disclosure.

(m) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognized for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognized for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognized. A gain or loss not previously recognized by the date of the sale of the non-current asset (or disposal group) is recognized at the date of de-recognition.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet.

(n) Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the balance sheet.

(o) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

(p) Exceptional items

On certain occasions, the size, type or incidence of an item of income or expense and certain non-recurring transactions pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company. Such income or expense is classified as an exceptional

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

item and accordingly disclosed in the standalone financial statements.

(q) Standards notified, not yet effective

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

This amendment also includes specific provisions that will take effect for reporting periods beginning on or after April 01, 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the

reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8.

The Company does not expect this amendment to have an impact on its operations or Financial Statements.

Impairment testing of goodwill

Goodwill recognized on acquisition of IAC International Automotive India Private Limited and Lumax Ancillary Limited having indefinite useful life have been tested for impairment as at the Balance Sheet date. The recoverable amount is determined based on value in use calculation. These calculations uses management assumptions and cash flow projections based on budgets approved by management covering a 5 years period. Cash flow projection beyond 5 years time period are extrapolated using the estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which CGU operates. Management has determined following assumptions for impairment testing of Goodwill:

Assumption	Rates	Approach used in determining value
Weighted Average cost of capital	15.70%	It has been determined basis risk free rate of return adjusted for equity risk premium
Long Term Growth Rate	4.00%	Long term growth rate has been taken basis financial budgets and projections approved by management

Management has performed a sensitivity analysis with respect to changes in assumptions for assessment of value-in-use of Goodwill. Based on this analysis, management believes that change in any of above assumption would not cause any material possible change in carrying value of Goodwill over and above its recoverable amount. Based on impairment assessment conducted by the management, there is no impairment required.

*includes rental income from related parties (refer note 42)

ii) Contractual obligations

There are no contractual obligations to purchase, construct or develop investment properties.

iii) Estimation of Fair Value

The Company obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including:

- current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.
- discounted cash flow projections based on reliable estimates of future cash flows.
- capitalised income projections based upon a property's estimated net market income and a capitalisation rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by registered valuers as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The main inputs used are the (i) Market rates/ Marketability of the Land in the vicinity, (ii) Recent property deals/transactions, (iii) Negotiation skills of the buyer/seller, (iv) Demand and supply of properties, (v) Locality, neighbourhood, civic amenities, its connectivity to major centres etc., (vi) Shape, size, prominence, plot area and topography etc. All resulting fair value estimates for investment properties are included in level 3.

iv) Leasing arrangements

The investment properties are leased to fellow subsidiary and enterprises owned or significantly influenced by key managerial persons and/or their relatives under operating leases with rentals payable monthly. Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term.

Lease payments for some contracts include inflationary increases, but there are no other variable lease payments that depend on an index or rate. Although the Company is exposed to changes in the residual value at the end of the current leases, the Company typically renews the operating leases with related parties and therefore will not immediately realise any reduction in residual value at the end of these leases.

20.1 Nature and purpose of reserves

a) Retained Earnings

Retained earnings are the profits/(loss) that the Company has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

b) Capital reserve

Capital reserve are the reserve created for gain on bargain purchase related to business combinations.

c) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised in accordance with the provisions of the Companies Act, 2013.

d) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

e) FVTOCI Reserve

The Company has elected to recognize changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVTOCI Reserve within equity. The Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognized.

38. EXCEPTIONAL ITEMS

	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Wages code impact (Refer note 40 and note (i) below)	960.70	-
Impairment in Subsidiary (Refer note (ii) below)	703.97	-
Total	1,664.67	-

- (i) On November 21, 2025, the Central Government has implemented four ('New Labour Codes'), viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020. These four codes replace and consolidate 29 existing labour laws. The Ministry of Labour and Employment has also issued the Frequently Asked Questions (FAQs) on the four codes.

The new labour codes prescribe an inclusive definition of the term 'wages', which among other matters is relevant for determination of post-employment and other employee benefits (including gratuity and leave encashment) to all employees. In accordance with the definition, certain specified items forming part of remuneration are not included in the wages and these excluded items cannot exceed 50% of total remuneration. If there is an excess, then it is presumed that excess amount also forms part of wages.

The Company has assessed the impact of these changes on the basis of legal view obtained by the management and best information available till approval of the Standalone Financial Statements for issue. The Company has determined that these changes result in an increase in gratuity obligation of ₹ 562.98 Lakhs and in leave encashment of ₹ 397.72 Lakhs. The changes to gratuity and leave encashment obligation resulting from the labour codes are accounted as plan amendments and resulting past service cost are recognized as an expense immediately in the Standalone Statement of Profit and Loss. Considering the materiality and regulatory-driven, non-recurring nature of this change, the Company has presented increase in obligation as an expense under the head "Exceptional Items" in the Standalone Statement of Profit and Loss for the year ended March 31, 2026. Considering that it is emerging topic and the finalisation of Central/ State Rules is still pending, the Company will continue monitoring changes and provide appropriate accounting effect as required based on future developments.

- (ii) Subsequent to the year end, the Board of Directors of the Company have considered and approved the sale of its entire equity stake aggregating to 50% of the equity share capital of its subsidiary Company "Lumax Jopp Allied Technologies Private Limited" to Jopp Holding GmbH, Germany, subject to completion of customary conditions as per the Share Purchase Agreement amongst the Company, Jopp Holding GmbH and Lumax Jopp Allied Technologies Private Limited. Consequent to the completion of the said transaction, Lumax Jopp Allied Technologies Private Limited will cease to be a Subsidiary of the Company and accordingly, the Company has recognized an impairment loss amounting to ₹ 703.97 Lakhs as "Exceptional items" based on business valuation.

39. EARNINGS PER SHARE (EPS)

- a) Basic EPS amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year. Basic and diluted EPS are same as there are no convertible financial instruments outstanding as on Standalone Balance Sheet dates. Previous year figures have been restated to give the effect of business combination (Refer note 55).

- b) The following reflects the income and share data used in the basic and diluted EPS computations:

	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Profit attributable to the equity holders of the Company	20,687.70	17,171.10
Weighted average number of equity shares for basic and diluted EPS	6,81,57,705	6,81,57,705
Basic and diluted earnings per share (face value ₹ 2 per share, March 31, 2025: ₹ 2 per share) (₹)*	30.35	25.19

*There are no dilutive instruments.

- c) There have not been any transactions involving equity shares or potential equity shares between the reporting date and the date of authorization of these standalone financial statements.

40. GRATUITY AND OTHER POST-EMPLOYMENT BENEFIT PLANS

A) Leave obligation

The liabilities for compensated absence namely earned and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in statement of profit and loss.

B) Defined contribution plans

The Company has certain defined contribution plans including provident fund, employee state insurance and national pension scheme. Contributions are made to provident fund for employees @ 12% of basic salary as per regulations. The contributions are made of registered provident fund administered by the government. The contributions are made of employee state insurance for employees @ 3.25% of basic salary as per regulations. Defined contributions are made to national pension funds. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognized during the year towards contribution to provident and other fund is as below:

	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Employer's contribution to provident fund and other fund	1,212.71	993.65

C) Defined benefit plans

The Company provides for gratuity for employees in India. The amount of gratuity payable on retirement / termination is employee last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service. The gratuity plan is funded and the Company makes contribution to recognized funds in India. The Company does not fully fund the liability and maintains the target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. The gratuity fund plan assets of the Company are managed by "Lumax Auto Technologies Limited Employees Group Gratuity Assurance Scheme" and "IAC International Automotive India Pvt Ltd Employees' Group Gratuity cum Life Assurance Scheme". The trusts have policies with Life Insurance Company of India ('LIC'). The gratuity plan was earlier governed by the Payment of Gratuity Act, 1972 and now by the relevant provision of Code on Social Security 2020.

The details of investments maintained by LIC are not available and have therefore not been disclosed.

h) A quantitative sensitivity analysis for significant assumption is as shown below:

	As at March 31, 2026	As at March 31, 2025
	Gratuity Increase/ (Decrease)	Gratuity Increase/ (Decrease)
A. Discount rate		
Effect on Defined Benefit Obligation due to 1% increase in Discount Rate	(217.65)	(153.99)
Effect on Defined Benefit Obligation due to 1% decrease in Discount Rate	246.58	172.41
B. Salary escalation rate		
Effect on Defined Benefit Obligation due to 1% increase in Salary Escalation Rate	186.57	134.96
Effect on Defined Benefit Obligation due to 1% decrease in Salary Escalation Rate	(176.33)	(124.30)
C. Withdrawal rate		
Effect on Defined Benefit Obligation due to 1% increase in Withdrawal Rate	(5.58)	(10.44)
Effect on Defined Benefit Obligation due to 1% decrease in Withdrawal Rate	6.27	11.66

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions might be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognized in the Standalone Balance Sheet.

i) The expected benefit payments in future years is as follows:

	As at March 31, 2026	As at March 31, 2025
Within 1 year	1,712.77	755.51

j) The weighted average duration of the defined benefit obligation is 8.35 - 10.46 years (March 31, 2025: 8.13 - 9.05 years).

Maharashtra Value Added Tax	-	22.33
Legal Matters	109.82	-

(i) No provision is considered necessary since the Company expects favourable decisions.

(ii) Paid under protest of ₹ 19.30 Lakhs (March 31, 2025 ₹ 630.95 Lakhs).

These represent the best possible estimates arrived at on the basis of available information. The uncertainties and possible impacts are dependent on the outcome of the different legal processes which have been invoked by the Company or the claimants as the case may be and therefore cannot be predicted accurately. The Company engages professional advisors to protect its interests and has been advised that it has strong legal positions against such disputes. It is not practicable for the Company to estimate the timing of cash outflows, if any, in respect of the above pending resolution of the respective proceedings.

- c)** In regard to the bill discounting of invoices with bank by one of the Company's vendor (Transporter), the bank had filed an application under Section 19 of the Recovery of Debts due to Banks and Financial Institution Act, 1993 before the Ld. The transactions with related parties are carried out on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the year ended March 31, 2026, the Company has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

43. Operating segments are defined as components of an enterprise for which financial information is available that is evaluated regularly by the Chief Operating Decision Makers (CODM), in deciding how to allocate resources and assessing performance. The Company's CODM is its Board of Directors and the Company has only one reportable business segment, i.e. manufacturing and trading of automobile components, which is reviewed by its CODM. As the Company has single reportable segment, the segment wise disclosure requirement under IND AS - 108, 'Operating Segments' is not applicable. The Company operations are primarily domiciled in India. For revenue by location of customers, refer note 29.5.

44. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

a) Property, plant and equipment

The useful lives and residual values of property, plant and equipment are determined by the management based on technical assessment by the management. The Company believes that the derived useful life best represents the period over which the Company expects to use these assets.

b) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

c) Employee benefit obligations

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 40.

d) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

e) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are also relevant to other intangibles. During the year, the Company has done the impairment assessment of non-financial assets and have concluded that there is no impairment in value of non-financial assets as appearing in the financial statements.

g) Revenue from operations - variable consideration

The Company applied the following judgments and estimated that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining method to estimate variable consideration and assessing the constraint:- Certain contracts for the sale of products include a right of price revision on account of change of commodity prices/purchase price that give rise to variable consideration. In estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Company estimates variable considerations to be included in the transaction price for the sale of traded goods (in after-market) with volume rebates. The Company's expected volume rebates are analysed on a per customer basis for contracts that are subject to a single volume threshold. Determining whether a customer will be likely entitled to rebate will depend on the customer's historical rebates entitlement and accumulated purchases to date.

h) Lease incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore its incremental borrowing rate (IBR) to measure lease liability. The IBR is the rate of interest that the Company would have to pay to borrow over similar term, and with a similar security, the fund necessary to obtain an asset of a similar value to the Right-to-use assets in as similar economic environments. The IBR therefore effects what the Company "would have to pay" which requires estimates when no observable rates are available or when they need to be adjusted to reflect the term and conditions of the lease. The Company estimates the IBR using observable inputs such as market interest rates when available.

i) Customer relationship (Intangible assets)

Customer relationship recognized in the course of purchase price allocation of the acquired entities. The management believes that the value assigned are reasonable.

45. CAPITAL MANAGEMENT

Risk Management

For the purpose of the Company's capital management, capital includes issued equity capital, all equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholders' value.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants, if any. To maintain or adjust the capital structure, the Company reviews the fund management at regular intervals and take necessary actions to maintain the requisite capital structure. The Company monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2026 and March 31, 2025.

Loan covenants:

Under the terms of the major borrowing facilities, the Company is required to comply with the following financial covenants at the end of each annual and interim reporting period:

Debt Service Coverage Ratio

Total Outstanding Liability /Tangible Net Worth

Total Debt/Earning before interest, tax, depreciation and amortisation (EBITDA)

EBITDA / Net Sales

Total Debt/Tangible Net Worth

The Company has complied with these covenants throughout the reporting period.

Total	1,70,904.41	1,31,181.56	1,70,904.41	1,31,181.56

Discount rate used in determining fair value

The interest rate used to discount estimated future cash flows, where applicable, are based on the incremental borrowing rate of borrower which in case of financial liabilities is average market cost of borrowings of the Company and in case of financial asset is the average market rate of similar credit rated instrument. The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

47. FAIR VALUE HIERARCHY

All financial instruments for which fair value is recognized or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

48. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

This note explains the Company's exposure to financial risks and how these risks could affect the Company's future financial performance. Current year profit and loss information has been included where relevant to add further context.

The Company's financial risk management is an integral part of how to plan and execute the business strategies.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by Finance department that advises on financial risks and the appropriate financial risk governance framework for the Company. The Finance department provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and bank balances, Trade receivables, Loans and Other Financial Assets measured at amortized cost	Ageing analysis Credit ratings	Diversification of bank deposits and periodic monitoring of realisable value of assets. Business with customers having reliable credit rating in the market.
Liquidity risk	Borrowings, Trade payables and Other Financial liabilities	Rolling cash flow forecasts	Availability of adequate cash, liquid assets, committed credit lines and borrowing facilities.
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level. Recovery of adverse foreign exchange movement from customers.
Market risk - Interest rate	Borrowings at variable rate	Cash flow forecasting Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level.
Market risk - Equity price risk	Investment in equity shares of listed and non listed companies	Sensitivity analysis	Diversification of investment and regular monitoring.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instrument effected by market risk include loans and borrowings, deposits, FVTOCI and FVTPL instrument.

The sensitivity analysis in the following sections relate to the position as at March 31, 2026 and March 31, 2025.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2026 and March 31, 2025 including the effect of hedge accounting.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest bearing financial liabilities includes borrowings with fixed interest rates.

The Company's fixed rate borrowings are carried at amortized cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Interest rate risk exposure

The Company's variable rate borrowing is subject to interest rate fluctuations. Below is the overall exposure of the borrowing:

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

The Company transacts business in local currency as well as in foreign currency. The Company has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

The Company exposure to foreign currency risk at the end of the reporting period expressed in ₹ Lakhs are as follows:

Currency	As at March 31, 2026				As at March 31, 2025			
	Assets		Liabilities	Net Exposure to Foreign currency	Assets		Liabilities	Net Exposure to Foreign currency

iii) Equity price risk

The Company's investment in listed and non-listed equity & preference securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the price risk through diversification and by placing limits on individual and total instruments. Reports on the equity & preference portfolio are submitted to the Company's management on a regular basis. The Company's Board of Directors reviews and approves all equity & preference investment decisions.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 26,497.92 Lakhs (March 31, 2025: ₹ 13,609.60 Lakhs). A decrease of 10% on the NSE market index could have an impact of approximately ₹ 2,649.79 Lakhs (March 31, 2025: ₹ 1,360.96 Lakhs) on the OCI or equity attributable to the Company. An increase of 10% in the value of the listed securities would also impact OCI and equity by similar amount.

At the reporting date, the exposure to unlisted equity and preference securities at fair value was ₹ 3,016.83 Lakhs (March 31, 2025: ₹ 2,658.20 Lakhs). A decrease of 10% in fair value could have an impact of approximately ₹ 301.68 Lakhs (March 31, 2025: ₹ 265.82 Lakhs) on the OCI or equity attributable to the Company. An increase of 10% in the value of the listed securities would also impact OCI and equity by similar amount.

B. Credit risk

Credit risk arises from cash and cash equivalents, contractual cash flows of debt instruments carried at amortized cost and at fair value through profit or loss, favourable derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables and recoverables from related parties.

Trade receivables

Customer credit risk is managed by the Company subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of financial assets (trade receivable). The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located and being operated in India.

Further, the Company's customer base majorly includes Original Equipment Manufacturers (OEMs), Large Corporates and Tier-1 vendors of OEMs and dealers. Based on the past trend of recoverability of outstanding trade receivables, the Company has not incurred material losses on account of bad debts. The Company is earning revenue of ₹ 2,24,392.89 Lakhs (March 31, 2025: ₹ 1,68,111.97 Lakhs) in the domestic market from three customers. The following table provides information about the exposure to credit risk and expected credit loss as at March 31, 2026 and March 31, 2025 for trade receivables under the simplified approach.

Loans to related parties

The Company considers the probability of default upon initial recognition of loan and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of a default occurring on the loan as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. In particular, the following indicators are incorporated:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of the borrower.
- significant changes in the expected performance and behaviour of the counterparty, including changes in the payment status of the counterparty in the Company and changes in the operating results of the counterparty.

A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a counterparty failing to engage in a repayment plan with the Company. The Company categorises a loan for write-off when a related party fails to make contractual payments more than 120 days past due. Where loans have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss.

There is no loss allowance that is to be recognized in the Standalone Financial Statement for the year ended March 31, 2026 and March 31, 2025.

C. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including loans from banks at an optimized cost

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

As at March 31, 2026	On Demand	Less than 1 year	1 to 5 years	> 5 years	Total
Borrowings	42,392.04	14,096.93	23,594.06	725.00	80,808.03

Total	29,867.38	73,991.21	27,788.32	1,526.65	1,33,173.56

D. Commodity risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchases of steel & plastic granules which are volatile products and are major component of end product. The prices in these purchase contracts are linked to the price of raw steel & plastic granules and demand supply matrix. However, at present, the Company does not hedge its raw material procurements, as the price of the final product of the Company also vary with the price of underlying commodity which mitigate the risk of price volatility.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

49. As at March 31, 2026, investments in equity shares and optionally convertible debentures in the subsidiaries amounted to ₹ 8,613.16 Lakhs and ₹ 6,266.00 Lakhs respectively. Management periodically assesses whether there is an indication that such investments may be impaired. As at March 31, 2026, net worth of three subsidiary companies turned lower than the carrying value of investments in the Company's books. This is an indication of potential impairment of carrying value of the investments. The carrying value of investment in such subsidiaries aggregates to ₹ 3,979.60 Lakhs (including investment in Optionally Convertible Redeemable Debentures). For such investment, where impairment indicators exist, management compares its carrying amount with the recoverable amount. Recoverable amount is value in use of the investment computed based upon discounted projected profitability. As on the reporting date, the recoverable amount, determined by the management is more than the carrying amount. Key assumptions underlying the value in use calculation are those regarding expected revenues, a post-tax discount rate of 14% per annum. Sales growth projections considers managements' expectation of market development, current industry trends and post-tax discount rate based on the relevant risks. 3% growth rate has been used in terminal year. The management believes that any reasonably possible change in the key assumptions would not cause the carrying amount to exceed the recoverable amount of the cash generating unit.

50. Revenue from operations is measured by the Company at the transaction price i.e. amount of consideration received/ receivable in exchange of transferring goods or services to the customers. In determining the transaction price for the sale of goods, the Company considers the effect of price adjustments, to be claimed/ passed on to the customers, based on various cost parameters like raw material and other costs.

The Company is required to pass on the savings in variable cost from the billed sales price for which the final negotiations with the customer is ongoing and will be settled in near future. The total estimated liabilities outstanding as at March 31, 2026 is ₹ 6,663.39 Lakhs (March 31, 2025: ₹ 2,650.94 Lakhs), which management believes is sufficient to discharge liabilities.

55. I) Scheme of Arrangement with Lumax Ancillary Limited

On July 20, 2024, the Company had filed the Scheme of Amalgamation and Merger ("Scheme") with Hon'ble National Company Law Tribunal, New Delhi Bench (NCLT) of its wholly owned subsidiary Lumax Ancillary Limited (Transferor Company 1) with the Company for efficient utilisation & synergy of resources. The aforesaid scheme, inter-alia envisaged merger of the transferor into the Company. The Scheme was approved by NCLT on March 11, 2026 which was filed with Registrar of Companies (ROC) on March 31, 2026. Consequent to the amalgamation and merger prescribed by the Scheme, all the assets and liabilities of the Transferor Company 1 were transferred to and vested in the Company with effect from April 01, 2024 ("the Appointed Date"). The amalgamation was accounted under the "pooling of interest" method prescribed under Ind AS 103 - Business Combinations, as prescribed by the Scheme. Accordingly all the assets, liabilities, and other reserves of the transferor as on April 01, 2024 were transferred to the Company as per the Scheme. As prescribed by the Scheme, no consideration was paid as the Transferor Company 1 is a wholly owned subsidiary of the Company. Previous year figures have been restated to give effect to the above merger in comparative year reported.

Pursuant to the Scheme:

The scheme provides that all assets and liabilities of the Transferor Company 1, including goodwill, will be recorded by the Transferee Company at their existing carrying values as per its consolidated financial statements. Reserves of the Transferor Company 1 will be retained in the same form, and inter-company balances as well as investments between the entities will be eliminated upon amalgamation. Any resulting surplus will be credited to capital reserve, while any deficit (after adjusting existing reserves) will be charged to retained earnings. The accounting policies of the Transferee Company will prevail in case of differences to ensure consistency and comparative financial statements will be restated as if the merger had taken place from the beginning of the comparative period as prescribed under Appendix C of Ind AS 103 - 'Business Combinations'.

The Scheme will benefit both, the Transferor Company 1 and Transferee Company. The rationale and reasons for the Scheme, inter alia are summarised below:

- Better, efficient and economical management, cost savings, pooling of resources, reduction of corporate tiers, creating better synergy, optimum utilisation of resources, rationalisation of administrative expenses/services, control and running of businesses and further development and growth of the business;
- Enable pooling of financial, commercial and other resources and considerable synergy of operations would be achieved from business and administrative point of view and conserve administrative resources and cost overheads; and
- To achieve better financial and business prospects.

Pursuant to the Scheme:

The scheme provides that all assets and liabilities of the Transferor Company 2, including goodwill, will be recorded by the Transferee Company at their existing carrying values as per its consolidated financial statements. Reserves of the Transferor Company 2 will be retained in the same form, and inter-company balances as well as investments between the entities will be eliminated upon amalgamation. Any resulting surplus/deficit shall be transferred to appropriate reserve within equity. The accounting policies of the Transferee Company will prevail in case of differences to ensure consistency and comparative financial statements will be restated as if the merger had taken place from the beginning of the comparative period as prescribed under Appendix C of Ind AS 103 - 'Business Combinations'.

The Scheme will benefit both, the Transferor Company 2 and Transferee Company. The rationale and reasons for the Scheme, inter alia are summarised below:

- Better, efficient and economical management, cost savings, pooling of resources, reduction of corporate tiers, creating better synergy, optimum utilization of resources, rationalization of administrative expenses/services, control and running of businesses and further development and growth of the business;
- Enable pooling of financial, commercial and other resources and considerable synergy of operations would be achieved from business and administrative point of view and conserve administrative resources and cost overheads; and
- To achieve better financial and business prospects.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

56. FINANCE LEASE (SUB LEASES CLASSIFIED AS FINANCE LEASES)

During the year ended March 31, 2026, the Company has sub-leased some of the portions of leased properties. The Company has made an overall assessment of whether the sublease to be classified as finance lease considering the recognition criteria as per Ind AS 116 - 'Leases'.

The following table presents the amounts included in Standalone Statement of Profit and Loss.

Particulars	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Finance income on net investment in finance leases (refer note 30)	112.65	-
Finance lease receivable (refer note 12)	4,225.18	-

The following table sets out a maturity analysis of lease receivables, showing the undiscounted lease payments to be received after the reporting date.

The maturity analysis of lease receivables, including the undiscounted lease payments to be received are as follows:

Amounts receivable under finance leases	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Less than one year	589.16	-
One to two years	589.16	-
Two to three years	605.68	-
Three to four years	677.54	-
Four to five years	677.54	-
More than five years	3,279.89	-
Total undiscounted lease payments receivable	6,418.97	-
Less: Unearned finance income	(2,193.79)	-
Net investment in the lease	4,225.18	-

The incremental borrowings rate is 9.00% p.a. (March 31, 2025: Nil).

The management of the Company estimates the loss allowance on finance lease receivables at the end of the reporting period at an amount equal to lifetime expected credit loss under simplified approach. None of the finance lease receivables at the end of the reporting period is past due, and taking into account the historical default experience and the future prospects of the industries in which the lessees operate, together with the value of collateral held over these finance lease receivables, the management of the Company consider that no finance lease receivable is impaired.

The Company entered into finance leasing arrangements as a lessor for certain leased properties under sub leasing arrangements. The term of finance leases entered into is for 9-10 years (March 31, 2025: Nil). The Company is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in ₹. Residual value risk on such right of use assets under lease is not significant.

57. These Standalone Financial Statements have been approved by the Board of Directors of the Company in their meeting held on May 29, 2026 and are subject to the shareholder's approval in the forthcoming annual general meeting.

These are the notes to the Standalone Financial Statements referred to in our report of even date.

INDEPENDENT AUDITOR'S REPORT

To the Members of Lumax Auto Technologies Limited

Report on the Audit of the Consolidated Financial Statements

OPINION

1. We have audited the accompanying Consolidated Financial Statements of Lumax Auto Technologies Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), [refer Note 39(a) to the Consolidated Financial Statements], which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including material accounting policy information and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2026, and consolidated total comprehensive income (comprising profit and

other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
Revenue recognition and liabilities related to price variation (Refer note 28, 44(g) and 50 to the Consolidated Financial Statements) Revenue is measured by the Group at the transaction price, i.e., amount of consideration received/receivable in exchange for transferring promised goods or services to the customers. In determining the transaction price for the sale of products, the Group considers the effects of variable consideration including price adjustment to be passed on to the customers based on parameters like negotiation based on savings on material and other factors. The Group's business requires passing on these credits to the customers once negotiations are concluded with the customers. The estimated liabilities are determined based on negotiations/other business considerations at the year end, and the consequential impact on revenue is disclosed in note 50 to the Consolidated Financial Statements. We considered this to be a key audit matter as significant management judgement is involved in estimation of the price adjustments.	Our audit procedures included the following: • Obtained an understanding and evaluated the design and tested the operating effectiveness of the Group's controls relating to price adjustments in revenue process. • Assessed the Group's accounting policy for revenue recognition including the policy for recording price adjustments in accordance with the requirement of Ind AS 115 'Revenue from Contracts with Customers'. • Evaluated management's methodology and assumptions used for computing the price adjustment based on the negotiations with the customers which is used in the estimation of price adjustments as per the agreements with the customers. • Assessed the reliability of underlying historical data, developments during the year and assumptions used for determination of price adjustments. • Tested the completeness, arithmetical accuracy and validity of the data used in computation of price adjustments as per customer contracts. • Performed substantive testing by selecting a sample of price adjustments recorded during the year as well as year-end price adjustments, and verified the parameters used in the computation with the underlying supporting documents. • Verified the adequacy of disclosures made in the Consolidated Financial Statements.

OTHER INFORMATION

5. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Financial Statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required

to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

6. The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group, and for preventing and detecting frauds

INDEPENDENT AUDITOR'S REPORT (Contd.)

and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Board of Directors of the Holding Company, as aforesaid.

7. In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the respective companies or to cease operations, or has no realistic alternative but to do so.
8. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the respective companies.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

9. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.
10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those

risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Consolidated Financial Statements of such entities included in

INDEPENDENT AUDITOR'S REPORT (Contd.)

the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

11. We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance of the Holding Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
13. From the matters communicated with those charged with governance of the Holding Company, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

14. The Standalone Financial Statements of eight subsidiaries reflect total assets of Rs. 38,985.73 lakhs and net assets of Rs. 13,307.51 lakhs as at March 31, 2026, total revenue of Rs. 35,438.62 lakhs, total comprehensive income (comprising profit and other comprehensive income) of Rs. 1,034.43 lakhs and net cash flows amounting to Rs. (220.60) lakhs for the year ended on that date, have been considered in the Consolidated Financial Statements. The financial statements of these subsidiaries have been audited by other auditors whose reports have been furnished to us by the Holding Company's management, and our opinion on the Consolidated Financial Statements

insofar as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries, is based on the reports of the other auditors and the procedures performed by us.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and reports of the other auditors.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

15. As required by the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure B", a statement on the matters specified in paragraph 3(xxi) of CARO 2020.
16. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except for one subsidiary where in the absence of sufficient appropriate audit evidence, we are unable to verify whether the backup of books of account and other books and papers maintained in electronic mode has been maintained on a daily basis on servers physically located in India during the period April 01, 2025 to August 31, 2025 and the matters stated in paragraph 16(j)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the Consolidated Financial Statements.

INDEPENDENT AUDITOR'S REPORT (Contd.)

- (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2026 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiaries incorporated in India whose audit under Section 143 of the Act has been completed, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 16(b) above and paragraph 16(h)(vi) below.
- (g) With respect to the adequacy of internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its subsidiaries incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure A".
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group— Refer Note 41 to the Consolidated Financial Statements.
 - ii. The Group was not required to recognise a provision as at March 31, 2026 under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Group did not have any long-term derivative contracts as at March 31, 2026.
 - iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries, incorporated in India during the year.
- iv. (a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in Note 53(v) to the Consolidated Financial Statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the Note 53(vi) to the Consolidated Financial Statements, no funds have been received by the Holding Company or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party

INDEPENDENT AUDITOR'S REPORT (Contd.)

- ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures, that has been considered reasonable and appropriate in the circumstances, performed by us and those performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditors' notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material misstatement.
- v. The final dividend paid by the Holding Company and its subsidiaries incorporated in India during the year in respect of the prior year ended March 31, 2025 is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.

The respective Board of Directors of the Holding Company and its subsidiaries have proposed final dividend for the year which is subject to the approval of the respective members at their ensuing Annual General Meetings. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- vi. Based on our examination, which included test checks and that performed by the respective auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, the Holding Company and such subsidiaries have used accounting software for maintaining their books of account which have a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software, except that in respect of the Holding Company :

- (i) in respect of the core accounting software, the audit log at the application level is not maintained in case of modification by certain users with specific access and the audit trail feature was not enabled at the database level to log any direct data changes;
- (ii) with respect to one accounting software of a third party service provider used for the entire audit period for maintaining certain records, audit log of modification does not contain the pre-modified values at database level; and
- (iii) with respect to another accounting software of a third party service provider used for the entire audit period for maintaining certain records, in the absence any information pertaining to audit trail in the independent service auditor's report, we are unable to comment on the audit trail (edit log) feature in that accounting software.

During the course of performing our procedures, other than the aforesaid instances of audit trail not maintained where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Holding Company in respect of the software described in (i) and (ii) above, excluding point (iii), as per the statutory requirements for record retention.

The following remark was included in the audit report dated May 20, 2026, containing an unmodified audit opinion on the financial statements of below mentioned subsidiary of the Holding Company, which is reproduced as under:

INDEPENDENT AUDITOR'S REPORT (Contd.)

Name of the subsidiary	Remark
Lumax Greenfuel Energy Solutions Private Limited (Formerly known as Lumax Resources Private Limited)	Based on our examination, which included test checks, the accounting software used by the Company for the period April 1, 2025 to August 31, 2025, audit trail feature is not enabled for all relevant transactions and, therefore, the question of our commenting on whether the audit trail had operated during that period or was tampered with, does not arise. With effect from September 1, 2025, the Company has migrated the data to an upgraded version of that software having a feature of recording audit trail (edit log) facility that has operated throughout the period from September 1, 2025 to March 31, 2026, except a) the audit log at the application level is not maintained in case of modification by certain users with specific access; and (b) no audit trail has been enabled at the database level. During the course of performing our procedures, we did not notice any instance of audit trail feature being tampered with for the period September 1, 2025 to March 31, 2026. Further, the audit trail was not maintained in the prior year and hence the question of our commenting on whether the audit trail was preserved by the Company as per the statutory requirements for record retention does not arise.

17. The Group has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the consolidated financial statements as of and for the year ended March 31, 2026

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to financial statements of Lumax Auto Technologies Limited (hereinafter referred to as "the Holding Company") and its subsidiaries, which are companies incorporated in India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The respective Board of Directors of the Holding Company and its subsidiaries, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with

ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the 'Other Matter' paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the consolidated financial statements as of and for the year ended March 31, 2026 (Contd.)

company's assets that could have a material effect on the Consolidated Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Holding Company and its subsidiaries, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at

March 31, 2026, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

OTHER MATTER

9. Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to eight subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not modified in respect of this matter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

1. CORPORATE INFORMATION

The Consolidated Financial Statements comprise financial statements of Lumax Auto Technologies Limited ("the Holding Company")* and subsidiaries (collectively, "the Group") for the year ended March 31, 2026. The Holding Company is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognized stock exchanges in India. The registered office of the Holding Company is located at 2nd Floor, Harbans Bhawan-II, Commercial Complex, Nangal Raya, New Delhi- 110046. The Group is principally engaged in the manufacturing of automotive components.

*Includes operations of Lumax Ancillary Limited (Transferor Company 1) and IAC International Automotive India Private Limited (Transferor Company 2) from April 01, 2024 onwards pursuant to amalgamation with Lumax Auto Technologies Limited (Transferee Company).

Information on the Group's structure is provided in Note 39.

2A. MATERIAL ACCOUNTING POLICIES

2A.1. Basis of preparation

(i) Compliance with Ind AS

The Consolidated Financial Statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis except for the following:

- Certain financial assets and liabilities are measured at fair value
- Defined benefit obligations- plan assets measured at fair value.
- Assets held for sale – measured at fair value less cost to sell

2A.2. New and amended standards adopted by the Group

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting

standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the Group changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Group has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Group is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the Group's borrowings. The Group did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107

The Group does not have any supplier finance arrangement.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The Group is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Group operates.

(d) Lack of Exchangeability – Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

2A.3. Summary of material accounting policies

(a) Principles of consolidation

(i) Subsidiaries

Subsidiaries are all entities over which the Group has

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This might mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

(b) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests, if any issued by the Group
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- consideration transferred
- amount of any non-controlling interest in the acquired entity
- acquisition-date fair value of any previous equity interest in the acquired entity

Over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognized directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognized in profit or loss or other comprehensive income, as appropriate.

(c) Property, plant and equipment (including Capital work-in-progress)

Freehold Land is carried at historical cost. All other property, plant and equipment is recognized at historical cost less depreciation.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repair and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/other expense, as appropriate.

Depreciation on property, plant and equipment

Depreciation is calculated using the straight-line method to allocate the cost of the assets, net of their residual values, over their estimated useful lives as follows:

Particulars	Useful lives estimated by the management (in years)
Factory Building	20 to 30
Other Building	30 to 60
Computers	3-5
Office equipment	5

Particulars	Useful lives estimated by the management (in years)
Furniture and fixtures	5-10
Vehicles	5-8
Electrical installation	10
Plant and equipment	3-21
Plant and equipment (robots)	12
Moulds	9

The useful lives have been determined based on management evaluation which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

Leasehold improvements are depreciated over the shorter of their useful life or the lease term, unless the entity expects to use the assets beyond the lease term.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and adjusted prospectively, if appropriate. In particular, the Group considers the impact of health, safety and environment legislation in its assessment of expected useful lives and estimated residual values.

(d) Intangible assets

Recognition and measurement

At Initial recognition, identifiable intangible assets are recognized when the Company controls the assets, it is probable that the future economic benefits attributable to asset will flow to the Group and cost of the asset can be reliably measured.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment loss, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit or loss in the year in which the expenditure is incurred.

The useful life of intangible assets are assessed as finite.

Amortization and useful lives

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

assets may be impaired. The amortization period and amortization method of the intangible asset with a useful finite life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss unless such expenditure forms part of carrying value of another assets.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Amortization method and useful lives

The Group amortizes intangible assets with a finite life using the straight-line method over the following periods:

Intangible Assets	Estimated Useful Life (Years)
Computer Software	Over the estimated economic useful lives of 4 years
Technical Know-how	Over the period of Technical Assistance Agreement, i.e. 8 years

Customer relationships

Customer relationships acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, customer relationships are carried at cost less accumulated amortization and accumulated impairment losses, if any. They are amortized on a straight-line basis over their estimated useful life of 10-15 years assessed by the management at the time of acquisition.

Non-compete fee

Non-Compete fee is recognized based on agreement with seller or competitor. It is amortized on a straight line basis over their estimated useful life of 5-10 years based on agreed terms as per contract.

Right to use technology

Right to use technology acquired in business combination are initially recognized at fair value at the

date of acquisition. Following initial recognition, right to use technology is carried at cost less accumulated amortization and accumulated impairment losses, if any. It is amortized on a straight-line basis over its estimated useful life of 5 years assessed by the management at the time of acquisition.

Brand

Brand acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, brand is carried at cost less accumulated amortization and accumulated impairment losses, if any. It is amortized on a straight-line basis over its estimated useful life of 5 years assessed by the management at the time of acquisition.

(e) Investment properties

Investment properties are measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties, principally land and buildings, are held for long-term rental yields and are not occupied by the group.

Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Investment properties generally have useful lives of 30 years. The useful lives have been determined based on technical evaluation performed by the management's expert.

(f) Leases

The Group leases solar power plant, equipment, land and building. Rental Contracts are typically made for fixed periods of two years to twelve years for building, fifteen years for solar power plant, ninety-nine years for leasehold land and seven years for equipment, but might have extension options as disclosed in Note 6 to the financial statements.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets might not be used as security for borrowing purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for the leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- Where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- Uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third-party financing.
- Makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortizing loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Group use that rate as a starting point to determine the incremental borrowing rate.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less, without a purchase option.

As a lessee

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees

- the exercise price of a purchase option if the Group is reasonably certain to exercise that option
- lease payments to be made under an extension option if the reasonably certain to exercise the option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made reasonably certain extension options are also included in the measurement of the liability.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

As a lessor

Lease income from operating leases where the Group is a lessor is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

When the Group acts as an intermediate lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for a major part of the economic life of the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

The Groups recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

(g) Inventories

Raw materials and stores, work in progress, traded and finished goods

Assigning costs to inventories:

The costs of individual items of inventory are determined on a weighted average. Volume rebates or discounts are taken into account when estimating the cost of inventory if it is probable that they have been earned and will take effect.

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realizable value. Cost of raw materials and stock-in-trade comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the transfer from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Investment, loans and other financial assets

(i) Classification

The group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair

value (either through other comprehensive income, or through profit or loss

- those to be measured at amortized cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the group has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, being the date on which the group commits to purchase or sell the financial asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the group measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

amortized cost. Interest income from these financial assets is included in Other Income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.

- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in statement of profit and loss.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognized in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the

investment. Dividends from such investments are recognized in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iv) Impairment of financial assets

The group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

(i) Revenue from operations

Revenue from operations is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

(i) Sale of products, moulds and tools

Revenue from sale of products, moulds and tools is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the product. The normal credit term is 30 to 120 days upon delivery.

The group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 49 details how the group determines whether there has been a significant increase in credit risk.

The Holding Company operates several sales incentive programs wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme program such as discounts. Revenue from contracts with customers is presented deducting cost of all these schemes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(ii) Sale of services

Revenue from sale of service is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(iii) Financing components

The Group does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for a significant financing component or the time value of money.

(j) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Group's unconditional right to consideration (that is, payment is due only on the passage of time).

Trade receivables are recognized initially at the transaction price as they do not contain significant financing components. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Group applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

(k) Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to consolidated statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

(l) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

A deferred tax asset shall be recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that:

- i. is not a business combination;
- ii. at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss); and
- iii. at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

2B. OTHER ACCOUNTING POLICIES

(a) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are

measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The Group also has liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the Group does not have an unconditional right, at the end of the reporting period, to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The group operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund.

Gratuity obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments which

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

are denominated in a currency other than ₹, are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans

The group pays provident fund contributions to publicly administered provident funds as per local regulations. The group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Provisions and contingent liability

Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past event, it is probable that an outflow of resource will be required to settle the obligation and amount can be reliably measured.

Provisions for legal claims and service warranties are recognized when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations might be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Decommissioning liability

The Group records a provision for decommissioning costs of its leased manufactured facilities. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. The impact of climate-related matters, such as changes in environmental regulations and other relevant legislation, is considered by the Group in estimating the decommissioning liability.

Contingent liability

Contingent liability is:

- a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events but is not recognized because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - the amount of the obligation cannot be measured with sufficient reliability.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(c) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(d) Earnings per share (EPS)

Basic EPS is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (see note 38).

The Group does not have any dilutive potential equity shares.

(e) Dividend

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(f) Other income

(i) Interest Income

Interest income from financial assets at FVTPL is disclosed as interest income within other income. Interest income on financial assets at amortized cost and financial assets at FVOCI is recognized in profit or loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(ii) Dividend Income

Dividend is recognized when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Government Grant

Government grants are recognized where there is reasonable assurance that the Group will comply

with the conditions attaching to them and the grants will be received. Government grants are recognized in the statement of profit and loss on a systematic basis over the periods in which the Group recognizes as expense the related cost for which the grants are intended to compensate.

(iv) Rental Income

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms.

(v) Royalty Income

Income from royalty is recognized on an accrual basis in accordance with the substance of the relevant arrangements.

(g) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are derecognized from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognized in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(h) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(i) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(j) Foreign currency translation

Functional and presentational currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (₹), which is Lumax Auto Technologies Limited's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the

dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equity investments classified as at FVOCI are recognized in other comprehensive income.

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

(l) Segment Reporting

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which discrete financial information is available. The operating segments are based on the Group's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

The Board of Directors of the Holding Company has been identified as the CODM by the Group. Refer Note 43 for Segment disclosure.

(m) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognized for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognized for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognized. A gain or loss not previously recognized by the date of the sale of the non-current asset (or disposal group) is recognized at the date of de-recognition.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet.

(n) Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the consolidated balance sheet.

(o) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

(p) Exceptional items

On certain occasions, the size, type or incidence of an item of income or expense and certain non-recurring

transactions pertaining to the ordinary activities of the Group is such that its disclosure improves the understanding of the performance of the Group. Such income or expense is classified as an exceptional item and accordingly disclosed in the Consolidated Financial Statements.

(q) Standards notified, not yet effective

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1 This amendment also includes specific provisions that will take effect for reporting periods beginning on or after April 01, 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8.

The Group does not expect this amendment to have an impact on its operations or Financial Statements.

Impairment testing of goodwill

Goodwill recognized on acquisition of IAC International Automotive India Private Limited amounting ₹ 8,143.65 Lakhs and Lumax Ancillary Limited (now amalgamated with the Holding Company) amounting ₹ 1,221.85 Lakhs, having indefinite useful life have been tested for impairment as at the Balance Sheet date. The recoverable amount is determined based on value in use calculation. These calculations uses management assumptions and cash flow projections based on budgets approved by management covering a 5 years period. Cash flow projection beyond 5 years time period are extrapolated using the

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which CGU operates. Management has determined following assumptions for impairment testing of Goodwill:

Assumption	Rates	Approach used in determining value
Weighted Average cost of capital	15.70%	It has been determined basis risk free rate of return adjusted for equity risk premium
Long Term Growth Rate	4.00%	Long term growth rate has been taken basis financial budgets and projections approved by management

Management has performed a sensitivity analysis with respect to changes in assumptions for assessment of value-in-use of Goodwill. Based on this analysis, management believes that change in any of above assumption would not cause any material possible change in carrying value of Goodwill over and above its recoverable amount. Based on impairment assessment conducted by the management, there is no impairment required.

*Goodwill recognized on acquisition of Greenfuel Energy Solutions Private Limited (now amalgamated with Lumax Greenfuel Energy Solutions Private Limited (Formerly known as Lumax Resources Private Limited)) cash generating unit amounting ₹ 8,311.03 Lakhs having indefinite useful life have been tested for impairment as at the Balance Sheet date. The recoverable amount is determined based on value in use calculation. These calculations use management assumptions and cash flow projections based on budgets approved by management covering a 5 years period. Cash flow projection beyond 5 years time period are extrapolated using the estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which cash generating unit operates. The management has performed its annual impairment tests for year ended on March 31, 2026 and March 31, 2025. Key assumptions underlying the value in use calculation are those regarding expected revenues, a post-tax discount rate of 21.20% per annum. Sales growth projections considers managements' expectation of market development, current industry trends and post-tax discount rate based on the relevant risks. 5% growth rate has been used in terminal year. The management believes that any reasonably possible change in the key assumptions would not cause the carrying amount to exceed the recoverable amount of the cash generating unit. Based on this analysis, management believes that change in any of above assumption would not cause any material possible change in carrying value of Goodwill over and above its recoverable amount. Based on impairment assessment conducted by the management, there is no impairment required.

* includes rental income from related parties (refer note 42)

ii) Contractual obligations

There are no contractual obligations to purchase, construct or develop investment properties.

iii) Estimation of Fair Value

The Group obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Group considers information from a variety of sources including:

- current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.
- discounted cash flow projections based on reliable estimates of future cash flows.
- capitalised income projections based upon a property's estimated net market income and a capitalisation rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by registered valuers as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The main inputs used are the (i) Market rates/ Marketability of the Land in the vicinity, (ii) Recent property deals/transactions, (iii) Negotiation skills of the buyer/seller, (iv) Demand and supply of properties, (v) Locality, neighbourhood, civic amenities, its connectivity to major centres etc., (vi) Shape, size, prominence, plot area and topography etc.

All resulting fair value estimates for investment properties are included in level 3.

iv) Leasing arrangements

The investment properties are leased to enterprises owned or significantly influenced by key managerial persons and/ or their relatives under operating leases with rentals payable monthly. Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term.

Lease payments for some contracts include inflationary increases, but there are no other variable lease payments that depend on an index or rate. Although the Company is exposed to changes in the residual value at the end of the current leases, the Company typically renews the operating leases with related parties and therefore will not immediately realise any reduction in residual value at the end of these leases.

19.1 Nature and purpose of reserves

a) Retained Earnings

Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

b) Capital reserve

Capital reserve are the reserve created for gain on bargain purchase related to business combinations.

c) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

d) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilized only in accordance with the specific requirements of Companies Act, 2013.

37. EXCEPTIONAL ITEMS

	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Wages code impact (Refer note 40 and note below)	1,449.65	-
Total	1,449.65	-

Note: On November 21, 2025, the Central Government has implemented four ('New Labour Codes'), viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020. These four codes replace and consolidate 29 existing labour laws. The Ministry of Labour and Employment has also issued the Frequently Asked Questions (FAQs) on the four codes.

The new labour codes prescribe an inclusive definition of the term 'wages', which among other matters is relevant for determination of post-employment and other employee benefits (including gratuity and leave encashment) to all employees. In accordance with the definition, certain specified items forming part of remuneration are not included in the wages and these excluded items cannot exceed 50% of total remuneration. If there is an excess, then it is presumed that excess amount also forms part of wages.

The Group has assessed the impact of these changes on the basis of legal view obtained by the management and best information available till approval of the Consolidated Financial Statements for issue. The Group has determined that these changes result in an increase in gratuity obligation of ₹ 761.38 Lakhs and in leave encashment of ₹ 688.27 Lakhs. The changes to gratuity and leave encashment obligation resulting from the labour codes are accounted as plan amendments and resulting past service cost are recognized as an expense immediately in the Consolidated Statement of Profit and Loss. Considering the materiality and regulatory-driven, non-recurring nature of this change, the Group has presented increase in obligation as an expense under the head "Exceptional Item" in the Consolidated Statement of Profit and Loss for the year ended March 31, 2026. Considering that it is emerging topic and the finalisation of Central/ State Rules is still pending, the Company will continue monitoring changes and provide appropriate accounting effect as required based on future developments.

38. EARNINGS PER SHARE (EPS)

a) Basic EPS amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year. Basic and diluted EPS are same as there are no convertible financial instruments outstanding as on Consolidated Balance Sheet dates.

b) The following reflects the income and share data used in the basic and diluted EPS computations:

	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Profit attributable to the equity holders of the Group	27,885.68	17,776.90
Weighted average number of equity shares for basic and diluted EPS	6,81,57,705	6,81,57,705
Basic and diluted earnings per share (face value ₹ 2 per share, March 31, 2025: ₹ 2 per share (₹))*	40.91	26.08

*There are no dilutive instruments

c) There have not been any transactions involving equity shares or potential equity shares between the reporting date and the date of authorisation of these consolidated financial statements.

(j) Merger of Lumax Ancillary Limited

On July 20, 2024, the Holding Company had filed the Scheme of Amalgamation and Merger ("Scheme") with Hon'ble National Company Law Tribunal, New Delhi Bench (NCLT) of its wholly owned subsidiary Lumax Ancillary Limited (Transferor Company 1) with the Holding Company for efficient utilisation & synergy of resources. The aforesaid scheme, inter-alia envisaged merger of the transferor into the Holding Company. The Scheme was approved by NCLT on March 11, 2026 which was filled with Registrar of Companies (ROC) on March 31, 2026. There is no impact of the said merger on Consolidated Financial Statements.

(k) Merger of IAC International Automotive India Private Limited

On September 10, 2025, the Holding Company had filed the Scheme of Amalgamation and Merger ("Scheme") with Hon'ble National Company Law Tribunal, New Delhi Bench (NCLT) of its wholly owned subsidiary IAC International Automotive India Private Limited (Transferor Company 2) with the Holding Company for efficient utilisation & synergy of resources. The aforesaid scheme, inter-alia envisaged merger of the transferor into the Holding Company. The Scheme was approved by NCLT on May 08, 2026 which was filed with Registrar of Companies (ROC) on May 18, 2026. There is no impact of the said merger on Consolidated Financial Statements.

(l) Acquisition of Greenfuel Energy Solutions Private Limited ("Greenfuel")

During the previous financial year, the Holding Company through its wholly owned subsidiary Company, "Lumax Resources Private Limited", acquired 60% equity and controlling stake in Greenfuel (other than its Battery / EV division which was demerged before the acquisition) for its alternate fuels business for an aggregate consideration of ₹ 15,308.58 Lakhs

Purchase consideration	Amount
Purchase consideration (included in cash flows from investing activities)	15,308.58
Less: net cash acquired from the subsidiary (included in cash flows from investing activities)	(189.00)
Add: transaction costs (included in cash flow from operating activities and charged as other expenses in the Consolidated Statement of Profit and Loss)	447.95
Net cash outflow on acquisition	15,567.53

This transaction was accounted for in accordance with the acquisition method specified in Ind AS 103 "Business Combination" and purchase consideration in excess of fair value of net assets acquired was recognized as goodwill, subject to finalisation.

During the current year (within the measurement period), the Group finalised the purchase price allocation by making necessary adjustments to the assumptions used in determining the fair value of the assets acquired. The management has assessed the impact of the change in measurement period adjustments as non-material. The fair values of identifiable assets and liabilities recorded by the Group are as follows:

Assets	Amount
Property, plant and equipment (refer note 3)	1,088.47
Right-of-use assets (refer note 6)	95.75
Other intangible assets (refer note 4)	15,585.99

Goodwill arising on acquisition (refer note 5) (E)	8,311.03
Purchase consideration (A+B+C+D+E)	15,308.58

The Group elected to measure the non-controlling interest in the acquiree at fair value as on the date of acquisition, which was estimated using a discount rate being the weighted average cost of capital of 28.4% and terminal value calculated based on long term growth rate of 3%.

Additionally, during the current year, the Scheme of Amalgamation between Greenfuel Energy Solutions Private Limited (Transferor Company, a step-down subsidiary of the Holding Company) and Lumax Resources Private Limited (Transferee Company, wholly owned subsidiary of the Holding Company) has been approved by the Hon'ble NCLT and a copy has been filed with the Central Government. Consequently, Greenfuel Energy Solutions Private Limited has been merged with Lumax Greenfuel Energy Solutions Private Limited (formerly known as Lumax Resources Private Limited).

40. GRATUITY AND OTHER POST-EMPLOYMENT BENEFIT PLANS

A) Leave obligation

The liabilities for compensated absence namely earned and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in statement of profit and loss.

B) Defined contribution plans

The Group has certain defined contribution plans including provident fund, employee state insurance and national pension scheme. Contributions are made to provident fund for employees @ 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The contributions are made of employee state insurance for employees @ 3.25% of basic salary as per regulations. Defined contributions are made to national pension funds. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognized during the year towards contribution to provident and other fund is as below:

	For the Year Ended March 31, 2026	For the Year Ended March 31, 2025
Employer's contribution to provident fund and other fund	1672.32	1373.05

C) Defined benefit plans

The Group provides for gratuity for employees in India. The amount of gratuity payable on retirement / termination is employee last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service. The gratuity plan is funded and the Company makes contribution to recognized funds in India. The Group does not fully fund the liability and maintains the target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. The gratuity fund plan assets of the Group are managed by "Lumax Auto Technologies Limited Employees Group Gratuity Assurance Scheme", "IAC International Automotive India Pvt Ltd Employees' Group Gratuity cum Life Assurance Scheme", "Lumax Cornaglia Auto Technologies Private Limited - Employees Group Gratuity Scheme"

h) A quantitative sensitivity analysis for significant assumption is as shown below:

	For the Year Ended March 31, 2026		For the Year Ended March 31, 2025	
	Gratuity Increase/(Decrease)		Gratuity Increase/(Decrease)	
	Funded	Unfunded	Funded	Unfunded
A. Discount rate				
Effect on Defined Benefit Obligation due to 1% increase in Discount Rate	(246.64)	(34.30)	(176.73)	(23.87)
Effect on Defined Benefit Obligation due to 1% decrease in Discount Rate	278.62	39.46	197.58	28.38
B. Salary escalation rate				
Effect on Defined Benefit Obligation due to 1% increase in Salary Escalation Rate	208.18	29.10	153.56	23.58
Effect on Defined Benefit Obligation due to 1% decrease in Salary Escalation Rate	(196.53)	(26.72)	(142.05)	(20.86)
C. Withdrawal rate				
Effect on Defined Benefit Obligation due to 1% increase in Withdrawal rate	(7.85)	(13.22)	(14.33)	(10.36)
Effect on Defined Benefit Obligation due to 1% decrease in Withdrawal rate	8.74	22.50	15.76	19.14

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions might be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognized in the Consolidated Balance Sheet.

i) The expected benefit payments in future years is as follows:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Within 1 year	1,766.77	781.51

j) The weighted average duration of the defined benefit obligation is 8.35 - 10.46 years (March 31, 2025: 8.13 - 9.05 years).

k) The undiscounted maturity analysis for Define Benefit Obligation is as follows:

	For the Year Ended March 31, 2026		For the Year Ended March 31, 2025

The transactions with related parties are carried out on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the year ended March 31, 2026, the Group has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

43. Operating segments are defined as components of an enterprise for which financial information is available that is evaluated regularly by the Chief Operating Decision Makers (CODM), in deciding how to allocate resources and assessing performance. The Group's CODM is Board of Directors of the Holding Company and the Group has only one reportable business segment, i.e. manufacturing and trading of automobile components, which is reviewed by its CODM. As the Group has single reportable segment, the segment wise disclosure requirement under IND AS - 108, 'Operating Segments' is not applicable. The Group operations are primarily domiciled in India. For revenue by location of customers refer note 28.5.

44. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

a) Property, plant and equipment

The useful lives and residual values of property, plant and equipment are determined by the management based on technical assessment by the management. The Group believes that the derived useful life best represents the period over which the Group expects to use these assets.

b) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

c) Employee benefit obligations

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 40.

d) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

e) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are also relevant to other intangibles. During the year, the Group has done the impairment assessment of non-financial assets and have concluded that there is no impairment in value of non-financial assets as appearing in the financial statements.

g) Revenue from operations - variable consideration

The Group applied the following judgments and estimated that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining method to estimate variable consideration and assessing the constraint:- Certain contracts for the sale of products include a right of price revision on account of change of commodity prices/purchase price that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Group estimates variable considerations to be included in the transaction price for the sale of traded goods (in after-market) with volume rebates. The Group's expected volume rebates are analysed on a per customer basis for contracts that are subject to a single volume threshold. Determining whether a customer will be likely entitled to rebate will depend on the customer's historical rebates entitlement and accumulated purchases to date.

h) Lease incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore its incremental borrowing rate (IBR) to measure lease liability. The IBR is the rate of interest that the Group would have to pay to borrow over similar term, and with a similar security, the fund necessary to obtain an asset of a similar value to the Right-to-use assets in as similar economic environments. The IBR therefore effects what the Group "would have to pay" which requires estimates when no observable rates are available or when they need to be adjusted to reflect the term and conditions of the lease. The Group estimates the IBR using observable inputs such as market interest rates when available.

i) Customer relationship (Intangible assets)

Customer relationship recognized in the course of purchase price allocation of the acquired entities. The management believes that the value assigned are reasonable.

45. CAPITAL MANAGEMENT

Risk Management

For the purpose of the Group's capital management, capital includes issued equity capital, all equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholders' value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants, if any. To maintain or adjust the capital structure, the Group reviews the fund management at regular intervals and take necessary actions to maintain the requisite capital structure. The Group monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2026 and March 31, 2025.

Discount rate used in determining fair value

The interest rate used to discount estimated future cash flows, where applicable, are based on the incremental borrowing rate of borrower which in case of financial liabilities is average market cost of borrowings of the Group and in case of financial asset is the average market rate of similar credit rated instrument. The Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

47. FAIR VALUE HIERARCHY

All financial instruments for which fair value is recognized or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

49. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

This note explains the Group's exposure to financial risks and how these risks could affect the Group's future financial performance. Current year profit and loss information has been included where relevant to add further context

The Group's financial risk management is an integral part of how to plan and execute the business strategies.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by Finance department that advises on financial risks and the appropriate financial risk governance framework for the Group. The Finance department provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and bank balances, Trade receivables, Loans and Other Financial Assets measured at amortized cost	Ageing analysis Credit ratings	Diversification of bank deposits and periodic monitoring of realisable value of assets. Business with customers having reliable credit rating in the market.
Liquidity risk	Borrowings, Trade payables and Other Financial liabilities	Rolling cash flow forecasts	Availability of adequate cash, liquid assets, committed credit lines and borrowing facilities.
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level. Recovery of adverse foreign exchange movement from customers.
Market risk - Interest rate	Borrowings at variable rate	Cash flow forecasting Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level.
Market risk - Equity price risk	Investment in equity shares of listed and non listed companies	Sensitivity analysis	Diversification of investment and regular monitoring .

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instrument effected by market risk include loans and borrowings, deposits, FVTOCI and FVTPL instrument.

The sensitivity analysis in the following sections relate to the position as at March 31, 2026 and March 31, 2025.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2026 and March 31, 2025 including the effect of hedge accounting.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest bearing financial liabilities includes borrowings with fixed interest rates.

The Group's fixed rate borrowings are carried at amortized cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Interest rate risk exposure

The Group's variable rate borrowing is subject to interest rate fluctuations. Below is the overall exposure of the borrowing:

	As at March 31, 2026	As at March 31, 2025
Variable rate borrowing	98,826.95	75,714.30
Fixed rate borrowing	1,239.41	1,124.21
Total borrowing	1,00,066.36	76,838.51

Sensitivity

Profit or loss and equity is sensitive to higher/ (lower) interest expense from borrowings as a result of changes in interest rates.

	Decrease/ (Increase) in profit or loss for the year ended March 31, 2026	Decrease/ (Increase) in profit or loss for the year ended March 31, 2025
Interest sensitivity		
Increase by 1% (March 31, 2025: 1%)	988.27	757.14
Decrease by 1% (March 31, 2025: 1%)	(988.27)	(757.14)

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency).

The Group transacts business in local currency as well as in foreign currency. The Group has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

The Group's exposure to foreign currency risk at the end of the reporting period expressed in ₹ Lakhs are as follows:

Currency	As at March 31, 2026					As at March 31, 2025				
	Assets		Liabilities		Net Exposure to Foreign currency	Assets		Liabilities		Net Exposure to Foreign currency
	Trade receivables	Cash & Cash equivalents	Trade payables	Borrowings		Trade receivables	Cash & Cash equivalents	Trade payables	Borrowings

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

Exposure gain/(loss)	As at March 31, 2026		As at March 31, 2025	
	Increase in foreign currency rate by 5%	Decrease in foreign currency rate by 5%	Increase in foreign currency rate by 5%	Decrease in foreign currency rate by 5%

Cash & Cash equivalents	5.68	(5.68)	5.38	(5.38)
Trade Payables	(246.69)	246.69	(180.08)	180.08
Borrowings	(61.48)	61.48	(41.24)	41.24

iii) Equity price risk

The Group's investment in listed and non-listed equity & preference securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the price risk through diversification and by placing limits on individual and total instruments. Reports on the equity & preference portfolio are submitted to the Group's management on a regular basis. The Board of Directors reviews and approves all equity & preference investment decisions.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 26,773.37 Lakhs (March 31, 2025: ₹ 13,594.51 Lakhs). A decrease of 10% on the NSE market index could have an impact of approximately ₹ 2,677.34 Lakhs (March 31, 2025: ₹ 1,359.45 Lakhs) on the OCI or equity attributable to the Group. An increase of 10% in the value of the listed securities would also impact OCI and equity by similar amount.

At the reporting date, the exposure to unlisted equity & preference securities at fair value was ₹ 3,074.02 Lakhs (March 31, 2025: ₹ 2,727.35 Lakhs). A decrease of 10% in fair value could have an impact of approximately ₹ 307.40 Lakhs (March 31, 2025: ₹ 272.74 Lakhs) on the OCI or equity attributable to the Group. An increase of 10% in the value of the listed securities would also impact OCI and equity by similar amount.

B. Credit risk

Credit risk arises from cash and cash equivalents, contractual cash flows of debt instruments carried at amortized cost and at fair value through profit or loss, favourable derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables and recoverables from related parties.

Trade receivables

Customer credit risk is managed by the Group subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of financial assets (trade receivable). The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located and being operated in India.

Further, the Group's customer base majorly includes Original Equipment Manufacturers (OEMs), Large Corporates and Tier-1 vendors of OEMs and dealers. Based on the past trend of recoverability of outstanding trade receivables, the Group has not incurred material losses on account of bad debts. The Company is earning revenue of ₹ 2,01,410.37 Lakhs (March 31, 2025: ₹ 1,47,336.30 Lakhs) in the domestic market from two customers. The following table provides information about the exposure to credit risk and expected credit loss as at March 31, 2026 and March 31, 2025 for trade receivables under the simplified approach.

Loans to related parties

The Group considers the probability of default upon initial recognition of loan and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the loan as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. In particular, the following indicators are incorporated:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of the borrower.
- significant changes in the expected performance and behaviour of the counterparty, including changes in the payment status of the counterparty in the Group and changes in the operating results of the counterparty.

A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a counterparty failing to engage in a repayment plan with the Group. The Group categorises a loan for write-off when a related party fails to make contractual payments more than 120 days past due. Where loans have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss.

There is no loss allowance that is to be recognized in the Consolidated Financial Statement for the year ended March 31, 2026 and March 31, 2025.

C. Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including loans from banks at an optimised cost.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

As at March 31, 2026	On Demand	Less than 1 year	1 to 5 years	> 5 years	Total
Borrowings	44,561.12	17,936.15	36,353.73	1,215.36	1,00,066.36

Total	31,004.53	93,076.45	43,437.04	4,042.38	1,71,560.40

D. Commodity risk

The Group is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchases of steel & plastic granules which are volatile products and are major component of end product. The prices in these purchase contracts are linked to the price of raw steel & plastic granules and demand supply matrix. However, at present, the Group does not hedge its raw material procurements, as the price of the final product of the Group also vary with the price of underlying commodity which mitigate the risk of price volatility.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

50. Revenue from operations is measured by the Group at the transaction price i.e. amount of consideration received/ receivable in exchange of transferring goods or services to the customers. In determining the transaction price for the sale of goods, the Group considers the effect of price adjustments, to be claimed/ passed on to the customers, based on various cost parameters like raw material and other costs.

The Group is required to pass on the savings in variable cost from the billed sales price for which the final negotiations with the customer is ongoing and will be settled in near future. The total estimated liabilities outstanding as at March 31, 2026 is ₹ 7,412.19 Lakhs (as at March 31, 2025: ₹ 3,181.02 Lakhs), which management believes is sufficient to discharge liabilities.

51. AUDIT TRAIL

- (i) The Holding Company and subsidiaries, except for one subsidiary (refer below), use multiple accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software, except for the following: (i) in respect of the core accounting software, the audit log at the application level is not maintained in case of modification by certain users with specific access and the audit trail feature was not enabled at the database level to log any direct data changes; (ii) with respect to one accounting software of a third party service provider used for the entire audit period for maintaining certain records, audit log of modification does not contain the pre-modified values at database level; and (iii) with respect to another accounting software of a third party service provider used for the entire audit period for maintaining certain records, in the absence of any information pertaining to audit trail in the independent service auditor's report, we are unable to comment on the audit trail (edit log) feature in that accounting software. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Holding Company and subsidiaries as per the statutory requirements for record retention.
- (ii) In respect of one of the subsidiary Company, the accounting software used for the period April 01, 2025 to August 31, 2025, audit trail feature was not enabled for all relevant transaction. With effect from September 01, 2025, the subsidiary Company has migrated the data to an upgraded version of that software having a feature of recording audit trail (edit log) facility that has operated throughout the period from September 01, 2025 to March 31, 2026. However, the audit log at the application level is not maintained in case of modification by certain users with specific access and no audit trail has been enabled at the database level. Further, the audit trail was not maintained in the prior year as per the statutory requirements for record retention.

52. The Group's business research and development concentrates on the development of automotive equipment. Research and development costs that are not eligible for capitalisation have been expensed during the year ended March 31, 2026 amounting ₹ 695.00 Lakhs (March 31, 2025: ₹ 648.50 Lakhs) and they are recognized in employee benefits expense & other expenses.

53. OTHER REGULATORY INFORMATION REQUIRED BY SCHEDULE III

- (xi) The borrowings obtained by the Group from banks have been applied for the purposes for which the said loans were taken.
- (xii) The Group has complied with the Scheme of Arrangements which have an accounting impact on the current year and previous year.

54. During the previous financial year, one of the subsidiary Companies (IAC International Automotive India Private Limited ("IAC India")), had paid/accrued remuneration to its Managing Director for the year ended March 31, 2025 in excess of the limit prescribed under Section 197 of the Companies Act, 2013. The excess remuneration amounted to ₹ 323.60 Lakhs, was subsequently approved by shareholders of IAC India in its Annual General Meeting held on June 09, 2025, in accordance with the provisions of the Companies Act, 2013. Further, during the current year, IAC India was merged with the Holding Company. Subsequent to the merger, the concerned individual was not designated as Key Managerial Personnel (KMP) of the Holding Company and accordingly the limit prescribed under Section 197 of the Companies Act, 2013 relating to remuneration of KMP is not applicable to him.

55. These Consolidated Financial Statements have been approved by the Board of Directors of the Holding Company in their meeting held on May 29, 2026 and are subject to the shareholder's approval in the forthcoming annual general meeting.

These are the notes to the consolidated financial statements referred to in our report of even date.

For detailed process, please visit website at <https://www.lumaxworld.in/lumaxautotech/tax-deduction-at-source-on-dividend.html> and also refer to the e-mail sent to members in this regard.

Dividend amount, subject to tax deducted at source, for Members holding shares in Electronic Form will be credited to their respective Bank Account through Electronic Clearing Service (ECS), wherever such facilities are available, soon after the declaration of the Dividend in the AGM. If there is any change in the Bank Account they are requested to intimate the same to their respective DPs for further action.

12. **Transfer of Unclaimed/Unpaid dividend amounts to the Investor Education and Protection Fund (IEPF):**

Members may note that pursuant to the provisions of Section 124, 125 and other applicable provisions, if any, of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 read with the relevant circulars and amendments thereto ("IEPF Rules"), (as amended from time to time), the amount of dividend remaining unpaid or unclaimed for a period of 7 (seven) years from the date of transfer of the amount to Unpaid dividend account, shall be transferred to the Investor Education and Protection Fund ("IEPF") set up by Government of India. Further, all the corresponding shares for which dividend has not been paid/claimed for 7 (seven) consecutive years shall also be transferred to the demat account of the IEPF authority.

It may be noted that the Unpaid/Unclaimed Dividend lying in the Unpaid Dividend Account of the Company for the Financial Year 2017-18, which was declared on August 21, 2018 was transferred to IEPF on October 17, 2025. Further the corresponding shares were also transferred to the demat account of the IEPF authority within the stipulated timelines.

It may be noted that the due date for transfer into IEPF of the Unpaid/Unclaimed Dividend lying in the Unpaid Dividend Account of the Company for the Financial Year 2018-19 which was declared on August 23, 2019 is September 23, 2026. Further, all the shares in respect of which dividend has not been paid or claimed for seven consecutive years shall also be transferred to IEPF.

The Members, whose unclaimed dividends/shares have been transferred to IEPF, may claim the same by making an application in Form No. IEPF-5 to the IEPF Authority after complying with the procedure prescribed under the IEPF Rules.

13. Members are requested to support Green Initiative by choosing to receive the Company's communication through e-mail and are requested to update their email addresses with their DPs.
14. As per the provisions of Section 89 read with Section 90 of the Act, the combined effect of which is that every person, who is holding a beneficial interest in the shares of the Company, shall submit his/her declaration to the Company in the prescribed form and thereafter the Company shall intimate to the Registrar of Companies in the prescribed form along with such declaration.

NOTICE OF ANNUAL GENERAL MEETING (Contd.)

Every member(s) of the Company is requested to provide the declaration(s) regarding their beneficial interest, if any in the shares of the Company as required under Section 89 and 90 of the Act. The shareholders are further advised to refer Companies (Significant Beneficial Owners) Amendment Rules, 2019 before making declaration in respect of Significant Beneficial Owner.

15. **Change/Updation of details by Shareholders and availability of Dispute Resolution Mechanism:**

As per the provisions of Section 72 of the Act, the facility for making nomination is available to the Members in respect of the shares held by them. Members who have not yet registered their nominations are requested to submit the said form to their DPs.

Availability of Dispute Resolution Mechanism

SEBI vide its circular No. SEBI /HO/ MIRSD/ MIRSD_RTAMB/P/CIR/ 2022/76 dated May 30, 2022 (subsumed as part of the SEBI Master Circular No HO/38/13/ (4)2026-MIRSD-POD/II/4298/2026 dated February 06, 2026) read with Regulation 40 of Listing Regulations, has laid down Standard Operating Procedures (SOP) to be followed for dispute resolution under the Stock Exchange arbitration mechanism for disputes between a Listed Company and/or Registrars to an Issue and Share Transfer Agents (RTAs) and its Shareholder(s)/Investor(s) pertaining to disputes emanating from investor service requests such as transfer/transmission of shares, demat/remat, issue of duplicate shares, transposition of holders, investor entitlements like corporate benefits, dividend, bonus shares, rights entitlements, credit of securities in public issue, interest /coupon payments on securities and delay in processing/wrongful rejection of aforesaid investor service.

The Company ensures that the transactions with related parties are carried out on arms' length basis and accordingly, the factors including market dynamics, pricing benchmark available for similar types of products/transactions, comparable with unrelated parties, cost plus reasonable margin, market price, transaction net margin methods are considered while fixing the consideration and other terms of the transactions. Further, whenever required, valuation certificate from an independent agency is obtained.

Keeping in view the business needs and the future projections, the management of the Company prepared

estimates for each nature of transaction to be carried out during the financial year 2026-27 with each related party including LIL and placed the same before the Audit Committee of Directors in their meeting held on March 27, 2026 along with detailed justification and the information prescribed by SEBI in terms of the industry standards and a certificate provided by the CEO and Chief Financial Officer of the Company, to seek their omnibus approval in terms of the provisions of Section 177(4) of the Act and Regulation 23 of the Listing Regulations. Only the independent directors, as required by the Listing Regulations, comprising of 3/4 of the total strength of the Audit Committee, deliberated in detail and unanimously accorded their omnibus approval for the transactions to be carried out with each related party during the financial year 2026-27, which included aggregate value of transactions of ₹ 805.21 Crores with LIL. Further, as required under the Listing Regulations, the Audit Committee reviews the actual value of transactions against each specific nature of transaction on a quarterly basis to ensure that the actual value remains within the overall limits of omnibus approval originally accorded. Furthermore, on a quarterly basis, a certificate from an independent firm of Chartered Accountant confirming that all these transactions were in the ordinary course of business and at arms' length basis, is being placed before the Audit Committee of Directors.

In terms of the provisions of Regulation 23 of the Listing Regulations read with Schedule XII thereto, where the annual consolidated turnover of the Company is up to ₹ 20,000 crores, transaction(s) of the Company with a related party will be considered material if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year exceeds 10% (Ten Percent) of the annual consolidated turnover of the listed entity. Accordingly, the materiality threshold for seeking shareholders' approval for related party transactions of the Company is ₹ 487.03 Crores and the said limits apply even if the transactions are undertaken in the ordinary course of business and at an arm's length basis.

The Audit Committee has also reviewed the certificate provided by the CEO and Chief Financial Officer of the Company, as required under the RPT Industry Standards.

Details of the proposed Related Party Transactions between the Company and LIL, including the information required to be disclosed in the Explanatory Statement pursuant to the SEBI Master Circular dated January 30, 2026, read with SEBI circulars dated June 26, 2025 and October 13, 2025, are as follows:

NOTICE OF ANNUAL GENERAL MEETING (Contd.)

S. No.	Particulars of the information	Information provided by the management
6	Justification as to why the RPTs proposed to be entered into are in the interest of the listed entity	Both LIL and the Company are engaged in the business of manufacturing various types of automotive components. The Company is required to sell/procure/purchase various products and services to/from LIL. Similarly, few OEM customers of both LIL and the Company desire to procure products from only one supplier instead of dealing with two separate suppliers. Hence, in order to meet the requirement of such customers, LIL and the Company purchase/sale the products to each other. Besides the above, both LIL and the Company share their respective resources with each other to achieve optimum cost targets and economies of scale.
7	Details of the promoter(s)/ director(s) / key managerial personnel of the listed entity who have interest in the transaction, whether directly or indirectly. A.) Name of the director / KMP B.) Mr D.K. Jain is Executive Chairman of the Company and is the father of Mr Deepak Jain and Mr Anmol Jain. Mr Deepak Jain, Vice Chairman of the Company holds 13.30% shares of LIL and is acting as Chairman and Managing Director on the Board of LIL. Mr Anmol Jain, Managing Director of the Company holds 13.30% shares of LIL and is acting as Joint Managing Director on the Board of LIL. None of the other promoter(s)/ director(s)/ key managerial personnel of the Company and their relatives are concerned or interested, financially or otherwise in the proposed transactions. Their interest or concern or that of their relatives, is limited only to the extent of their holding directorship/ shareholding in the Company and LIL.
8	A copy of the valuation or other external party report, if any, shall be placed before the Audit Committee.	The RPTs are / will be in line with the Company's Pricing Policy for transactions with related parties. These transactions will be on an arm's length basis and in the ordinary course of business. The RPTs will be supported by the Valuation Report of an Independent valuer, wherever necessary.
9	Other information relevant for decision making.	All relevant information have been appropriately disclosed herein for informed decision making.

The aforesaid proposal has been approved by the Audit Committee and Board of Directors and the same is being recommended to Members for their approval.

Except, Mr D.K. Jain, Mr Anmol Jain and Mr Deepak Jain, being Promoter Directors on the Board of the Company as well as Promoters of LIL and their relatives to the extent of their shareholding, none of the other Directors, Key Managerial Personnel of the Company and their relatives, are concerned or interested, financially or otherwise, in the said resolution.

The Board of Directors recommends the resolution set forth in Item No. 4 for approval of the Members as an Ordinary Resolution.

Item No. 5

The Board of Directors, based on the recommendation of the Audit Committee, in its Meeting held on May 29, 2026 have approved the re-appointment of M/s Jitender, Navneet & Co., Cost Accountants (Firm Regn. No. 000119) as the Cost Auditor of the Company for audit of cost accounting records of the Company for the Financial Year 2026-27 and fixed their fee at ₹ 2.00 Lakhs (Rupees Two Lakhs Only) excluding taxes and reimbursement of out-of-pocket expenses at actuals, if any, in connection with the audit.

M/s Jitender, Navneet & Co., Cost Accountants (Firm Regn. No.000119) have confirmed that they hold a valid certificate of practice under Sub-section (1) of Section 6 of the Cost and Works Accountants Act, 1959 and have also shared

their eligibility and consent to act as the Cost Auditors of the Company for the Financial Year 2026-27.

In accordance with the provisions of Section 148 of the Act and the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditor has to be ratified by the Members of the Company.

Accordingly, ratification by the Members is sought to the remuneration payable to the Cost Auditors for conducting the audit of the cost records of the Company for the Financial Year ending March 31, 2027.

None of the Directors, Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the agenda as set out at Item No. 5 of the Notice.

The Board recommends the resolution set forth in Item No. 5 for approval of the Members as an Ordinary Resolution.

Item No. 6

The members may be aware that, as a part of the growth strategy, the Company has entered into joint venture agreements with various joint venture partners to establish joint venture / subsidiary companies. The initial capital in these joint venture / subsidiary companies are infused by the joint venture partners. Subsequent to this, these joint venture / subsidiary companies require additional funding from the banks / financial institutions / joint venture partners. Sometimes, these banks / financial institutions while considering the borrowing proposals insist for the corporate guarantee of the Company and the Company agrees to provide the same after complying with the applicable regulatory requirements.

Further, during last 2-3 years, the Company has also been looking for inorganic growth through acquisitions and mergers, through subsidiary companies and to fund the acquisition, the Company is/will be required to provide loans/guarantees to/for the financial assistance availed by the subsidiary companies.

NOTICE OF ANNUAL GENERAL MEETING (Contd.)

The Company intends to continue with the above growth strategy going forward also and foresees that the Company might be required to provide financial support by way of providing loan for the business activities, including working capital requirements and capital expenditure, Corporate Guarantee(s) to or on behalf of its subsidiary companies or associates or group entities or any other entity in whom any of the Director of the Company is interested or deemed to be interested (hereinafter collectively referred to as the "Entities") from time to time.

Pursuant to the provisions of Section 185 of the Companies Act, 2013 read with the Companies (Meeting of Board and its Powers) Rules, 2014 (the "Rules") (as amended from time to time), no company shall, directly or indirectly, advance any loan, including any loan represented by a book debt to, or give any guarantee or provide any security in connection with any loan taken by (a) any director of company, or of a company which is its holding company or any partner or relative of any such director; or (b) any firm in which any such director or relative is a partner. However, a company may advance any loan including any loan represented by a book debt, or give any guarantee or provide any security in connection with any loan taken by any person in whom any of the director of the Company is interested, subject to the condition that (a) a special resolution is passed by the Company in general meeting and the loans are utilized by the borrowing company for its principal business activities.

Considering the aforesaid compliance requirements, the Board of Directors in its meeting held on May 29, 2026, based on the recommendation of the Audit Committee, have considered and approved the proposal and recommended the same for seeking shareholders' approval by way of a special resolution to advance loan(s) in one or more tranches (including loans represented by way of book debt), and/or give guarantee(s), and/or provide security(ies) in connection with any loan taken or to be taken by any entity in which any of the Directors of the Company is deemed to be interested as specified in the Explanation to Section 185(2) of the Act (collectively referred to as the "Entities"), for an aggregate amount not exceeding ₹ 500 Crores (Rupees Five Hundred Crores Only) at any given time, for the purpose of capital expenditure of the projects and/or working capital

requirements, as may be required from time to time for principal business activities and other matters connected and incidental thereto of the entities, within the limits as mentioned in the Item no. 6 of the notice.

The members may note that Board of Directors would carefully evaluate the proposals to provide such loan(s) including loan represented by way of Book Debt to, and/or give guarantee(s) and/or provide security(ies) in connection with any loan taken/to be taken by the entities through deployment of funds out of internal resources/accruals and/or any other appropriate sources, from time to time and the proposed loan shall be at such rate of interest as agreed by the parties in the best interest of the Company and shall be used by the borrowing company for its principal business activities only.

None of the Directors or Key Managerial Personnel or their relatives are in any way concerned with or interested, financially or otherwise in the said resolution except to the extent of their shareholding in the Company, if any

The Board recommends the resolution set forth in Item No. 6 for approval of the Members as a Special Resolution.
